AUDIT FINDINGS

NARRATIVE

The Prison Rape Elimination Act (PREA) Audit for Mid-State Correctional Facility (MSCF) from initial notification through this auditor's Summary Report Adult Prisons and Jails/PREA Final Report began December 2015 with the notice that the New York Department of Corrections and Community Supervision (DOCCS) through the American Correctional Association (ACA) had scheduled a PREA Audit with a tour date of March 2 – 4, 2016, of the Mid-State Correctional Facility, Marcy, New York. PREA Certified Auditor Marilyn (Lynn) McAuley (lead) and Mark Stegemoller (team member) notified by ACA e-mail of their appointment and schedule.

The agency's vision is to enhance public safety by having incarcerated persons return home under supportive supervision less likely to revert to criminal behavior. The mission of DOCCS is "To improve public safety by providing a continuity of appropriate treatment services in safe and secure facilities where offenders' needs are addressed and they are prepared for release, followed by supportive services under community supervision to facilitate a successful completion of their sentence". The agency's goals include: create and maintain an atmosphere where both offenders and staff feel secure; develop and implement positive individualized treatment plans for each offender that includes post release reentry plans; teach offenders the need for discipline and respect, and the importance of a mature understanding of a work ethic; establish a needs/risk approach to treatment and community supervision to ensure a continuity of services; assist all staff by providing the training and tools needed to perform their duties while enhancing their skills; and offering career development opportunities for all staff. The Department's vision, mission statement and goals set the stage for comprehensive guidelines for developing, implementing, and monitoring the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment.

The audit process started with a contact from the Associate Commissioner and State-wide PREA Coordinator, New York Department of Corrections and Community Supervision, Albany, New York. The facility Superintendent sent the auditor a Welcome to Mid-State Correctional Facility Booklet with valuable information on MSCF including: Departmental Mission; aerial view and plot plan of MSCF; MSCF facts & figures and budget information; inmate movement program schedule; and executive team chart with responsibilities of each deputy superintendent. The Assistant Deputy Superintendent – PREA Compliance Manager - Mid-State Correctional Facility mailed a USB thumb drive to the auditors. The thumb drive contained three essential parts: part one - miscellaneous information; part – two; PREA Audit - Pre-audit Questionnaire; and part three; documentation for each of the 43 PREA Standards. The areas of part one included the following miscellaneous information: camera schematics for MSCF; DOCCS Webpage home screen; DOH protocol; MSCF facility OPM coordinated response; ACA notice of accreditation report for February 25 – 27, 2013 audit; agency mission statement; facility layout; population report for the daily facility's staffing plan showing offender population on the 1st, 10th and 20th day of each month for twelve months prior to the audit; training; and Directives #4027A/B and #4028A/B. Part two of the thumb drive contained the PREA Pre-audit Questionnaire folder (PAQ) a required document the auditors used to complete the complete the PREA Audit: Auditor Compliance tool prior to the site visit; and part three had a folder, with supporting documentation, for each one of the 43 standards. The Mid-State Correctional facility flash drive provided valuable information prior to the actual facility visit and gave the auditors information necessary to complete pre-audit work and identify additional material needed for compliance with the standards.

Some of the information provided in advance on the flash drive required hard copy and was requested in advance to be available for the first briefing meeting at the beginning of the facility audit. The 43 standards folders (one for each standard) contained substantiated compliance documentation for each of the standards addressing: DOCCS's zero tolerance of sexual abuse and sexual harassment; appointment of PREA Coordinator and PREA Compliance Managers; supervision and monitoring; training for staff, inmates, volunteers and contractors; investigations; interviews, screening appraisals of the incoming inmates, and treatment of offenders with intersex conditions, gender identity disorder, gender dysphoria; inmate, staff, volunteers and contractors discipline; inmate reporting; sexual abuse incident reviews; and data collection, review and publication/storage. The ACA Standards Compliance Reaccreditation Report provided valuable information on facility description, condition of confinement, medical, mental health and programs that could be confirmed with observation, review of documentation and interviews. The Pre-audit Questionnaire which was a stand-alone folder provided required data necessary for the auditor to make a decision on compliance of the standards, and information for the auditor to use in completing the PREA Compliance Audit Instrument. The PAQ provided comprehensive, specific material that could be verified by the auditor on site with review of documentation, interviews with staff and inmates and observations during the tour of the facility.

The PREA Resource Audit Instrument used for Adult Prisons and Jails was furnished by the National PREA Resource Center. To summarize, there are seven sections, A through G, comprised of the following: A) Pre-Audit Questionnaire, sent by New York Department of Corrections and Community Supervision; B) the Auditor Compliance Tool; C) Instructions for the PREA Audit Tour; D) the Interview Protocols; E) the Auditor's Summary Report; F) the Process Map; and G) the Checklist of Documentation. These instruments were used for guidance during the tour, interviews with staff and inmates and recommendations for review of documentations.

The facility is accredited by the American Correctional Association (ACA) and the reaccreditation audit was scheduled for February 29 – March 2, 2016 the same week as the ACA PREA audit. The previous ACA Reaccreditation Report dated February 25 - 27, 2013 was provided and reviewed by the auditor. The Audit Report was for the three year period of 2010, 2011 and 2012 confirming that the last three years of the audit MSCF had zero notices of non-compliance with local, state, or federal laws or regulations, no consent decrees, class

action lawsuits or adverse judgment. The PREA Compliance Manager confirmed zero notices of non-compliance with local, state, or federal laws or regulations, no consent decrees, class action lawsuits or adverse judgment for MSCF during the last three years 2013, 2014 and 2015.

Following the protocols of making contacts, and checking on the posting of notices the auditors, on their own, began review of the Pre-Audit Questionnaire and the material sent prior to the audit visit. Posting of notices of the PREA audit was initiated through the American Correctional Association and the facility, Mid-State Correctional Facility. The auditors observed many posters strategically placed throughout the facility. The notices gave the address for ACA where an inmate could contact the auditor prior to the audit. The auditor did not receive any correspondence from inmates at MSCF prior to the audit. Each item on the thumb drive was reviewed. Of particular interest to the auditor was the detailed information in the Pre-Audit Questionnaire completed by the facility PREA Compliance Manager/Point Person and the PREA Coordinator in January 2016. Also, in this preliminary review, special interest was taken in the compliance documentation provided for each standard. The information from the standard files and the PAQ was used to complete the PREA Compliance Audit Instrument Checklist of Policies/Procedures; the PREA Resource Audit Instrument and other Documents in advance to identify additional information that might be required and could be collected prior and during the audit visit.

The auditors stayed in Utica, New York and commuted a short distance each way each day to Mid-State Correctional Facility with the Department's agency-wide PREA Coordinator. The Auditor and PREA Coordinator proceeded to the Administration Building where a brief meeting was held with: the auditors; Superintendent; PREA Coordinator; area PREA Compliance Manager; and facility Executive Staff. During the brief meeting the PREA Auditors were given hard copy of significant information that was on the flash drive and sent to the auditor in advance of the site visit. Included in this information was the inmate count list for Wednesday, March 2, 2016 for random selection of inmates to be interviewed during the audit. Also provided were; list of employees, population reports, Mid-State Correctional Facility information packet with facility data important to the audit, interoffice memorandums and various reports confirming MSCF staffing, facility diagram with location of camera upgrades, agency and facility missions and organizational charts. The weekly audit schedule for MSCF included PREA and ACA Reaccreditation audits at the facility.

The lead auditor sent a daily audit activity schedule for the 3 days of the audit prior to arriving at the facility. This schedule was discussed during the initial briefing and revised daily based on the needs of individuals involved in the audit process. The first audit briefing, in the afternoon of March 2, 2016, discussed the tour protocols and points of interest for the following two days and prior to beginning the facility tour. The audit of MSCF began in the afternoon and started with the tour of the facility immediately after the short briefing and audit schedule review. Mid-State Correctional Facility has 77 buildings on a 1,050 acre parcel of land with 80 acres inside the fence requiring the auditors to spend two days touring in order to visit all the buildings. A number of the buildings were built in 1918 but did not show their age due to the excellent care and many updates provided by DOCCS based on limited budgets. The atmosphere created by DOCCS and the facility is one of pride, professionalism and caring. The tour started with the package room and continued to visit: gym; law library; housing units including general population, honor, SHU and PC; vocational; maintenance; laundry; transitional services;

On the second day of the audit the interview process started with the Superintendent, PREA Coordinator, and facility PREA Point Person interviews in the morning after a short PREA audit briefing. After the interviews the auditors continued the facility tour visiting intake to observe new inmates to MSCF arriving. Mid-State Correctional Facility is the transport center for the Hub where four days a week up to 150 inmates per day arrive and depart to other correctional facilities in the state. After visiting this unique transport center the tour continued visiting: medical area; mental health; food service

At this time, a review of the inmate population (1,579 inmate count on first day of audit) was made and random inmates were selected from each housing unit for interview by the auditor. Random selection of inmates resulted in 57 inmates (3.6% of 1,579 inmate count on first day of audit) selected to be interviewed including: one non-English inmate with an interpreter; 6 transgender inmate; 2 bisexual inmate; 4 gay inmates and an inmate who reported a sexual abuse. Interviews, with male and female staff with years of service ranging from 7 months to 33 years, were conducted with 32 random selection of staff and 18 from specialized staff resulting in 50 staff interviewed out of 686 for 7.3% of MSCF total staff interviewed that have contact with inmates. Security staff were interviewed from all three shifts and included: 2 captain; 1 Lieutenants; 2 Sergeants; 2 Correctional Officers; 1 SHU officer; 1 intake officer; 1 first responder; 2 intermediate/higher-level staff (unannounced rounds); and 1 staff who perform screening. Non-security staff included: 2 ORC transitional staff; 2 program staff; 3 administrative staff; 2 medical staff; 2 mental health staff; 1 human resource manager; 1 SAFE/SANE staff; 1 volunteer; 1 contractor; 2 investigative staff; 1 incident review team member; 1 retaliation monitor; and 1 first responder. Thirty-three security staff was interviewed out of 457 security staff for 7.2% of security staff interviewed.

Based on the size of the facility the tour was broken down into two days and interviews with: specialized staff; random sample of staff including security and non-security staff; random selection of inmates; and specialized selection of inmates; were conducted on all three days of the audit. On the final day of the audit the auditors and facility PREA Compliance Manager reviewed the 43 PREA Standard files using the Pre-Audit Questionnaire and PREA Audit Tool to assess final compliant review. Observations during the tours, informal interviews with staff and inmates, and review of documents confirm that MSCF considers PREA a number one priority and have developed, implemented and are monitoring all of the 43 standard to ensure compliance with the standards requirements.

In conclusion the auditors based the decision of compliance for the standards on: data gathering; review of documentation; observations during tour of facility; sampling techniques for interviews with staff, inmates, and files; interviews; and comparing policies and practice to

the requirements of the standards addressing all parts of each of the 43 standards.

Data gathering was accomplished prior to the audit by receipt of a flash drive from the DOCCS, during the audit upon request and post audit when writing the report. Data received required review to confirm documentation for each part of the 43 standards was in place by policy and confirmed by practice. Information on the flash drive, provided in advance of the site visit, is as described in paragraph three.

Review of the documentation received in advance of the site visit included a thorough look at: policies, procedures and directives; letters and emails, training curriculum and attendance reports; organizational charts; posters, brochures, inmate orientation manual, films and other PREA related materials; unannounced round logs; DOCCS Annual Report on Sexual Victimization 2013-2014; employee manual; facility specific material; staffing plan with annual review; investigation guidelines; and ACA Visiting Committee Report (VCR) report. Each piece of information received and identified with a part of the standard was compared for compliance. Missing and additional information required was requested and presented to the auditors during the beginning day of the site visit.

The facility provided an outline of MSCF plot plan showing all the building on site to review prior to actual tour. The major part of the observation process was during the official tour of the facility utilizing the PREA compliance audit instrument – instructions for PREA audit tour paying special attention to the following areas: intake/reception; general housing; segregated housing; residential mental health unit; health care and mental health; food service; disciplinary office; SHU; training; academic/vocational programs; guidance and community supervision; ministerial services; and law library and general library. The PREA audit instrument was used to look at areas recommended and questions to ask; recording the answers for use in deciding compliance in the standards. It was important to observe and confirm the required signs, telling inmates of their right to be free of sexual abuse and how to report incidents of sexual abuse, were posted. During the tour of the facility the auditor observed logs to confirm unannounced rounds are being done on all three shifts.

Sampling techniques for interviews with staff, inmates, and files included random selection of staff and inmates from: list of all inmates by housing unit; list of all employees broken down by security and non-security staff; list of employees hired during the last 12 months; list of volunteers and contractors; investigators assigned to facility; specialty staff; available SANE/SAFE staff; intake staff; medical and mental health staff; and list of inmates who: are disabled/limited English proficient; transgender/intersex/gay/bisexual; in SHU for risk of sexual victimization; who reported a sexual abuse; and who disclosed sexual victimization during risk screening. Files selected for review were based on requirements of the standards.

The facility provided the auditors an office to hold staff and inmate interviews. Facility staff provided excellent service making sure the individuals selected were available for the auditor to interview them. The auditors used the PREA Audit Instrument for: random sample of inmates; special class of inmates; random sample of staff (security and non-security); specialized staff; Superintendent; and PREA Compliance Manager. While the recommended questions were asked the auditors also added questions that would help in deciding compliance of the various parts of the standards.

It should be noted that this is a very large facility. The Executive Staff offers leadership and support to all making MSCF a model facility maintaining an atmosphere where both offenders and staff feel secure. Mid-State Correctional Facility is a well-managed facility with obvious complete cooperation between management, security, medical, mental health and other staff in developing, implementing and monitoring on a daily basis the requirements of the 43 PREA standards. Review of documentation, observations during the tour, interviews with staff and inmates and comparing the information with the total requirements of the PREA audit was enhanced by the extreme cooperation of all staff at MSCF in providing additional information as requested. Staff is completely knowledgeable of the PREA standards and enforces the standards to ensure the safety of inmates and staff at MSCF.

DESCRIPTION OF FACILITY CHARACTERISTICS

The Mid-State Correctional Facility (MSCF) is located in central New York State's Mohawk River Valley, approximately 10 miles west of Utica in the Town of Marcy in Oneida County, New York. The Town of Marcy is 45 miles east of Syracuse and 90 miles west of Albany, New York. The facility is built on a 1,050 acre tract of land with 80 acres inside the fence. Mid-State Correctional Facility is located in the "Oneida Hub," a cluster of facilities that share services, i.e. pharmacy, transportation and regional training, and are supervised by a Supervising Superintendent and an Assistant Commissioner. The Hub is comprised of 4 facilities, Mohawk, Marcy, Hale Creek ASACT and Mid-State. Mid-State Correctional Facility and Marcy Correctional Facility share a powerhouse (on Mid-State's grounds) and vehicle maintenance garage (on Marcy's grounds). Also located in the immediate area is the Central New York Psychiatric Center (State mental hospital) which is adjacent to Mid-State Correctional Facility.

The Office of Mental Health began its operation at this site in 1918 and it consisted of residences, activities and support facilities for adult psychiatric patients. A number of the buildings constructed in 1930 have been inventoried by the New York State National Historic Registers. With DOCCS's occupancy in 1983, the interiors of these older historic buildings were renovated and converted to inmate housing units varying in size from 20 to 60 offenders. Mid-State Correctional Facility was established in January 1984 as a medium security facility of the New York State Department of Corrections and Community Supervision for males, 16 years of age or older. In 2015, with the addition of facilities specifically for juveniles state-wide, MSCF's age was changed from 16 to 18 years of age or older.

The Mid-State Correctional Facility (MSCF) is classified as a medium security correctional facility with minimum, medium and maximum levels of security, and a bed capacity of 1,716. The facility is used for the general confinement of males 18 years of age or older. The facility offers a residential treatment facility to temporarily house certain parolees in accordance with subdivision 10 of Correctional Law section 73. The facility: offers a residential program for incarcerated veterans; operates an Intermediate Care Program (ICP) and a Transitional Intermediate Care Program (TriCP); is classified as Mental Health Service Level 1 as defined in Correctional Law, section 2 (27); Residential Crisis Treatment Program (RCTP) consisting of observation cells and dorm beds; and has a 32 single cell bed protective custody unit. To be eligible for placement in general confinement, an inmate must be designated medium security or less.

The housing units at MSCF include: 34 dormitories; 32 single cell disciplinary beds; 32 single cell protective custody beds; 200 double cell disciplinary beds; 12 infirmary beds; 6 infirmary observations rooms; 6 RCTP cells; 6 RCTP dorm beds; 20 ICP beds; and 13 Tri ICP beds. The facility offers: vocational programs; academic education programs; substance abuse treatment services; a residential sex offender program; an Aggression Replacement Training (ART) program; transitional services programs; community service programs; and a correctional industries asbestos abatement program. Housing units at MSCF consist of dormitories and multiple occupancy rooms. The special housing units consist of single cells and double cells.

Expansion, renovations and changes at MSCF included: July, 1993, MSCF acquired A – Building from the Office of Mental Health for the purpose of establishing a minimum security, 188 bed facility; 1996 a Medical Services Unit built to provide 24 hour outpatient and inpatient accommodating a 200 bed maximum security unit; 1997 construction of the S – Block Building, accommodating 200 bed maximum security unit; and November 2001 State offender population began to drop and MSCF closed A – Building and brought 171 minimum beds to the east side of the compound. The east side dorms used for minimum custody population were reduced in capacity to improve living conditions and make the dorm safe in terms of square footage per offender. In 2009, all four dormitories housing the minimum component were closed. Despite losing the minimum security component, they continue to perform Community Service projects for the surrounding area.

Camera schematics for the facility were provided and reviewed by the auditors. The facility has not installed or updated a video monitoring system, electronic surveillance system or other monitoring technology since August 20, 2012. However, the interview with the Acting Commissioner confirm when installing or updating a video monitoring system, electronic surveillance system, or other monitoring technology, the agency considers how such technology enhances the agency's ability to protect inmates from sexual abuse. Camera and mirror coverage at MSCF appears to be sufficient to ensure the safety of staff and inmates. There are two control centers: one located at the main entrance of the lobby area and the second control room is located on the right side of the compound. The second control room is responsible to assist in monitoring cameras throughout the compound and allow entrance to staff only. The facility has not installed or updated a video monitoring system, electronic surveillance system or other monitoring technology since August 20, 2012.

During the last twelve months 1,930 inmates were admitted to the facility with 100% of them receiving comprehensive education on their rights to be free from both sexual abuse/harassment and retaliation. The inmates were trained on agency policies and procedures for responding to such incidents: when they arrived at the facility; within a week during orientation; and again within 30 days of intake. The auditors attended the arrival of new inmates and observed the process confirming inmates new to the facility receive PREA information upon arrival to the facility.

The Mid-State Correctional Facility Executive Team includes: Deputy Superintendent for Administration; Deputy Superintendent for Security; Deputy Superintendent for Programs; Assistant Deputy Superintendent for Programs and Assistant Deputy Superintendent for PREA. The total staff at MSCF is 686 including: 501 in Security; 69 administrations; 25 health; and 91 programs. Security staff includes: 2 Captains; 10 Lieutenants; 30 Sergeants; and 459 Correction Officers; responsible for safety and security of all employees, visitors,

contractors and the care, custody and control of all inmates in and outside of the facility; disciplinary office; and special housing unit. The auditors attended the change of shift for all three shifts addressing the officers, observing and interviewing staff. During the audit the documentation reviewed confirmed 100% of staff had received the original PREA training prior to the last 12 months and 100% of staff was retrained with a new curriculum during the last 12 months. Staff is very proud of their jobs, knowledgeable about their duties especially to the PREA Standards and confirms they have received and understand the required original PREA training and new PREA updated training. Review of files confirms that staff has signed confirming they have received and understood the original and new PREA training as required by the standards.

The Inmate Grievance Resolution Committee is a program governed by Correction Law and Departmental Directives wherein an inmate may challenge policies, procedures and other matters that do not have any appeal system. The committee is made up of both staff and inmate representatives, with equal voting power, and is based on a non-retaliatory system of attempting to resolve inmate issues. Sexual abuse, sexual harassment and retaliation incidents are not processed through the grievance protocol. Standard 115.52, Exhaustion of administrative remedies says an agency shall be exempt from this standard if it does not have administrative procedures to address inmate grievances regarding sexual abuse. The Department of Corrections and Community Supervision (DOCCS) is exempt from this Standard in accordance with Directive #4040, Inmate Grievance Program, 7/12/06 & Rev. Notice 5/15/14- 702.2 (i) Correction Law, Section 139, 9 NYCRR Part 7695. Any inmate grievance filed regarding a complaint of sexual abuse or sexual harassment is immediately reported by IGP Supervisor to the Watch Commander for future handling in accordance with agency policy. The facility is exempt from this standard making Standard 115.52 non-applicable.

The MSCF's Deputy Superintendent Administration is responsible for: fiscal stores; plant operations; medical; nutritional services; fire and safety and human resources. A fully staffed human resource office is responsible for overseeing timekeeping, maintaining employee personnel and medical files and performance and probationary evaluations. These were important areas for the auditor to: tour and ask questions, look at files; and observer activity for compliance with the PREA Standards: 115.17 hiring and promotion decisions; 115.31 employee training; 115.32 volunteer and contractor training; 115.34 specialized training: investigations; 115.35 specialized training: medical and mental health care; 115.76 disciplinary sanctions for staff; and corrective action for contractors and volunteers.

Health Services provides a full range of health care services in a well-equipped medical unit to all inmates by a fully staffed director, physician, nurse practitioner, nurses, dentist, x-ray tech, dental hygienist and dental assistants. MSCF is staffed with full time doctors and registered nurses, and provides 24 hour fulltime medical care. The area that stores the active and inactive medical records is secured with only the medical records clerk and the nursing administrator having access. The agency has access to the following hospitals: University Hospital SUNY Health Science Center, Syracuse, NY; and St Joseph's Hospital Health Center, Syracuse, NY; for medical care requiring critical or serious interventions. All forensic medical examinations for MSCF and inmates are provided at no cost to the victim and are completed by SANE/SAFE staff from Vera House. The forensic examinations services are available 24/7 at St. Joseph's Hospital and SUNY Health Science Center. Vera House provides access to a victim advocate from a rape crisis center to the victim.

Mental Health services are provided in partnership with the Office of Mental Health who provides a staff of 26 under the direction of a Unit Chief. Mental Health Services are provided on-site in the Medical Unit and by clinicians from the Office of Mental Health. Inmates in general population in need of service may write to obtain a call out to speak with a clinician, and staff has been trained to observe behavior that may lead to a referral for services. An OMH clinician visits the SHU on a daily basis, checking on inmates on the caseload and assessing new admissions. Approximately 690 inmates are on the active mental health caseload at any time with approximately 424 of those on medication.

Food service includes MSCF participating in the DOCCS Statewide Menu using an eight-week menu cycle pre-approved by a registered dietician. MSCF utilizes the Quick Chill Method and receives deliveries and food products on a weekly basis from the Department's Food Production Center located at the nearby Mohawk Correctional Facility. Therapeutic and religious diets are available to offenders after justification for such diet is presented and approved.

Guidance and community supervision includes policies ensuring each inmate is assigned to the caseload of an Offender Rehabilitation Coordinator (ORC). The ORC is required to: provide comprehensive counseling to offenders; and conduct an initial interview with the inmate within 5 days of his arrival at MSCF. Interviews are then conducted on an as needed basis, at least quarterly, to discuss program performance, progress and attendance, as well as overall record and behaviors. The ORC's assisted the inmates and follow them from their reception at MSCF through the planning of their release.

The DOCCS has zero tolerance for sexual abuse and sexual harassment. Sexual abuse and sexual harassment violate Department rules and threaten security. All reports of sexual abuse, sexual harassment, and retaliation against an inmate, parolee or staff member for reporting or taking part in an investigation of possible sexual abuse or harassment is thoroughly investigated and if there is evidence that a crime was committed, it will be prosecuted to the fullest extent permitted by law. The Department played a key role in introducing legislation to make sexual conduct between employee and an inmate under the Department's custody a crime. Shortly after that law was enacted in 1996, the Department established a "Sex Crimes Unit" within the Office of Special Investigations, one of the first in the nation. These specialized investigators work closely with the New York State Police Bureau of Criminal Investigations. The Department worked with NIC to develop "Avoiding Inappropriate Behavior Between Staff and Inmates," one of the first training programs in the nation addressing staff sexual misconduct that was delivered to all DOCCS employees beginning in 1998. In 2005, DOCCS introduced an additional training

program for all employees on the “Prevention of Sexual abuse of Inmates.” These training programs are used as part of the agency’s curriculum for new employees and for periodic in-service training.

The Department has completed work on a pair of ground breaking comprehensive inmate educational films, Ending Sexual Abuse Behind Walls; an orientation, © addressing sexual safety in confinement. Using PREA Demonstration Project Grant through the US Bureau of Justice Assistance, DOCCS partnered with a private company and film company to develop two orientation films. These films represent a first in the nation approach to sexual safety education by letting current inmates tell new inmates what they wish they knew when they first started serving their sentences. These short films impart essential information about the Department’s Zero Tolerance for sexual abuse, how to report, and what to expect when a report is made. The films are in a number of languages and have subtitles. Inmates are shown the film during orientation that is given within a week after they arrive at the facility and repeated during the year.

The DOCCS investigates all reports of sexual abuse, sexual harassment, and retaliation in connection with a sexual abuse or harassment matter. All reports, including third-party and anonymous reports are confidential and are thoroughly investigated. In April 2013, DOCCS created an Associate Commissioner/PREA Coordinator position responsible for developing and implementing policy, and overseeing DOCCS’ compliance with the PREA Standards. The PREA Coordinator is a member of the DOCCS’ Executive Team, and leads a team of professionals, both in Central Office and in the facilities, dedicated to preventing and responding to incidents of sexual abuse. Today, DOCCS is proud to be a leader in the national efforts to improve correctional practices under the Prison Rape Elimination Act of 2003 (PREA). Mid-State Correctional Facility is a well-managed medium prison housing minimum, medium and maximum classification of offenders. Administration has designed, developed, implemented and now are monitoring a comprehensive PREA practice to prevent, detect and respond to sexual abuse and sexual harassment that meets or exceeds all of the required PREA standards.

SUMMARY OF AUDIT FINDINGS

The auditor compared: policies with practice; data received and reviewed; observations and response to questions during tours of the facility; interviews with random selection of security and non-security staff, specialty staff, random and specialty inmates; to the standard requirements beginning with the pre-audit activity, continued during the site visit and completed during the post audit summary report stage. Ranking of the standards was based on documented and confirmed information. There were 8 standards that substantially exceeds requirement of the standard: 115.11 Zero tolerance of sexual abuse and sexual harassment: PREA Coordinator; 115.13 Supervision and monitoring; 115.16 Inmates with disabilities and inmates who are limited English proficient; 115.31 Employee training; 115.33 Inmate education; 115.51 Inmate reporting; 115.64 Staff first responder duties; and 115.71 Criminal and administrative agency investigations. The three Standards that are non-applicable include: 115.12 Contracting with other entities for the confinement of inmates; 115.14 Youthful inmates; and 115.52 Exhaustion of administrative remedies. The other 32 standards are compliant.

The auditor, in reviewing documentation and interviewing staff, noted that there is teamwork exhibited in the facility as a whole and there is an importance placed on professionalism confirmed by their efforts in complying with PREA standards, ACA standards and in their daily performance of duties. Random staff interviews, and random inmate interviews also clearly indicated a thorough, and consistent training program that substantially exceeds requirement of the training standards. An explanation of the findings related to each standard showing policies, practice, observations and interviews are provided in this report under each standard. The New York Department of Corrections and Community Supervision is a leader in national efforts to improve correctional practices under the Prison Rape Elimination Act of 2003 (PREA). Evidence supports PREA is a priority for the Department and there is exceptionally strong leadership at Mid-State Correctional Facility enforcing the Department's PREA policies that were developed using best practices in corrections. The auditor was positively impressed with Mid-State Correctional Facility's commitment to the PREA audit process.

Standard 115.11 Zero tolerance of sexual abuse and sexual harassment; PREA Coordinator

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

The auditor reviewed DOCCS Directive #4027A, Sexual Abuse & Intervention – Inmate-on-inmate, 8/16/11-II; Directive #4028A, Sexual Abuse & Intervention Staff-on-Inmate-8/17/11 –II; Employee Manual Section – Rev. 2013-2.19 & 2.20 and confirm policies are in place and enforced to ensure the agency has written policies mandating zero tolerance toward all forms of sexual abuse and sexual harassment and outlining the agency's approach to preventing, detecting, and responding to such conduct. The policies include definitions of prohibited behaviors regarding sexual assault and sexual harassment of inmates with sanctions for those found to have participated in prohibited behaviors. Also, Directives #4027A/4028A Sexual Abuse Prevention & Intervention include the agency strategies and response to reduce and prevent sexual abuse and sexual harassment of inmates.

Interviews with specialty and random selection staff and inmates confirm they have been trained on PREA compliance and know PREA means Safe and Secure Prisons and DOCCS has a zero tolerance toward all forms of sexual abuse and sexual harassment. During the tour of the facility the auditor observed posters regarding DOCCS zero tolerance toward all forms of sexual abuse and sexual harassment strategically place throughout the facility.

In a letter dated 3/14/12 from the DOCCS Commissioner RE: Appointment of Associate Counsel as PREA Coordinator for DOCCS with Duties Description and Email announcement from DOCCS Commissioner, 4/23/13 RE: Associate Commissioner Appointment (PREA) and review of DOCCS Organizational Chart confirms the Commissioner has designate an upper-level, agency-wide PREA coordinator with sufficient time and authority to develop, implement, and oversee the agency's efforts to comply with the PREA standards in all of its facilities at all times.

Interview with the PREA Coordinator confirms he is responsible for the DOCCS agency-wide PREA requirements and has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards in all of its facilities. The PREA Coordinator position in the agency's organizational structure is Associate Commissioner (PREA) reporting to the Acting Commissioner. Interview with the PREA Coordinator, observation during the audit and review of DOCCS Organizational Chart confirms his status.

Mid-State Correctional Facility is one of many facilities under the direction of DOCCS. Review of Memo: from Deputy Commissioner and Associate Commissioner, 4/4/14, RE: Facility Prison Rape Elimination Act (PREA) and Email announcement from PREA Coordinator, 7/15/14 RE: Assistant Deputy Superintendent/PREA Compliance Manager Appointments with Duties Description confirms the agency operates more than one facility, and has required each facility to designate a PREA Compliance Manager or PREA Point Person with sufficient time and authority to coordinate the facility's efforts to comply with the PREA Standards.

The agency's commitment to PREA is shown in the organizational structure developed. There is a PREA Coordinator responsible for the agency-wide PREA with PREA Compliance Managers responsible for PREA in a number of facilities. If a facility does not have a PREA Compliant Manager located at the facility then the facility Superintendent designates a PREA Compliant Manager/PREA Point Person usually a Captain in the facility. Interviews with the PREA Coordinator and the area PREA Compliance Manager and review of the MSCF's organizational chart confirm that the PREA Compliance Manager has been designated at Mid-State Correctional Facility and she has sufficient time and authority to coordinate the facility's efforts to comply with the PREA Standards. The Mid-State PREA Compliant Manager is an Assistant Deputy Superintendent with direct access to the facility Superintendent.

Review of documentation, observation of zero tolerance posters during tours of facility and interviews with staff and inmates, as described, confirms DOCCS is compliant. The agency's zero tolerance for sexual abuse and sexual harassment is a top priority. Mid-State Correctional Facility is committed to operating in compliance with PREA and continues to report all allegations of any form of sexual misconduct to the Office of Special Investigations for review and follow up. The facility has invested the necessary resources and time to educate the inmate population about their rights under PREA and to train security and civilian staff, contract staff, and volunteers concerning their obligation to identify and report knowledge or suspicion of inappropriate activity related to PREA. The agency's strong support for developing, implementing and monitoring the PREA Standards is evident with the policies developed and enforced. The

agency's priority commitment to PREA is evident with three levels of staff beginning with the agency-wide PREA Coordinator, PREA Compliant Managers with multiple facilities and facility PREA Compliance Manager/Point Persons. In conclusion, the auditor finds the facility substantially exceeded the requirement for Standard 115.11 Zero Tolerance of Sexual Abuse and Sexual Harassment; PREA Coordinator.

Standard 115.12 Contracting with other entities for the confinement of inmates

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

A public agency that contracts for the confinement of its inmates with private agencies or other entities, including other government agencies, shall include in any new contract or contract renewal the entity's obligation to adopt and comply with the PREA standards. Mid-State Correctional Facility does not independently contract with any private agencies or other entities; therefore this part of the standard is non-applicable.

Any new contract or contract renewal shall provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards. Mid-State Correctional Facility does not independently contract with any private agencies or other entities; therefore this part of the standard is non-applicable.

The auditor conclusion for Standard 115.12 is non-applicable since Mid-State Correctional Facility does not independently contract with any private agencies or other entities.

Standard 115.13 Supervision and monitoring

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Review of Mid-State Correctional Facility Annual Security Chart/Staffing Review - Report with Recommended Changes to Facility Plot Plan (staffing plan) and interviews with Superintendent, PREA Compliance Manager confirm policies are in place and enforced to ensure Mid-State Correctional Facility has developed, documented, and makes its best efforts to comply on a regular basis with a staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, MSCF has taken into consideration: 1) Generally accepted detention and correctional practices; 2) Any judicial findings of inadequacy; 3) Any findings of inadequacy from Federal investigative agencies; 4) Any findings of inadequacy from internal or external oversight bodies; 5) All components of the facility's physical plant (including "blind-spots" or areas where staff or inmates may be isolated); 6) The composition of the inmate population; 7) The number and placement of supervisory staff; 8) Institution programs occurring on a particular shift; 9) Any applicable State or local laws, regulations, or standards; 10) The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and 11) Any other relevant factors. Mid-State Correctional

Facility Staffing Plan was predicated on an average daily number of 1,716 inmates. Since August 20, 2012 the average daily number of inmates was 1,571 inmates; 145 inmates under the staffing plan number of inmates.

Interview with the Superintendent found MSCF has a staffing plan providing adequate staffing levels to protect inmates against sexual abuse using video surveillance to monitor inmate movement throughout the complex. The staffing plan is: reviewed annually; documented and available with the facility Staffing Lieutenant. According to the Facility PREA Compliant Manager the staffing positions are allocated from the staffing plan established by DOCCS. The Staffing Plan is: within generally accepted guidelines and practices; considers all 11 areas in the first paragraph; determined by the facility physical layout and its daily operational needs and is review annually.

The facility provided an example of the Mid-State Correctional Facility Post Closure Report showing circumstances where the staffing plan was not complied with and the facility documented and justified all deviations from the plan.

The auditor interview with the PREA Compliance Manager confirmed when staffing plan is not complied with it is documented including justification for why the staffing plan was not met. Deviations from the Staffing Plan are documented in reports and include: emergency medical trip; special watches; program closed - holiday and area closed – weather.

The auditor reviewed the Mid-State Correctional Facility Annual Staffing Audit Review RE: Consultation with PREA Coordinator confirming the agency, whenever necessary, but no less frequently than once each year, for each facility the agency operates, in consultation with the PREA coordinator required by 115.11, the agency assess, determine, and document whether adjustments are needed to: 1) The staffing plan established pursuant to the first paragraph of this section; 2) The facility's deployment of video monitoring systems and other monitoring technologies; and 3) The resources the facility has available to commit to ensure adherence to the staffing plan.

Documentation provided and reviewed confirmed the facility staff in consultation with the PREA Coordinator assess, determine and documents whether adjustments are needed. The current average daily staffing level is based on 1,716 inmates with the actual average daily number of inmates since August 20, 2012 being 1,571 inmates. This staffing level is based on 145 more inmates than actual average and is within generally accepted guidelines and practices. Interview with the PREA Coordinator confirmed he is consulted regarding assessments of and adjustments to the staffing plan for Mid-State Correctional Facility on an annual basis.

Review of: agency's Directive #4001, Facility Administrative Coverage & Supervisory Rounds, 4/7/14 – VI A, C, Pages 4-5; Form 401 A, Form 401 B, 8/15; and facility Officer of the Day (OD) supervisory rounds schedule and group breakdown; confirm MSCF has implement a policy and practice of having intermediate-level or higher-level supervisors conduct and document unannounced rounds to identify and deter staff sexual abuse and sexual harassment. Such policy and practice has been implemented for night shifts as well as day shifts. The facility has a policy to prohibit staff from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility.

The auditor reviewed example log book entries: executive team and security supervisor announced/unannounced rounds on tour I, tour II and Tour III; examples of weekly administrative activity report; form 4001 (8/15) tour I, tour II and tour III rounds; and examples of security supervisor report; facility officer of the day (OD) supervisory rounds schedule and group breakdown; form 4001 B (8/15) tour I, tour II and tour III rounds. Interviews with the Superintendent, intermediate-level and higher-level supervisors confirm unannounced rounds are being done on all three shifts on a regular basis. Observation while visiting the housing units and reviewing the log books confirm unannounced rounds are being done per Standard 115.13.

In conclusion, based on: review of excellent documentation showing development, review and recommendations for improvement of the staffing plan; observation during tour of the facility and interviews with staff during tours and random selection of staff and inmates this facility is not only compliant but substantially exceed requirements with Standard 115.13 Supervision and Monitoring.

Review of DOCCS Directive #4910, Control and Search for Contraband, 5/14/14 & Rev. Notice 2/24/15 –III B1b, 5; 3b (3) Note; III G 1b, 5; Attachment’s A, G; HSPM 1.37 Body Cavity, 9/20/95 – Entire; Directive #2230, Guidelines for Assignment of Male and Female Correction Officers, 3/13/15 – I C, II E, , II; Memo: Superintendent, 10/2015, RE: Use of Force Photos/Cross-Gender Searches; and Memo dated 5/14/14 from Deputy Commissioner and PREA Coordinator regarding revisions to Directive #4910 confirms the facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches except in exigent circumstances or when performed by medical practitioners.

Interview with random selection of staff and inmates and review of Memo: Superintendent, 10/2015 RE: Use of force Photo/Cross-Gender Searches found the facility does not allow cross-gender viewing and searches except in exigent circumstances or when performed by medical practitioners per agency policy. There were zero cross-gender searches or cross-gender visual body cavity searches at MSCF during the last twelve months. During the tour of housing units the auditor interviewed security staff who confirmed they do not conduct cross-gender strip searches or cross-gender visual body cavity searches.

As of August 20, 2015, or August 20, 2017 for a facility whose rated capacity does not exceed 50 inmates, the facility shall not permit cross-gender pat-down searches of female inmates, absent exigent circumstances. Facilities shall not restrict female inmates’ access to regularly available programming or other out-of-cell opportunities in order to comply with this provision. MSCF is an all-male facility. Therefore, this part of the Standard is non-applicable.

Review of DOCCS Directive #4910, Control and Search for Contraband, 5/14/14 & Rev. Notice 2/24/15 –III B 3b (3) Note; III G 1b, 5: Attachments A, G and Memo dated 5/14/14 from Deputy Commissioner and PREA Coordinator regarding revisions to Directive #4910 confirm the facility documents all cross-gender strip searches and cross-gender visual body cavity searches, and document all cross-gender pat-down searches of female inmates.

PREA Audit Report

Attachments A, G and Memo dated 5/14/14 from Deputy Commissioner and PREA Coordinator regarding revisions to Directive #4910 confirm the facility has implemented policies and procedures that enable inmates to shower, perform bodily functions, and change clothing without non-medical staff of the opposite gender viewing their breast, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. These policies and procedures require staff of the opposite gender to announce their presence when entering an inmate housing unit.

Interviews with random selection of staff and random selection of inmates from each housing unit and review of Memo: Superintendent, 10/13/15 RE: Showers and Bathroom Areas; confirm that inmates are able to shower, perform bodily functions and change clothing without non-medical staff of the opposite gender viewing them as required by the Standard. Interviews with staff and inmates confirm staff of the opposite gender announces their presence when entering an inmate housing unit. Review of DOCCS Sexual Abuse Prevention and Response (SAPR) Lesson Plan, Objectives, 4/10/15; Memo dated 5/14/14 from Deputy Commissioner and PREA Coordinator regarding revisions to Directive #4910; confirm policies are in place to ensure the facility not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it may be determined during conversations with the inmate, by reviewing medical records, or, if necessary by learning that information as part of a broader medical examination conducted in private by a medical practitioner.

Interview with a random selection of Correction Officers, Captain, Lieutenants, Sergeants and Correctional Officers confirm they have been trained not to search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. The facility did not have such a search occurring in the past 12 months per policy requirements.

Review of DOCCS Sexual Abuse Prevention and Response (SAPR) Lesson Plan, Objectives 4/10/15; Memo dated 5/14/14 from Deputy Commissioner and PREA Coordinator regarding revisions to Directive #4910; Contraband and Frisk Lesson Plan, Cover Page – December 2001 confirm policies are in place to ensure training security staff in how to conduct cross-gender pat-down searches, and searches of transgender and intersex inmates, in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs.

Documentation was provided showing that all security staff (100%) have signed a document showing they have received and understand the cross-gender pat-down searches and searches of transgender and intersex inmates. Interviews with random selection of staff confirmed they have received this training in training academy, with initial PREA training and receive in-service PREA training annually.

In conclusion, based on documentation provided and reviewed; observations of showers and toilet areas and interviews with staff and inmates Marcy Correctional Facility is compliant with Standard 115.15 Limits to Cross-Gender Viewing and Searches.

Standard 115.16 Inmates with disabilities and inmates who are limited English proficient

Review of DOCCS Directive #2612 inmates with Sensorial Disabilities, 4/30/15 – I; Memo: from PREA Coordinator, 10/27/14 – RE: “Reasonable Accommodations”; Directive #4490, Cultural and Language Access Services, 1/15/16 – Entire; confirm the agency has policies in place and enforced to ensure the agency takes appropriate steps to ensure that inmates with disabilities (including, for example, inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities) have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Such steps include, when necessary to ensure effective communication with inmates who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency ensures that written materials are provided in formats or through methods that ensure effective communication with inmates with disabilities, including inmates who have intellectual disabilities, limited reading skills, or

who are blind or have low vision. An agency is not required to take actions that it can demonstrate would result in a fundamental alteration in the nature of a service, program, or activity, or in undue financial and administrative burdens, as those terms are used in regulations promulgated under title II of the Americans With Disabilities Act, 28 CFR 35.164.

Interviews with a handicap inmate and limited English speaking inmate confirmed the facility provides information about sexual abuse and sexual harassment that he is able to understand and he is aware additional assistance is available to him. Interview with the Acting Commissioner confirmed that DOCCS has a system-wide language access policy that ensures individuals who require assistance with language can still fully participate in critical functions by using the Language Line services for translation of written documents or interpretation of spoken language. There are CD's and Tape Cassettes that provide visually impaired inmate's information. Ninety percent of the limited English population at MSCF is Spanish speaking and all vital documents are translated into Spanish. The agency's Office of Cultural and Language Access Services is responsible for implementing DOCCS' Language Access Plan and ensuring that Limited English Proficient (LEP) individuals can access the Department's programs, services and benefits. Vital documents and PREA informational brochures and inmate education film are available in English, Spanish, Italian, Simplified Chinese, Russian, Korean, Polish and Haitian Creole.

Review of DOCCS Directive #4490 Cultural and Language Access Services, 1/15/16- Entire; Memo: from PREA Coordinator, 12/28/15 – Entire; Memo: from PREA Coordinator, 10/26/15, RE: “Ending Sexual Abuse Behind the Walls: an Orientation” – Entire and Copy of DVD, and time-coded transcripts in English and Polish and Sample of pamphlet translations in various language; Language Access Plan, 4/1/15; and Form 115.33 – facility specific example of Spanish version confirm the agency has taken reasonable steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to inmates who are limited English proficient, including steps to provide interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary.

Interview with the Acting Commissioner confirms the agency has procured Interpretation Services for Individuals with Limited English Proficiency that is available over-the-phone Interpretation Services and in-person (consecutive) Interpretation Services. Contracts were awarded on a regional basis so there are different vendor for different geographic areas. MSCF is in the Oneida HUB with three available vendors.

Review of DOCCS Directive #4490 Cultural and Language Access Service, BI page 4 and Language Access Plan, 4/1/15 and Directive #2612 page 2, Inmates with Sensorial Disabilities, 4/30/15 – I , confirm the agency does not rely, per policy, on inmate interpreters, inmate readers, or other types of inmate assistants except in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the inmate's safety, the performance of first-response duties under 115.64, or the investigation of the inmate's allegations.

Interviews with staff confirms that inmate interpreters for sexual abuse and sexual harassment are not allowed and facility approved interpreters are available for inmates if necessary. In the past 12 months there were zero instances where inmate interpreters, readers, or other types of inmate assistants were used.

In conclusion, based on review of policies and procedures; observation of posters placed strategically in the facility and interviews with acting Commissioner, staff and inmates MSCF has taken more than appropriate steps to ensure that inmates with disabilities have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment and is not only compliant but substantially Exceeds in Standard 115.16 Inmates with Disabilities and Inmates who are limited English Proficient.

Interviews with medical and mental health staff confirm that full-and-part medical and mental health care practitioners have received training as described in 1-3 in the first paragraph. Medical and mental health care practitioners who work regularly at the facility are 25 medical and 26 mental health staff with 100% receiving the required training.

If medical staff employed by the agency conduct forensic examinations, such medical staff shall receive the appropriate training to conduct such examinations. Review of Power Point Presentation: PREA: Medical and Mental Health Care HSPM 1.60 and PREA Standards confirms DOCCS does not train medical staff to conduct forensic medical exams as this policy directs medical staff to send inmate victims to an outside hospital emergency department for evaluation by a certified Sexual Assault Forensic Examiner (SAFE) or certified Sexual Assault Nurse Examiner (SANE).

Interviews with medical staff confirm they do not perform forensic medical exams as the inmate is taken to a medical facility that has SAFE and SANE service 24/7. Therefore, DOCCS is non-applicable for this part of Standard 115.35.

Review of Facility Specific KHRT – Medical/Mental Health Training; OMH Staff RTF03 for Medical/Mental Health Training; and Facility Specific Example – Division of Health Service Form for Directive #4750 confirm DOCCS maintains documentation that medical and mental health practitioners have received the training referenced in this standard either from the agency or elsewhere.

Review of Training manual Subject 6.600, Mandatory Initial Training, Non-Security Staff at Facilities , 2/19/15 (Mandatory); Email: PREA – Office of Mental Health Memorandum of Understanding To: All Superintendents (Interim MOU between OMH and DOCCS), 6/18/14; Directive #4750 – Volunteer Services Program, Division of Health Services acknowledgement form; Training Manual Subject – 7.100.40 - Hour Orientation Program for Full-time, Non-security Staff at Facilities – 8/25/15 (Mandatory) confirm DOCCS policies are in place and enforced to ensure medical and mental health care practitioners receive the training mandated for employees under 115.31 or for contractors and volunteers under 115.32, depending upon the practitioner's status at the agency.

Interviews with medical and mental health confirm they receive PREA training mandated for employees under 115.31. Review of training records indicate that all medical and mental health staff sign showing they received and understand the PREA training.

In conclusion, based on review of policies, procedures, training records; interviews with medical and mental health staff and observations during the tour of the medical and mental health area of the facility meets the requirements of and is compliant with Standard 115.35 Specialized Training: Medical and Mental Health Care.

The sending facility senior correction counselor advises the receiving facility and each in-transit facility, via electronic mail to the watch commander, of any such history. Upon each transfer, any inmate so identified will be screened by a security supervisor within 24 hours of arrival at the facility for any indication of current sexual vulnerability or sexually aggressive behavior. Information from the screening process, the initial assessment, quarterly reviews, and inmate disciplinary history, will be reviewed and considered for purposes of classification, housing assignments and programming, etc. During the last 12 months 1,930 inmates entering the facility were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry into the facility.

(d) Note each item prescribed by the PREA standard that is missing from the facility's risk screening instrument; note each item not prescribed in the PREA standards that is included in the facility's instrument.

Interview with the Sergeant performing the screening process confirmed that the initial risk screening considers: consideration of any inmate disabilities; inmate age; physical build; previous incarceration; criminal history exclusively nonviolent; inmate criminal history; perceived sexual orientation; previous sexual victimization; inmate perception of vulnerability and whether detention is related to civil immigration.

Review of DOCCS PREA Intake Screening Form 115.41 (09/15) Confirms policies and forms are in place to ensure the initial screening considers prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse, as known to the agency, in assessing inmates for risk of being sexually abusive.

Interviews with random sample of inmates confirm the reassessment process occurs as required. During the last 12 months 1,930 inmates entering the facility were reassessed for their risk of sexual victimization or risk of sexually abusing other inmates within 30 days of their entry into the facility.

Review of Form 3150 DOCCS Mental Health Referral (12/2014) confirms policy is in place and enforced to ensure an inmate's risk level shall be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness.

Interview with the Sergeant performing the screening process confirm an inmate's risk level is reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness

Review of Memo: from PREA Coordinator and Assistant Commissioner, 10/27/14, RE: New/Revised Other Security Characteristics regarding Sexual Orientation and Gender Identity (SOGI) confirms policy is in place and enforced to ensure inmates are not disciplined for refusing to answer, or for not disclosing complete information in response to, questions asked about: whether the inmate has a mental, physical, or developmental disability; whether the inmate is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; whether the inmate has previously experienced sexual victimization; and the inmate's own perception of vulnerability.

According to interviews with the PREA Coordinator, PREA Compliant Manager and the Sergeant responsible for screening the agency outlines who should have access to an inmate's risk assessment within the facility in order to protect sensitive information from exploitation and those including only those with a "need to know" allowed to have access. Apart from reporting to designated supervisions or officials, staff does not reveal any information related to a sexual abuse report to anyone other than to the extent necessary, as specified in Agency policy, to make treatment, investigation, and other security and management decisions.

In conclusion, based on review of policies and forms; interviews with PREA Coordinator, PREA Compliant Manager and the Sergeant responsible for screening; and observations when visiting the screening process for inmates the facility is considered compliant with Standard 115.41 Screening for Risk of Victimization and Abusiveness.

Standard 115.42 Use of screening information

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Review of Directive #4027A, Sexual Abuse Prevention & Intervention, Inmate-on- Inmate, 8/16/11 – IV B1,2 confirms DOCCS has a policy in place showing how use of information from the risk screening required by 115.41 is limited to inform housing, bed, work, education, and program assignments with the goal of keeping separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive.

According to the interviews with the Sergeant responsible for screening and the PREA Compliance Manager/Point Person the agency information from the risk screening during intake is reviewed and assessed with the PREA Compliant Manager/Point Person, security and medical/mental health staff. Information is used to inform housing, bed, work, education and program assignments.

Review of Directive #4027A, Sexual Abuse Prevention & Intervention, Inmate-on- Inmate, 8/16/11 – IV B1,2 confirms DOCCS policies are in place to ensure the agency makes individualized determinations about how to ensure the safety of each inmate.

Interviews with the Sergeant responsible for screening inmates and the PREA Compliant Manager found the facility uses the intake screening information to make individualized determinations to ensure inmate safety.

Review of Memo: from Deputy commissioners, 8/4/2005, RE: New Procedure Necessitated by Directive #4027A – Sexual Abuse Prevention & Intervention –Inmate-on-Inmate; and Memo: from PREA Coordinator and Associate Commissioner, 10/27/14, RE: New/Revised Other Security Characteristics Regarding Sexual Orientation and Gender Identity (SOGI) confirm policy is in place to ensure in deciding whether to assign a transgender or intersex inmate to a facility for male or female inmates, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the inmate's health and safety, and whether the placement would present management or security problems.

According to the interview with PREA Compliance Manager, transgender or intersex inmates goes through SOGI and PREA risk assessment with the information gained from the correction counselor interview the basis for determining the inmate's initial housing assignment. This housing assignment may be changed after the inmate is further evaluated by the appropriate staff. According to interviews with transgender inmates staff asked them about their safety with housing and programmatic decisions of when and where education, work and exercise would occur. The transgender inmates said they had not been put in housing area only for transgender inmates and they had not been search for the sole purpose of determining their genital status. The transgender inmates stated they are treated with respect by security and non-security staff and feel safe in the facility.

Review of Directive #4401, Guidance & Counseling Services – 2/11/13-III B 1a, b, c, d, 2a confirm DOCCS policies ensure placement and programming assignments for each transgender or intersex inmate be reassessed at least twice each year to review any threats to safety experienced by the inmate.

According to interviews with PREA Compliance Manager and Sergeant responsible for screening inmates, placement and programming assignments for each transgender or intersex inmate is reassessed to review any threat to safety quarterly with ORC and offender rehabilitation coordinator and Sergeant responsible for screening inmates.

The agency does not have any dedicated facilities, units, or wings solely for lesbian, gay, bisexual, transgender, or intersex inmates. Therefore, this part of Standard 115.41 is non-applicable.

In conclusion, based on; review of policies and procedures; interviews with PREA Compliance Manager and Sergeant responsible for screening inmates; interviews with transgender inmates; the facility is compliant with Standard 115.42 Use of Screening Information.

Standard 115.43 Protective custody

- Exceeds Standard (substantially exceeds requirement of standard)
- Meets Standard (substantial compliance; complies in all material ways with the standard for the relevant review period)
- Does Not Meet Standard (requires corrective action)

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Review of Directive #4948, Protective Custody Status, 3/13/15 – Entire and Forms 2168A, 2170A and 4948A confirm the agency has a policy in place and enforced to ensure inmates at high risk for sexual victimization shall are not placed in involuntary segregated housing unless an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct such an assessment immediately, the facility may hold the inmate in involuntary segregated housing for less than 24 hours while completing the assessment.

According to interview with the facility superintendent agency policy prohibits placing inmates at high risk for sexual victimization or has alleged sexual abuse in involuntary segregated housing in lieu of other housing areas, unless an assessment has determined there are no available alternative means of separation from potential abusers (last resort). During the last 12 months zero inmates at risk of sexual victimization were held in involuntary segregated housing.

Review of Directive #4948, Protective Custody Status, 3/13/15 – Entire and Forms 2168A, 2170A and 4948A confirm the agency has a policy to ensure inmates placed in segregated housing for this purpose shall have access to programs, privileges, education, and work opportunities to the extent possible. If the facility restricts access to programs, privileges, education, or work opportunities, the facility shall document: 1) The opportunities that have been limited; 2) The duration of the limitation; and 3) The reasons for such limitations.

According to interview with staff who supervises inmates in segregated housing for protection from sexual abuse or after having alleged sexual abuse they have access to: programs; privileges; and education. They do not have access to work opportunities. The auditor observed and confirmed no inmates were in protective custody for protection from sexual abuse during the tour of the housing units. The facility has not placed an inmate in involuntary or voluntary protective custody due to being high risk for sexual victimization during the last 12 months. Since no inmates were placed in protective custody due to being high risk for sexual victimization the auditor was not able to interview an inmate.

Review of Directive #4948, Protective Custody Status, 3/13/15 – Entire and Forms 2168A, 2170A and 4948A confirm the agency has a policy ensuring the facility assigns such inmates to involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged, and such an assignment shall not ordinarily exceed a period of 30 days.

According to interviews with the facility superintendent and staff supervising inmates in segregated housing, inmates at high risk for sexual victimization or who have alleged sexual abuse are placed in involuntary segregated housing only until an alternative means of separation from likely abusers can be arranged and is used as a last resort and for a time of less than 30 days. Since no inmates were assigned to segregate housing for high risk for sexual victimization up to 30 days the auditor was not able to interview an inmate.

Review of Directive #4948, Protective Custody Status, 3/13/15 – Entire and Forms 2168A, 2170A and 4948A confirm the agency has a policy ensuring if an involuntary segregated housing assignment is made pursuant to the first paragraph of this section, the facility shall

clearly document: 1) The basis for the facility's concern for the inmate's safety; and 2) The reason why no alternative means of separation can be arranged.

According to interviews with the facility superintendent, PREA Compliant Manager and staff supervising inmates in segregated housing policies are in place to identify and document the basis for the facility's concern for the inmate's safety and the reason why no alternative means of separation can be arranged. However, since zero inmates at risk of sexual victimization were held in involuntary segregated housing in the past 12 months there were no inmate files to review.

Review of Directive #4948, Protective Custody Status, 3/13/15 – Entire and Forms 2168A, 2170A and 4948A confirm the agency has a policy ensuring every 30 days, the facility affords each such inmate a review to determine whether there is a continuing need for separation from the general population.

According to interviews with the facility superintendent, PREA Compliant Manager/Point Person and staff supervising inmates in segregated housing policies are in place to ensure review of the inmate every 30 days to determine whether there is a continuing need for separation from the general population. However, since zero inmates at risk of sexual victimization were held in involuntary segregated housing in the past 12 months there were no inmates to interview.

Mid-State Correctional Facility has not placed an inmate in involuntary or voluntary Protective Custody solely due to being a high risk for sexual victimization. In conclusion, based on interviews with the facility superintendent, PREA Compliant Manager and staff supervising inmates in segregated housing; observations during tour of housing units the facility is compliant with Standard 115.43 Protective Custody.

According to interviews with random sample of staff, an inmate may report an incident of sexual abuse, sexual threats or any act of retaliation verbally or in writing, anonymously and from third parties. Verbal reports are promptly documented. Interviews with random sample of inmates confirm that they are very aware of the many ways they can report sexual abuse and how to do so privately. The agency has established procedures allowing for multiple internal ways for inmates to report sexual abuse/harassment privately and to agency officials. Additionally, the Offender Orientation Manual issued to each offender provides: sexual assault awareness; facts for the offender who sexually assaults other offenders; rape avoidance; and what to do if they are sexually assaulted. The facility has inmate telephone access by dialing #77 for them to call a “hot line” to privately report sexual abuse and sexual harassment or seek outside confidential support services. Review of Letter to Acting Commissioner from State Commission of Corrections, 4/8/14, RE: Inmate and Resident reporting; Sexual Abuse Prevention and Response (SAPR) Lesson Plan, March 2015, Pages 65-66; General Confinement: The Prevention of Sexual Abuse in Prison: “What Inmates Need to Know” Pamphlet (English and Spanish); confirm the agency has policies in place that ensures the agency provides at least one way for inmates to report abuse or harassment to a public or private entity or office that is not part of the agency, and that is able to receive and immediately forward inmate reports of sexual abuse and sexual harassment to agency officials, allowing the inmate to remain anonymous upon request. Inmates are not detained solely for civil immigration purposes so this part of the standard is non-applicable.

According to interview with PREA Compliance Manager and review of Chairman of State of New York – Executive Department, State of Commission of Correction letter dated 4/9/14 to Acting Commissioner DOCCS, the New York State Commission of Correction (SCOC), the policy is in place to ensure SCOC agrees to receive all written inmate and resident reports containing sexual abuse and sexual harassment allegations and then immediately forward them to department officials. SCOC will comply with any inmate or resident request to remain anonymous. Observations during facility tour found posters strategically posted throughout the facility and responses to questions confirm staff and inmates understand how to report abuse or harassment to a public or private entity or office that is not part of the agency.

Review of Directive #4027A, Sexual abuse & Intervention Inmate-on-Inmate, 8/16/11 –IV C; Directive #4028A Sexual Abuse & Intervention Staff-on-Inmate, 8/17/11 – VB; Employee Manual Section – 2.20; Sexual Abuse Prevention and Response (SAPR) Lesson Plan, March 2015, Pages 65-66; General Confinement: The Prevention of Sexual Abuse in Prison: “What Inmates Need to Know” Pamphlet (English and Spanish); confirm the agency has policies directing staff accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document an verbal reports.

According to interviews with random sample of staff when an inmate alleges sexual abuse or sexual harassment he can do so verbally, in writing, anonymously, and from third parties. Verbal reports are documented immediately. Interviews with random sample of inmates confirm they have received, read and understand the pamphlet “The Prevention of Sexual Abuse in Prison: What Inmates Need to know” and are aware of these opportunities to report sexual abuse or sexual harassment.

(d)

According to interviews with random samples of staff, employees may privately report any suspicion of sexual abuse or sexual harassment of an inmate by contacting the Office of Special Investigation directly. Staff is informed of this reporting procedure by policy and Sexual Abuse Prevention and Response training.

In conclusion, based on: development, implementation and monitoring of policies and procedures, interviews with random sample of staff and inmates; observations and answers to questions regarding inmate reporting during tour of housing units; and the distribution of a new updated pamphlet “The Prevention of Sexual Abuse in Prison: What Inmates Need to know”; the facility substantially exceeds the requirements with Standard 115.51 Inmate Reporting.

The inmates confirmed the facility gives them mailing addresses and telephone numbers for the outside services. The facility has inmate telephone access by dialing #77 for them to call a “hot line” to privately report sexual abuse and sexual harassment or seek outside confidential support services. There were 16 allegations of sexual abuse or harassment during the last 12 months and the inmates were released or transferred to another facility. The auditor was not able to interview an inmate who reported a sexual abuse since there was not one in the facility at the time of the audit.

Review of Directive #4404, Inmate Legal Visits – 1/6/15 –II A & E, IV J; Directive #4421, Privileged Correspondence, 113/14 – II a 4, III A 2, C; Memo: from PREA Coordinator to all Superintendents, 4/4/14 – RE: Just Detention International Resource Guide; confirm policies are in place to ensure the facility informs inmates, prior to giving them access, of the extent to which such communications will be monitored and the extent to which reports of abuse will be forwarded to authorities in accordance with mandatory reporting laws.

Review of Directive #0700, Office of Special Investigations, 10/23/14 – Entire; OSI Policy & Procedure: Training Requirements for Sex Crimes Investigators, 9/1/15; Office of Special Investigations Sex Crimes Unit: Inmate-on-Inmate Dispatch and Operational Guidelines – Entire; Office of Special Investigations Sex Crimes Unit: Staff-on-Inmate Dispatch and Operational Guidelines – Entire; confirm policies are in place and enforces to ensure when the agency conducts its own investigations into allegations of sexual abuse and sexual harassment, it does so promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports.

The two investigators interviewed reported the investigations are done promptly, thoroughly and objectively for all allegations. The length of time it takes to initiate an investigation following an allegation of sexual abuse or sexual harassment depends on the nature of the allegations, a case may be initiated immediately (call that an immediate dispatch). This would involve an allegation of recent sexual abuse or a case where evidence may only exist for a short time. Where an allegation involves misconduct that occurred many weeks or even months before the report, or where the allegation concerns harassment, it may take several days before an investigation is initiated. According to the investigators they follow all of the same investigative steps for anonymous or third-party reports of sexual abuse or sexual harassment, but they start by interviewing the alleged victim. He/she would be taken to medical and, if medically indicated, the hospital after he/she confirms that the report is correct.

Review of OSI Policy & Procedure: Training Requirements for Sex Crimes Investigators, 9/1/15; confirm policies are in place to ensure where sexual abuse is alleged; the agency uses investigators who have received special training in sexual abuse investigations pursuant to 115.34.

Interviews with two investigators confirm they receive multiple training specific to conducting sexual abuse investigations in confinement setting. When joining the Office of Special Investigations they participate in a 3 week investigations school and the OJT with a seasoned investigator. They have had (one, two, several) trainings conducted by the agency’s PREA Coordinator around: PREA; a victim-centered approach to investigations; legal issues including Miranda, Garrity; and burdens of proof; DOCCS medical response policies; individualized credibility assessments; understanding trauma; working with victim advocates; and other factors. They have completed the NIC course “Investigating Sexual Abuse in a Confinement Setting” a course on interview and interrogation, and evidence collection courses.

Review of OSI Policy & Procedure: Training Requirements for Sex Crimes Investigators, 9/1/15 confirm policies are in place to ensure investigators shall gather and preserve direct and circumstantial evidence, including any available physical and DNA evidence and any available electronic monitoring data; shall interview alleged victims, suspected perpetrators, and witnesses; and shall review prior complaints and reports of sexual abuse involving the suspected perpetrator.

Interviews with two investigators found the first steps in initiating an investigation depend on the nature of the investigation. In an immediate dispatch situation, the investigator initiate a coordinated response by making contact with the facility Watch Commander or higher ranking supervisor and instruct the facility to contact the New York State Police Bureau of Criminal Investigations and report the allegation(s). The investigator confirms that the facility has initiated the sexual abuse response protocols and ensures the inmate/victim is evaluated by medical and a mental health referral is completed. If the incident was perpetrated by staff and occurred within the present shift the involved employee is escorted to the Superintendent, isolated from further interaction with staff or inmates, and placed under constant supervision.

The investigator assess the case to identify any crime scene, ensures the crime scene(s) are properly secured, and ensure that a Crime Scene

Attendance Log is being maintained of all persons that have contact with the alleged crime scene. Evidentiary materials associated with the reported crime scene are secured. The property and cell of all involved inmates are secured. If there is video surveillance, steps are taken to secure that as well. If the inmate is being taken to a hospital for a forensic rape exam the investigator goes to the hospital. To the extent possible the investigator speaks with the SANE and the victim advocate. If the inmate is able to participate in an interview he is interviewed there with the advocate present. In these situations the investigator often cannot conduct a full interview that soon after the incident, he will often just find out what he can and conduct a follow-up interview a few days later. If the inmate is returning to a facility from the hospital the investigator confirm that he/she will be place in an infirmary upon return. If the inmate remained at the facility a cell move may be requested or other action necessary to separate the inmate from the abuser.

According to the investigators the process typically starts with the search for evidence to corroborate the information received in the initial report. That includes interviewing the victim; interviewing random inmates who were in the area around the time of the incident; interviewing potential staff witnesses (but they do not interview the suspect at this juncture); conducting forensic testing through the State Police Lab of any physical evidence collected; review of surveillance, phone records, documents, commissary records, package records, financial records and any other circumstantial evidence that may be consistent with what is called an unauthorized relationship. They also review the background of both the victim and the alleged perpetrator, including prior cases, for any similar past conduct that interview to avoid Garrity issues, unless the case does not involve a possible crime and the DA's Office advises them that they can go forward with the interview or formal interrogation.

The investigators described any direct and circumstantial evidence they are responsible for gathering in an investigation of an incident of sexual abuse as including: clothing worn by the victim and the perpetrator at the time of the abuse; any trace DNA collected at the crime scene (identified with an Alternate Light Source); any object that may have been use in the act (like a baton); statements of the victim; witnesses and perpetrator; video surveillance; recorded calls on the inmate telephone system; letters; contraband; store receipts or surveillance for contraband items; inmate account records; controlled phone calls; etc. If probed about prior complaints – they would look at prior complaints to help identify patterns of misconduct and perhaps point them to sources of evidence for the current complaint.

Review of Memo: from PREA Coordinator to Superintendent, New York State Police – RE: Implementation of the Prison Rape Elimination Act Standards, 5/2/14 page 2; confirms policy is in place to ensure the credibility of an alleged victim, suspect, or witness shall be assessed on an individual basis and shall not be determined by the person's status as inmate or staff. No agency shall require an inmate who alleges sexual abuse to submit to a polygraph examination or other truth-telling device as a condition for proceeding with the investigation of such an allegation.

The investigators interviewed reported they judge the credibility determinations of an alleged victim, suspect, or witness are based on: the individual – how they present during interviews; past dealings with them; how the evidence obtained matches up with their version of events; the motives they may have to lie and other verbal and nonverbal cues. The investigators said they would not under any circumstances, require an inmate who alleges sexual abuse to submit to a polygraph examination or truth-telling device as a condition for proceeding with an investigation as it is against state law to ask a victim of sexual abuse to take a polygraph.
