AUDIT FINDINGS

NARRATIVE

The PREA Audit of the Attica Correctional Facility was conducted on February 15-17, 2017, by Mark Stegemoller, Department of Justice (DOJ) PREA Auditor and assisted by Douglas Sproat, (DOJ) PREA Auditor. Approximately three weeks before the audit the ADS/PREA Compliance Manager for the Attica Correctional Facility mailed the Auditors a USB thumb drive. The thumb drive contained the facility Pre-Audit-Questionnaire (PAQ) along with supplementary documentation. Documentation received was very well-organized and tabulated appropriately. A folder for each PREA standard contained a detailed outline of primary and secondary documentation corresponding to each provision within each PREA standard. The PAQ itself contained many files embedded/hyperlinked within it, which made the process for reviewing documentation easier for the Auditors. Documentation contained on the thumb drive consisted of the Departmental Mission; aerial view and plot plan for the Attica Correctional Facility; executive team chart with responsibilities for each Deputy Superintendent; Pre-Audit Questionnaire (PAQ); documentation folders for the (43) PREA Standards; DOCCS Webpage home screen; DOH protocol; ACF Facility Operations Manual (FOM) Coordinated Response Plan to an incident of inmate sexual abuse; ACF Facility Operations Manual for PREA Risk Screenings; ACF Inmate Orientation Pamphlets; ACA notice of accreditation audit report dated February 10-12, 2014; Agency mission statement; population report for the daily facility's staffing plan showing offender population on the 1st, 10th, and 20th day of each month for twelve months before the audit; training and Directives #4027A,B, #4028A,B; camera placement schematics and facility layout for the ACF. It should appropriately be noted; the Attica Correctional Facility has been undergoing an extensive video camera monitoring project for the past two years. At the time of the on-site visit, the facility deployed about 1600 interior video monitoring cameras, where most cameras also contain microphone recording capabilities. Camera hard-drives contain up to 30 days of recorded data. Upon completion of Attica's video camera project the facility will deploy over 2500 video monitoring cameras throughout the facility. There are (27) exterior parking lot video monitoring cameras.

On February 15, 2017, the Auditors met with DOCC's agency and facility staff for an entrance briefing and discussed the PREA protocols for the on-site part of the audit. The Auditor submitted a list of randomly selected staff and inmates, requesting the following documentation be provided while on-site. (20) most recent employee background checks; (10) most recent Contractor background checks; (20) most recent employee PREA training documentation; (10) Medical/Mental Health PREA- Specialized training documentation; (5) Contractors Medical/Mental Health PREA-Specialized training documentation; (20) inmates who received the required PREA comprehensive education within 30 days of arrival to facility; (20) Inmate Risk Screenings for sexual victimization/abuse to include reassessment within 30 days of arrival to the facility; Samples of written PREA inmate education material, i.e. Inmate handbooks, posters, brochures; Sample documentation for the monitoring retaliation of sexual abuse & harassment investigations and copies of all Sexual Assault Reviews during the past 12 months (audit period) for completed investigations of sexual abuse, excluding unfounded cases.

A tour was conducted of the entire facility with several areas of the facility being revisited throughout the audit. Attica Correctional Facility is a large facility, with most of it is under one-roof. There are (82) buildings; (21) multiple occupancy cell housing units; (141) segregation cells. The entire ACF is now single-celled. The standards require the auditor see all areas of the audited facility paying particular attention to those areas of the facility that must be observed carefully in order to verify compliance with the standards. 1). Intake/reception/screening area. 2). All housing units, including samples of individual rooms and all dormitories. 3). Health care (medical and mental health clinics, infirmaries, and housing units) if there are such facilities on site. 4). Recreation, cafeteria (if there is one), and work areas, other programming areas (e.g., education or special education areas) 5). Areas that were renovated, modified, or expanded. The Attica Correctional Facility is currently undergoing a significant video camera monitoring expansion as describe above. Every area of the facility was seen as the standard requires, and the auditor observed inmates being supervised throughout the audit. Sight lines were closely examined as were the potential for blind-spots. Throughout the facility, the Auditor observed PREA signage, educational posters and pamphlets in multiple

languages advising Inmates of their right to be free of sexual abuse and harassment and how to report sexual abuse and harassment. While touring, random staff and inmates were informally interviewed and questioned about their knowledge of PREA; staffing logs were reviewed for unannounced rounds being conducted by intermediate-level or higher-level supervisors. The Auditor observed opposite gender staff announcing their presence upon entering inmate housing units and other areas that an inmate may be undressed, showering or using the lavatories.

While in the Special Housing Unit (SHU), the Auditors conducted formal interviews with (2) Correctional Officers utilizing the random staff & staff who supervise inmates in segregation protocols. Both Officers interviewed demonstrated their knowledge in receiving the required education/training as it relates to PREA. The Auditors also interviewed (2) randomly selected inmates, in which both were able to explain to the auditor what PREA is and how to report allegations of sexual abuse and harassment. During the on-site part of the audit, ACF did not have any inmates in segregated housing (for risk of sexual victimization).

During the past 12 months (audit period) the Attica Correctional Facility has initiated (21) cases of reported sexual abuse and sexual harassment. The Auditor conducted a formal interview with a Senior-Investigator of the DOCCS - Office of Special Investigations (OSI) Sex Crimes Division. The Auditor reviewed all completed and pending PREA investigations and determined investigations are being completed per NYS DOCCS policy and procedures and are compliant with all applicable PREA standards.

On February 16, 2017, the Auditors began the formal interview process for both staff and inmates. There are six (6) different PREA interview protocols consisting of the Agency Head, Facility Director, PREA Coordinator, Specialized Staff, Random Staff and Inmates. These protocols are used by auditors to interview staff and inmates as part of the audit. Answers from the interviews are part of the auditor's compliance assessment. On day one of the audit, Attica Correctional Facility reported a count of (2009) inmates. The Auditor formally conducted (20) random inmate interviews; (1) Disabled inmate (hearing impaired) was interviewed. (3) Transgender, Gay, Bisexual inmates; (5) inmates who reported sexual abuse and who disclosed sexual victimization during risk screening. There was (0) inmates housed in segregation for risk of sexual victimization. In summarizing inmate interviews, it was very clear inmates are receiving the proper PREA education and most inmates interviewed could describe the different ways that are in place to report allegations of sexual misconduct at the ACF.

Attica Correctional Facility employed (866) staff at the time of the on-site part of the audit. The Auditor formally interviewed (23) random staff. Random sampling size of staff interviews consisted of 1st, 2nd, and 3rd shift employees. Specialized Staff Interviews consisted of (1) Agency Contract Administrator; (1) Medical staff; (1) Mental Health staff (OMH); (1) Human resources staff (2) Volunteer/Contractor; (1) OSI Investigator; (2) staff who conduct screening for risk of victimization and abusiveness; (2) Staff members on the incident review team; (1) staff member in charge with monitoring retaliation; (2) staff first responders, both security and non-security staff interviewed; (1) Intake staff member. The Agency Head and PREA Coordinator interviews had previously been conducted by another DOJ certified PREA Auditor and was accepted by this Auditor. All Specialized Staff interviews were conducted in accordance with the PREA Guidelines for Auditors, Specialized Staff Interviews. In summarizing staff interviews, it is the auditor's opinion staff of the Attica Correctional Facility were some of the most professional and well prepared interviewees I have interviewed as a PREA auditor. From random staff interviews to the specialized staff interviews, it was quite clear staff of the ACF take very serious the Prison Rape Elimination Act (PREA) and was demonstrated throughout the interview process.

On February 17, 2017 at the end of the on-site part of the audit, the Auditors conducted an exit-briefing with members of the Attica Executive staff and DOCCS Agency staff. The Auditor could not give a final outcome of the audit, but did give a preliminary status of his findings. The Auditor thanked the facility staff and commended them on their hard work and commitment to the Prison Rape Elimination Act. During the Interim report writing period the Auditor

conducted more phone interviews, reviewed additional policies & procedures and received supplementary documentation.

DESCRIPTION OF FACILITY CHARACTERISTICS

Attica Correctional Facility is located at 639 Exchange Street, Attica, New York. The town of Attica has a population of about 7,702 at the 2010 census and is located in Western New York, 35 miles east of Buffalo. Attica is a class A-maximum security facility and houses maximum custody inmates exclusively. Attica is widely known as the scene of a deadly riot that occurred in September 1971, resulting in the death of 11 staff and 32 inmates.

Ground was broken for Attica in October 1929. The first prisoners arrived from Sing Sing prison in June 1931. The core of the facility is a rectangle of around eight grassy acres. Along each side of the rectangle is a three-tier cellblock (Blocks A-D). Cellblocks A-D house between 400-500 inmates each and are 600 feet long. Enclosed corridors connect the cellblocks at a point called "Times Square." Times Square is the symbolic center of the facility. Cellblock E is a two tier unit that sits outside the inner quadrangle. E Block unit houses 215 inmates and was completed in 1966. Each of the housing units has a designated recreation yard. Ringed around the inner core of the facility are administrative, program, industry and support buildings. There are about 55 acres within the secure perimeter. The physical plant consists of 82 total buildings.

The facility has 2,133 individual cells. Since June 1995 a number of cells have been double bunked increasing the capacity to 2253. The double-bunking was achieved by double-bunking two of the cells at the front of most general confinement living units. With inmate population declining, the facility is now operating with single man cells.

Attica is surrounded by a massive concrete wall known as the "great gray wall." The wall is 30' tall and well over a mile long with tower posts and tapering spiral roofs situated at critical points along the wall's distance. The wall is well over a mile long and tower posts with tapering spiral roofs are situated at critical points along the wall's distance.

Since opening in 1931 there have been a number of buildings added to the original construction. As noted earlier, E Block housing unit was completed in 1966. This same year a one story structure was placed next to the administration building. This structure houses the guidance office, chaplain's offices and visiting rooms. A new commissary was added in 1973. In 1974 a large gymnasium was added. In 1978 a two-story vocational building was added. A one-story "school annex" was added in 1984. In the late 1980s three "Family Reunion Program" modular homes were added. This program allowed inmates extended visits with family members. A modern 20 bed infirmary, located near the north wall, was opened in 1995.

Attica Correctional Facility offers a wide-variety of rehabilitative and mental health programs. These include academic education, vocational training, industrial training, mental health counseling, Alcohol and Substance Abuse treatment (ASAT), Aggression Replacement Training (ART), AA, and volunteer services. Attica is classified as a Mental Health Services Level I facility. The facility operates an Intermediate Care Program (ICP), Transitional Intermediate Care Program (TICP), Residential Mental Health Unit (RMHU) and a Residential Crisis Treatment Program (RCTP).

Attica Correctional Facility is one of 54 facilities operated by the New York State Department of Corrections and Community Supervision (DOCCS). The mission of Attica Correctional Facility is "Enhance public safety by having incarcerated persons return home less likely to revert to criminal behavior."

NYS DOCCS has a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment and outlines the agency's approach to preventing, detecting, and responding to such conduct through Directives #4027A, Sexual Abuse Prevention & Intervention, 3/4/16 Inmate on Inmate II; #4028A, Sexual Abuse Prevention & Intervention, 3/4/16 Staff on Inmate II & DOCCS and Employee Manual Rev. 2013 2.19 & 2.20. Policies also include definitions of prohibited behaviors regarding sexual abuse and sexual harassment; sanctions for those found to have participated in prohibited behaviors; description of the agency strategies and responses to reduce and prevent sexual abuse and sexual harassment of inmates.

Email announcement from NYS DOCCS, Commissioner, 4/23/13, RE: Associate Commissioner Appointment (PREA); The agency employs an upper-level agency-wide PREA coordinator, Jason Effman, Associate Commissioner & PREA Coordinator, identified in the agency's organizational chart. Mr. Effman has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its correctional facilities. DOCCS operates more than one facility and has a designated PREA Compliance Manager; Tim Fraclemont, who has sufficient time and authority to coordinate the Attica Correctional Facility's efforts to comply with the PREA standards. Memo: NYS DOCCS, Deputy Commissioner and Jason D. Effman, Associate Commissioner, 4/4/14, RE: Facility Prison Rape Elimination Act (PREA) Point Person. Attica Correctional Facility has a designated PREA-point person (Captain Loverde) assigned at the facility who oversees day to day PREA related operations. The Auditor found DOCCS approach to enforcing a zero tolerance toward all forms of sexual abuse and harassment was reflected in policy documentation as well as in practice. This was achieved through triangulating agency/facility policies & procedures, staff & inmate interviews, and facility observations to determine compliance.

Standard 115.12 Contracting with other entities for the confinement of inmates

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

A public agency that contracts for the confinement of its inmates with private agencies or other entities, including other government agencies, shall include in any new contract or contract renewal the entity's obligation to adopt and comply with the PREA standards. The Attica Correctional Facility does not contract with other entities for the confinement of inmates.

Any new contract or contract renewal shall provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards. The Attica Correctional Facility does not contract with other entities for the confinement of inmates.

Only in emergency circumstances in which all reasonable attempts to find a private agency or other entity in compliance with the PREA standards have failed, may the agency enter into a contract with an entity that fails to comply with these standards. In such a case, the public agency shall document its unsuccessful attempts to find an entity in compliance with the standards. NYS DOCCS; The Attica Correctional facility does not contract with other entities for the confinement of inmates.

Attica Correctional Facility is exempt from this standard making Standard 115.12 non-applicable.

Standard 115.13 Supervision and monitoring

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Attica Correctional Facility has developed and documented a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse through; NYS DOCCS Employee Manual – 2.44 Rev. 2013; Agency Directive #4001, Facility Administrative Coverage & Supervisory Rounds for Tours I, II, and III –VI A, C, Form 4001A, Form 4001 B, Security staff schedules.

In calculating adequate staffing levels and determining the need for video monitoring, the facility takes into consideration: The physical layout of the facility; the composition of the inmate population; the prevalence of substantiated and unsubstantiated incidents of sexual abuse; and any other relevant factors. In circumstances where the staffing plan is not complied with, the facility documents and justify all deviations from the plan. The Attica Correctional Facility has been undergoing an extensive video camera monitoring project over the past couple years. At the time of the onsite visit, the facility deployed approximately 1600 interior video monitoring cameras, in which the majority of cameras also contain microphone recording capabilities. Camera hard-drives contain up to 30 days of recorded data. Upon completion of phase (3) of the video camera project the AFC will deploy over 2500 video monitor cameras throughout the facility. There are approximately (27) exterior parking lot video monitoring cameras.

Whenever necessary, but no less frequently than once each year, the facility shall assess, determine, and document whether adjustments are needed to the staffing plan. The annual staffing plan was documented/approved through email correspondence dated December 8, 2016 by way of Associate Commissioner Effman, PREA Coordinator.

The Auditor found that the NYS DOCCS approach to developing and documenting a staffing plan for the Attica Correctional Facility provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. The Auditor determined his findings through triangulating; agency directives, supplemental documentation, agency & facility staff interviews, along with facility observations.

Each agency operating a facility shall implement a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Such policy and practice shall be implemented for night shifts as well as day shifts. Each agency shall have a policy to prohibit staff from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility. The Auditor determined his findings through review of example log book entries; executive team and security supervisor announced / unannounced rounds on Tour I, Tour II, Tour III; examples of weekly Administrative Activity Report; Form 4001 A Tour I, Tour II, Tour III rounds; examples of Security Supervisor Report; Form 4001 B Tour I, Tour II, Tour III rounds; agency directives, supplemental documentation, agency & facility staff interviews, along with facility observations.

Absent exigent circumstances, agencies shall not deny youthful inmates daily large-muscle exercise and any legally required special education services to comply with this provision. Youthful inmates shall also have access to other programs and work opportunities to the extent possible.

ACF does not house youthful inmates under age 18; Specialty programs for Youthful Inmates (16-17 year olds) are at Coxsackie C.F., and Hudson C. F.

Standard 115.15 Limits to cross-gender viewing and searches

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

ACF has not conducted any cross-gender strip searches or cross-gender visual body cavity searches in the past 12 months. ACF is an all-male facility, therefore 115.15(b) and parts of(c) are N/A as there are no female inmates housed at ACF. This is outlined in NY DOCCS DIR #2230, Guidelines for Assignment of Male and Female Correctional Officers; HSPM 1.37 Body Cavity Search 9/20/95 - Entire & DIR#4001, Facility Administrative Coverage & Supervisory Rounds.

NYS DOCCS DIR #2230, Guidelines for Assignment of Male and Female Correctional Officers and DIR #4401, Facility Administrative Coverage and Search for Contraband; Inmates allowed to shower separately; outlines the facility’s procedures that enable Inmates to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Such policies and procedures shall require staff of the opposite gender to announce their presence when entering an area where inmates are likely to be showering, performing bodily functions, or changing clothing. During the tour of the facility the Auditor observed, staff of the opposite gender announcing their presence when entering areas where inmates were likely to be showering, performing bodily functions, or changing clothing. Transgender inmates are issued “showering alone permits.

The Auditor noted throughout the tour of the facility, space’s that were once a concern for cross gender viewing had been amended with shower curtains, mobile screens, and frosted windows, etc.

NYS DOCCS DIR #4910, Control and Search for Contraband; outlines how the facility shall not search or physically examine a transgender or intersex inmates for the sole purpose of determining the inmate’s genital status. If the inmate’s genital status is unknown, it may be determined during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. Through interviews with staff and inmates the Auditor determined inmates are not being strip searched for the sole purpose of identifying the inmate’s genital status.

NYS DOCCS DIR #4910, Control and Search for Contraband; outlines how the agency trains security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs. The Auditor received secondary documentation of staff training records submitted with the PAQ and reviewed additional training records and lessons plans onsite. Through interviews with staff and inmates it was determined proper cross-gender pat-down searches, and searches of transgender and intersex inmates was conducted in accordance with policy& procedures.

NYS DOCCS DIR # 2612, Inmates with Sensorial Disabilities; DIR #4490 Culture and Language Access Services; Attica Correctional Facility; FOM #329 Language Access Services Plan; outlines the agency's steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. The Auditor interviewed one inmate who was hearing impaired, and the inmate was able to explain the process for reporting allegations of sexual misconduct.

NYS DOCCS DIR #4490 Culture and Language Access Services; outlines the agency shall not rely on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first-response duties under § 115.64, or the investigation of the inmate's allegations.
