# **Audit Findings**

#### **Audit Narrative**

#### **Pre-Onsite Audit Phase**

#### **Audit Planning and Logistics:**

I had the opportunity to discuss the audit process and expectations of both parties with PREA Coordinator Suzianna Fritz. We coordinated the date for the onsite audit at the facility. During these conversations, we outlined an overall audit schedule.

#### **Posting Notice of the Audit:**

I forwarded the audit postings to the PREA Coordinator on March 31, 2019. The posting included the date of the audit, purpose of the audit, my contact information, and a statement regarding the confidentiality of any communication received. The postings were placed throughout the facility, including all housing units, visiting areas, recreational areas, and all common areas. I verified the placement of the audit notices during the onsite portion of the audit during the facility tour and during the resident and staff interviews. No staff nor residents contacted me.

#### Review of Agency and Facility Policies, Procedures, and Supporting Documentation:

I received the agency policies and documentation prior to the onsite audit. These were received on a flash drive. The Policies, Procedures, and Documents reviewed during this phase of the audit are listed under Onsite Audit, with all documentation reviewed during the course of the audit.

#### **Outreach to Community Advocacy Organizations:**

I contacted both the Broome County Crime Victims Assistance Center, INC. and the Sexual Assault Resource Center. They both related that they knew of no issues at the facility.

#### **Onsite Audit Phase**

#### Site Review:

On May 30, 2019, I met with the Agency PREA Coordinator, Facility Staff, and New York Department of Corrections and Community Supervision staff. After this brief meeting, a facility tour was conducted. During the tour, I had the opportunity to view all areas of the facility, no areas were not toured. I interacted with both staff and residents, as well as observed the interaction between the staff and residents. I was able to verify the location of cameras throughout the facility, as well as the camera monitor locations. The facility has three interior cameras and exterior cameras on the doors. Throughout the facility, I observed the related PREA information, Audit Posting, and applicable policies and procedures which are accessible to all residents.

After the facility tour, the following interviews were conducted in the kitchen of the facility this provided privacy during the interview. All residents at the facility were interviewed.

Interview Type	Number
Random Resident Interviews	3
Youthful Residents	Facility does not house
Residents with a Physical Disability	0
Residents who are Blind, Deaf, or Hard of Hearing	0
Residents who are Limited English Proficient	0
Residents with a Cognitive Disability	0
Residents who Identify as Lesbian, Gay or Bisexual	
Residents who identify as Transgender or Intersex	0
Residents who Reported Sexual Abuse	0
Residents who Reported Sexual Victimization During Risk Screening	0
Total Resident Interviews	3

During the interview process, several targeted categories of residents were not being housed at the facility.

I conducted the interviews with all residents, in the same manner, a preamble to the interview was related to the resident explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No residents refused to speak with me. During the interviews, I utilized a copy of the initial PREA information received by residents, and Screening form to visually stimulate the resident's recollection of their initial intake process. The facility was only housing 3 residents at the time of the audit.

After the resident interviews, we discussed the onsite portion of the audit, including facility tour, and staff interview location, and document review.

During the onsite audit, I had the opportunity to interview Michelle Fortune, a Reentry Operations Manager and Sara Donolon and Laurae Rockenstyre Contract Managers all employed by the New York State Department of Corrections and Community Supervision, They explained the investigative process and confirmed that any investigation at this facility would be reported to and investigated by the Office of Special Investigations Department of Corrections and Community Supervision. They also confirmed that during the first auditing cycle, the contracted facilities were not obligated to be audited, but had to follow the PREA Standards, with the new contract they need to be audited.

Upon completion of the resident interviews, the staff interviews were conducted in the same office. During the process, I interviewed staff in the following categories:

Interview Type	Number
Random Staff Interviews	2
Intermediate or Higher Level Staff Conducting	
Unannounced Rounds and Intake Staff	0
Medical and Mental Health Staff	0
SANE Nurse	0
Administrative Staff	1

Total Staff Interviews	7

I conducted the interviews with all staff in the same manner, a preamble to the interview was related to the staff member explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No staff refused to speak with me.

At the conclusion of the Onsite Audit, an exit conference was held with the administration. At this time, I provided an overview of the audit findings during the onsite audit portion.

#### **Post Audit:**

Upon completion of the Pre-Audit and Onsite Audit phases, I conducted a systematic evidence review of all of the information obtained during the audit process. I utilized the Compliance Tool as a guide to ensure that all aspects of each standard were met. This assurance was made by triangulation of the policies and documentation reviewed, my personal observations during the onsite audit, and through the information received during the interviews. After taking all of these factors into account, I found that the facility has met all of the standards and are in compliance with the Prison Rape Elimination Act National Standards for Community Confinement.

# **Facility Characteristics**

The Catholic Charities of Chemung and Schuyler Counties Community Based Residential Program (CBRP) is located at homeless shelter that is located at stationed on the shelter side and make rounds through the Residential Program.
The facility has a housing capacity of 5 male residents, all who are placed at the facility through New York State Corrections and Community Supervision.
Upon entering the facility, you enter into the living room. Directly off of the living room is the kitchen, a hallway is off to the left of the living room. Two multi-occupancy bedrooms are located off to the left of the hallway, and a bathroom is on the right at the end of the hallway.
The bathroom is single occupancy with a closable door. The shower has a curtain for privacy while showering.
The two bedrooms have closable doors, which provide privacy while changing clothes.
The residents have the opportunity to leave the facility at 8:00 a.m. and return at various times in the early evening. The time out of the facility is adjusted for those working different hours.
During my tour of the facility, I found that the information on the Prison Rape Elimination Act, and reporting avenues are located throughout the facility.
I found that staff makes unannounced rounds in the facility this movement of staff deters any violation of the PREA policy and more importantly provides an overall safe environment for both residents and staff. During the interviews, I found that New York State Corrections and Community Supervision Staff are at the facility on almost a daily basis, and an unannounced tour of the facility occurs once a month.
During the onsite audit, I was impressed with the overall culture of the facility, and the professional as well as respectful treatment of the residents. I strongly believe that this culture helps to maintain the safe environment at the facility, and has built confidence in the residents to report any issues directly to staff. This was corroborated during my interviews with the residents during the onsite audit.

#### **EVIDENCE OF COMPLIANCE:**

Catholic Charities Sexual Abuse and Sexual Harassment Policy dictates the agency's mandated zero tolerance toward all forms of sexual abuse and sexual harassment and outlines the agency's approach to preventing, detecting, and responding to such conduct. This policy furthermore defines all sexual abuse and sexual harassment.

standard for the relevant review period)

**Does Not Meet Standard** (Requires Corrective Action)

I reviewed the policy in its entirety, as well as questioned staff members on its content and applicable sections to their specific duties within the facility. The staff understood the policy and its practical application to the daily operation of the facility.

The agency has designated an agency PREA Coordinator. During the interview, she related that she has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the

PREA standards. I found the Agency PREA Coordinator to be well versed in the PREA Standards and their daily application in the facility.
Prior to the onsite audit, all documentation was reviewed, during the onsite portion, I observed the policies in daily practice, and this was further confirmed during my interviews with both staff and residents.
After a careful review of all documentation, and the information received during interviews, I found that the agency has substantially exceeded the requirements of this standard, and all provisions.
Standard 115.212: Contracting with other entities for the confinement of residents
115.212 (a)
If this agency is public and it contracts for the confinement of its residents with private agencies or other entities including other government agencies, has the agency included the entity's obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? EVIDEN	CE OF COMPLIANCE			

The agency has developed a facility staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect residents against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities have taken into consideration all areas enumerated under this standard. Compliance was determined by reviewing the aforementioned policies. I further questioned the staff on the policies and the ability to fully staff the facility at all times. I was informed that the facility is staffed at all times.

11

The staffing plan is part of the contract with the New York State Corrections and Community Supervision. The staffing plan has not been deviated from within the last 12 months. The facility has not had any incidents related to sexual abuse or sexual harassment. Adjustments that may need to be made to the staffing plan, deployment of video monitoring and other technologies, and any resources available are discussed by facility staff, and during the monthly tour by the New York State Corrections and Community Supervision. This was confirmed during the staff interviews. The agency has implemented a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. These unannounced rounds take place during all shifts at the facility. The agency has a policy prohibiting staff from alerting other staff members that these supervisory rounds are occurring. I further confirmed the rounds are occurring during the staff and resident interviews as well as reviewing the log generated by staff. I further recognized this during the facility tour with the staff, they were familiar with individual residents, and these residents were familiar with them, they would occasionally interact with a resident, I found this interaction to be professional and extremely respectful. After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions. #### **EVIDENCE OF COMPLIANCE:**

The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches unless in exigent circumstances or when performed by a medical practitioner. I confirmed this procedure during staff and resident interviews, as well as a review of the policy. I also confirmed that the facility had not conducted a search under these circumstances.

The facility is an all-male facility and does not house any females.

The above policies outline procedures and practices that enable residents to shower, perform bodily functions, and change clothing without a nonmedical staff of the opposite gender is viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine housing unit checks. The policies further dictate that staff of the opposite gender announce their presence when entering a resident housing unit.

The facility has one bathroom utilized by all of the residents. The bathroom has an operational door and a shower curtain for the shower.

The facility does not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, it is determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. I further confirmed the practices during the staff and medical interviews. When a transgender or intersex resident is placed at this facility, they would have been identified as such by the facility they were being transferred from.

The facility does not conduct any pat-down searches or strip searches of residents.

After a careful review of all documentation, and the information received during interviews, I found that the agency and facility are substantially compliant with the requirements of this standard and all provisions.

EVIDE	NCE O	F COMPLIANCE:

The agency has taken appropriate steps to ensure that residents with disabilities (including, for example, residents who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. These steps include, when necessary to ensure effective communication with residents who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency shall ensure that written materials are provided in formats or through methods that ensure effective communication with residents with disabilities, including residents who have intellectual disabilities, limited reading skills, or who are blind or have low vision.

The facility outlines the response to residents in these categories in the policy. The policy outlines procedures for residents who are not only non-English speaking but all who are enumerated in this standard. I confirmed the use of this plan during the staff and resident interviews.

The agency has taken steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to residents who are limited English proficient.

The agency does not rely on resident interpreters, resident readers, or other types of resident assistants. The investigations at the facility would be conducted by the Office of Special Investigations Department of Corrections and Community Supervision, New York State Police, and the Rochester Police Department. The New York State Department of Corrections and Community Supervision has policies in place that prohibit the use of resident interpreters.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

#### **EVIDENCE OF COMPLIANCE:**

The agency has policies and procedures in place that identify anyone who had been convicted of sexual abuse in a confinement setting, engaged in or attempted to engage in sexual activity in the community or has been civilly or administratively adjudicated for the same. The agency has developed an application process that specifically asks the applicant about these activities, and all provisions enumerated in this standard. During the interviews with the staff I verified that the application is being utilized, I further verified the utilization by reviewing personnel files, I found that the questions were asked and answered in all of the reviewed files. During the staff interviews, I verified they were asked these questions.

The agency does not have a promotion system that would require asking these questions again.

The agency has also implemented a background investigation process for all new employees, contractors, and volunteers. The background investigations are being conducted as per policy. During the review of personnel files, I ensured that the background checks were being completed. Part of the background investigation is a Criminal History Check through the National Crime Information Center (NCIC). The agency has not reached the 5-year mark to complete a second Criminal History Check.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

The investigation would be conducted by the investigators in the Office of Special Investigations New York State Department of Corrections and Community Supervision, and the New York State Police. These investigators have sworn law enforcement officers and are highly trained in evidence collection and identification. The New York State Department of Health Sexual Assault Forensic Examiner Program designates the hospitals available to conduct the examinations. During interviews, I confirmed that an approved hospital would be utilized and that Broome County Crime Victims Assistance Center.INC would assist in identifying the hospital, and provide victim advocacy. The aforementioned victim advocates are available to the victim during the forensic medical examination process, and investigatory interviews, and they provide emotional support, crisis intervention, information, and referrals. The facility does not have any volunteers or contractors. I verified with the PREA Coordinator that a volunteer or contractor would be given the New York State Department of Corrections and Community Supervision pamphlet on The Prevention of Sexual Abuse. They would have the volunteers or contractors sign that they receive the pamphlet.

The level and type of training provided to volunteers and contractors would be based on the services they provide and level of contact they have with residents. At a minimum, they would notify them of the agency's zero-tolerance policy regarding sexual abuse and sexual harassment and informed how to report such incidents.

The agency would maintain all documentation confirming that volunteers and contractors understand the training they have received.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

During the intake process, residents receive information explaining the agency's zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment. This was confirmed during the resident and staff interviews; this information is located in the New York State Department of Corrections and Community Supervision pamphlet on The Prevention of Sexual Abuse. I further confirmed this by reviewing resident files and ensuring that the Zero Tolerance Acknowledgment Forms were in the files and signed by the residents.

The facility provides resident education in formats accessible to all residents; this includes residents who are limited English proficient, deaf, visually impaired, or otherwise disabled, as well as to residents who have limited reading skills.

The facility has all key information on the zero-tolerance policy and reporting avenues provided through signage placed throughout the facility. I viewed this signage during the facility tour. I further confirmed that the signage has been in place during the resident and staff interviews.

After a careful review of all documentation, and the information received during interviews, I found that the facility substantially exceeds the requirements of this standard and all provisions.

All residents are assessed during the intake process, which is completed upon arrival at the facility. This screening is conducted utilizing the Prison Rape Elimination Act Risk Screening Form- Male Facility. These instruments identify all areas of victimization enumerated in this standard. This was verified through interviews with staff and residents, as well as a review of the completed instruments. The screening is being conducted by a specifically trained staff. I verified through staff interviews that if a resident is transferred to another facility, they will receive a screening again.

**Does Not Meet Standard** (Requires Corrective Action)

The initial screening for risk of being sexually abusive considers any known prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. This was confirmed during a review of the screening tool and interviews with both staff and residents.

The facility is reassessing all residents within 30 days of arrival, this reassessment is being conducted by the case manager or program manager, and they are taking into considerations all information available to them at the time of reassessment. This was confirmed by reviewing the reassessment documentation and staff interviews.

The facility would reassess a resident's risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that may change the resident's risk of sexual victimization or abusiveness. This was confirmed during the staff interviews.

Residents are informed during the screening process that they will not be disciplined for refusing to answer, or for not disclosing complete information. This was confirmed during the review of the screening tools and during the staff and resident interviews.

The agency implements control on the dissemination of screening information at the facility level. The information from the screening tools are only available to case managers, medical if needed, and administration.

After a careful review of all documentation, and the information received during interviews, I found that the agency substantially exceeds the requirements of this standard and all provisions.

### **EVIDENCE OF COMPLIANCE**

The agency utilizes the information from the screening and reassessment to inform housing, bed, work, education, and program assignments with the goal of keeping separate those residents at high risk of being sexually victimized from those at high risk of being sexually abusive. This was confirmed during a review of the policy, and I confirmed these procedures during staff and resident interviews.

The agency makes all of these determinations on an individualized basis; this ensures the safety of each resident. This was confirmed during policy review, and staff and resident interviews.

I confirmed during policy review and interviews that when deciding whether to assign a transgender or intersex resident to a facility for male or female residents, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the resident's health and safety and whether the placement would present management or security problems. I also confirmed that the residents own views would be taken into consideration during these decisions. Through policy and interviews, I confirmed that the transgender residents would be given the opportunity to shower separately from other residents.

I confirmed during interviews that placement and programming assignments for each transgender or intersex resident would be reassessed at least twice each year. This is also addressed in the policy.

The agency nor facility place lesbian, gay, bisexual, transgender, or intersex residents in dedicated facilities, units, or wings solely on the basis of such identification or status. This was confirmed during staff and resident interviews.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

### **EVIDENCE OF COMPLIANCE**

The facility provides the residents with the information on reporting in the New York State Corrections and Community Supervision pamphlet on The Prevention of Sexual Abuse. They also have the information posted throughout the facility. The instructions for the usage of these reporting avenues is extremely comprehensive, and the step by step usage of the reporting avenues is provided in all written materials both posted and given to the residents. During the interviews with both staff and residents, I confirmed that they were aware of the reporting avenues and that they can remain anonymous.

The New York State Corrections and Community Supervision website further instruct third parties on how to report. This was confirmed by viewing the agencies website.

The staff interviews related that they understood the agency policy that states that staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

The agency provides in policy a method for staff to privately report sexual abuse and sexual harassment of residents. The staff can report directly to the Office of Special Investigations New York State Department of Corrections and Community Supervision

I found during the resident interviews that the residents who were interviewed felt that if something was happening, they would feel comfortable telling a staff member at the facility. This confidence in utilizing this reporting avenue shows the overall culture at the facility. Although this statement may not be true for all residents, the agency has provided so many different reporting avenues that a resident should feel comfortable with one of them.

After a careful review of all documentation, and the information received during interviews, I found that the agency substantially exceeds the requirements of this standard and all provisions.

Access to outside confidential support services is outlined in the agencies policies and procedures. The resident would have the ability to utilize the services of Broome County Crime Victims Assistance Center, NY. The services that the residents would receive are the same as the level received in the community.			
All of the information required under this standard and all provisions is provided to the residents, this was verified through review of the documentation and interviews.			
After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

### **EVIDENCE OF COMPLIANCE**

The agency has established third-party reporting methods in policy; these methods allow residents to report for other residents and outside individuals to report. The New York State Corrections and Community Supervision website further instruct third parties on how to report. This was confirmed by viewing the agencies website.

The facility has third-party reporting avenues posted in areas in the facility where they can be viewed by visitors.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

### **EVIDENCE OF COMPLIANCE**

The agency has established a policy that meets these provisions of this standard. The agency has identified the facility designated staff to monitor the resident or staff member for alleged retaliation.

The agency would utilize housing transfers, as well as facility transfers of perpetrators to protect the victim in an incident. This was confirmed during staff interviews.

This facility has not had an incident in the past 12 months.

The staff understood their obligation under this policy.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

#### **EVIDENCE OF COMPLIANCE**

The New York State Corrections and Community Supervision has established policies that address all provision of this standard. They collect all data from contracted facilities. I found that they digitally securely retain all data collected; this data is available to the public through their website.

The annual reports are published on their website. All personal identifiers have been removed from the reports.

The agency has a policy in place that maintains all sexual abuse data for at least 10 years from the date received.

Staff interviews and review of the annual reports further confirmed this procedure.

After a careful review of all documentation and the information received interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.
