**I. DESCRIPTION:** This procedure is designed to standardize inmate clothing issue. This clothing has been designed to ensure proper dress, promote health and safety, enhance morale, and give each inmate a sense of responsibility and pride in a neat and clean appearance.

The issue of every article of clothing must be recorded on [Form #1670](#), "Male Inmate Clothing Record," or [Form #1672](#), "Female Inmate Clothing Record" (see Directive #3082, "Inmate Clothing Record").

Institution Stewards and Deputy Superintendents for Administrative Services are responsible for the implementation of this directive at their respective facilities. The Division of Support Operations is the central clearinghouse for information regarding used or surplus new clothing. Any facility which requires used clothing or which has an available supply of used, or surplus new clothing, should contact Support Operations and specify the type, quantity, and size of clothing. No used or surplus new clothing may be shipped between facilities without the specific approval of Support Operations.

When issuing reception or replacement inmate clothing, serviceable used clothing (except for items noted below) is to be given out before new items. Serviceable used clothing is defined as "free of any obvious physical defects, including rips, tears, stains, missing buttons, etc.; properly laundered; suitable for a visit." Used underwear, socks, handkerchiefs, or pajamas will not be reissued.

The State Shop Officer or Civilian Clerk will measure inmates' feet with the Brannock Foot Measuring Device to establish correct foot sizing whenever issuing reception or replacement footwear. Footwear size issued will be recorded on [Form #1670](#) or [Form #1672](#) (see Directive #3082).

C. Gender Affirming/Transgender State Clothing Issue: Per Health Service Policy 1.31A, a Gender Dysphoria (GD) diagnosed inmate, intersex inmate, or transgender inmate who has reported their gender identity to the Department, can make a request to the facility Health Unit for issuance of a medical permit to obtain, possess, and wear gender affirming/transgender clothing. The inmate may be called to Health Services to be measured for the initial issue of undergarments. When the permit is issued, it will State whether it is for undergarments/sleepwear only or for a full State issue. A permit to possess and wear gender affirming/transgender clothing is permanent, applicable at all DOCCS facilities, and is to be issued without an expiration date.

1. Health Services shall forward notification of issuance of the permit to the facility Deputy Superintendent for Security, Assistant Deputy Superintendent PREA Compliance Manager, the State Shop, and the package room for inclusion in the inmate's package room folder.
2. Health Services will complete Section 1 of Form #HS101, "Initial GD/Transgender Clothing Request," (see sample, Attachment A) with the correct size(s) for undergarments requested, noting the type of permit being issued. The form will then be forwarded via Outlook to the facility Steward.
3. If the permit is for a full State issue, the Steward will contact the State Shop to see what other clothing items are needed and staff will determine the correct sizes.
4. The Steward will then complete Section 2 of Form #HS101. Additional clothing items will be noted on the second page of Form #HS101, indicating size and quantity. Unisex items are not listed as they should be available at the current facility. The completed Form #HS101 should then be sent via Outlook, to the appropriate male or female facility, who will complete the request within 10 business days. The requesting facility Steward should be notified of any out of stock items as soon as possible so that another request for those items can be processed.

5. If a delay is anticipated in receiving undergarments, the facility Steward at the inmate's assigned facility will contact other facilities first. If undergarments still cannot be obtained, arrangements will be made to purchase from a local vendor.
6. Clothing is to be shipped via UPS unless arrangements can be made to include the clothing on a security transportation trip.
7. Once items are received, the appropriate sizes are to be written on the clothing card for future issues and the inmate will be placed on a call out. Once issued, the inmate will initial the card verifying receipt. A paper copy of the form is to be returned with the clothing and must be attached to the clothing card. Please refer to Directive #3082 for instructions on how to document permit information and the appropriate clothing card to be used.
8. Replacement issue requests will be done through regular email and should be initiated in advance to ensure that the inmate receives the replacement items when due.

## V. FACILITY REPLACEMENT ISSUES

### A. Gender Affirming/Transgender State Clothing Replacement Issue

1. In order to ensure timely receipt of clothing from the sending facility, a GD diagnosed, intersex, or transgender inmate may initiate a request for replacements one month before they are due. If there is sufficient inventory of clothing in stock, the one month in advance call out may be waived. The inmate will be given the appropriate Male or Female Inmate Call Out Sheet to complete and submit to the State Shop.
2. The inmate does not need to be seen in medical for clothing requests unless they request to be measured or re-sized for undergarments.
3. The Steward will be notified of any special facility clothing needs as soon as possible so an email request can be sent to the appropriate facility.
4. Any forms that are needed can be ordered or may be requested from a reception center or the closest appropriate facility.

### B. Replacement Process

1. If an article does not warrant replacement, it will not be replaced. An inmate seeking replacement issue must bring worn out or unusable clothing, except for underwear and handkerchiefs (as noted below), to the State Shop. The State Shop Officer or Civilian Clerk will personally inspect the items and determine if replacement is necessary.
2. Serviceable, clean, reclaimed articles will be issued as replacements when available. The only items which may not be reclaimed and reissued are those items marked with an asterisk (\*) in the wear-time guideline lists below.
3. Articles that appear to be purposely damaged in order to secure replacement, altered so as to be unusable, or claimed to be lost or stolen will be replaced based on the Department's restitution policy (see Section VIII).
4. Unserviceable articles should be disposed of in accordance with Directive #3050, "Waste Reduction and Recycling Program."

- C. Wear-Time Guidelines: Under conditions of average wear, standard issue items should remain serviceable for at least as long as the wear-time expectancies set forth in the following schedules. However, the items marked with an asterisk (\*) will automatically be replaced at the end of the time period indicated, no turn-in required. As stated above, other items will only be replaced when warranted.

**VI. PAROLE/TEMPORARY RELEASE/COURT CLOTHING:** Inmates must have suitable civilian clothing for parole or discharge, transfer to temporary release facilities, and for court appearances as detailed in the following subsections.

A. Parole/Discharge

1. Previous Issue: Prior to an inmate's parole or discharge, the facility shall collect all previously issued State clothing except for; underwear, socks, handkerchiefs, and pajamas. If requested, and available, an inmate may also keep the following items from previous issue providing they would be suitable for their prospective employment:

Male/Transgender Male

- 1 Trousers, pair, green
- 1 Shirt, green
- 1 Shoes, work, black

Female/Transgender Female

- 1 Slacks, pair, green
- 1 Shirt, s/s, green
- 1 Shoes, work, black

2. Civilian Release Clothing: Inmates shall wear appropriate civilian clothing when discharged or paroled. Under no circumstances shall an inmate be released from Department custody in institutional greens. Civilian release clothing may be provided by family, purchased by the inmate, or provided by the facility on request.

The following check-off procedure should be used prior to an inmate's parole or discharge:

- \_\_\_ Advise the inmate that they will be provided with needed items of civilian release clothing upon request.
- \_\_\_ Give the inmate an opportunity to request some, all, or none of the State issue items listed in Section VI-D (below), and record those issues on the clothing record card. An inmate may not be denied any requested item, provided that any item taken must be actually worn at the time of release.
- \_\_\_ In the case of any inmate who does not request State issue release clothing, confirm that the inmate has, or will receive, suitable civilian release clothing prior to the date of release.

- B. Clothing for Temporary Release: Civilian release clothing must be sent with inmates who are being transferred to temporary release facilities to be available for furloughs and release activities. This may include the inmate's own civilian clothing, or State issue release clothing requested by the inmate as listed in Section VI-D (below). Follow the same check-off procedure set forth in Section VI-A-2 above. This release clothing is to be carefully boxed or packaged to prevent wrinkling, and kept under lock and key until needed for release activities.
- C. Clothing for Court Appearances: Properly fitting State issue civilian clothing, as listed in Section VI-D (below), shall be issued to any inmate leaving the facility for a court appearance. If the inmate is being transferred to another facility in out-to-court status, the clothing shall be packed, along with two sets of underwear from the inmate's existing issue, and sent with the inmate (see also Directive #4919). All provided release clothing, except underwear, shall be recovered, laundered, and returned to stock upon the inmate's return.

D. State Issue Release Clothing

- |  |  |
|--|--|
| 1 Pair khaki trousers<br>(male/transgender male) or<br>khaki slacks (female/transgender<br>female) | 1 Pair of Sneakers<br>1 Belt<br>1 Jacket |
| 1 White shirt (male/transgender male)<br>or white blouse (female/transgender<br>female)            |  |

NOTE: Gender affirming/transgender State issue release/civilian clothing shall be offered to any releasing or court appearance inmate with a medical permit to obtain, possess, and wear gender affirming/transgender clothing; however, an inmate's release or court appearance shall not be delayed in order to obtain such clothing (for example, when a change in circumstances results in an expedited or immediate release).

**VII. TRANSFER OF INMATE:** Prior to transfer, the inmate's clothing and labels shall be examined for any deficiencies, alterations, or shortages, and to determine proper ownership. Deficiencies should be corrected whenever possible, and any surplus items returned to the State Shop. Every effort shall be made to get any soiled items back clean from the laundry prior to actual transfer.

The Pack-up or Draft Processing Officer will complete [Form #2075](#), "Inmate Clothing Issue – Pack-up for Transfer," and compare the clothing count with the listed items of full standard issue (see Directive #3082).

A. Clothing to be Transferred

1. Standard Issue: The complete standard issue of proper fitting clothing shall accompany the inmate from the reception center to the facility to which they are assigned, and on subsequent transfers.

If an inmate is received (a) from a reception facility, or (b) back into general confinement from work release, day reporting, or absconder status, without every item of standard issue as defined in Section II, the receiving facility shall provide the missing item(s) and then request approval to journal voucher these expenditures to a central clothing account. REIMBURSEMENT WILL BE APPROVED ONLY IN THE CASES DESCRIBED ABOVE AND ONLY FOR RECEPTION STANDARD ISSUE. The following information must be provided to the facility's assigned Central Office Budget Analyst by email (it is not necessary to send individual documentation):

<u>Reception or WR facility</u>	<u>Date of Transfer</u>	<u>Items DIN</u>	<u>Missing</u>	<u>Replacement Value</u>
-------------------------------------	-----------------------------	----------------------	----------------	------------------------------

Once this information is reviewed and approved by the Budget Analyst, appropriate account coding will be provided to the Steward to process the journal transfer.

2. To a Temporary Release Facility: The standard issue, with only two sets of inmate greens (pants and shirts) and appropriate personally owned civilian or State issue release clothing (see Section VI-B), shall accompany an inmate being transferred to a temporary release or community contract facility.
3. To Out-To-Court Status: State issue release clothing (see Section VI-C) shall accompany an inmate being transferred to another facility for a court appearance (see also Directive #4919).

B. Altered or Missing State Issue

1. Transferring Facility
  - a. The Draft Processing or Pack-up Officer should question an inmate concerning any missing or altered State issue and, if appropriate, attempt to secure voluntary restitution (see Section VIII below).
  - b. If restitution is not offered, a report on the loss of these articles will be prepared by the transferring Officer. This report will incorporate a written statement or the transferring Officer's summary of any oral statement, made by the inmate, concerning the loss of these articles.

- c. The report will be forwarded to the Deputy Superintendent for Administrative Services, who will review it, secure any necessary additional facts, and determine if the cost of replacement is a viable State expense, or if the inmate should be held wholly or partially responsible.
  - d. If it is determined that the inmate should be held accountable for any portion of the replacement costs, the report, the valuation of the loss, and any other documentation which would be required for disciplinary proceedings against the inmate should be promptly forwarded to the Deputy Superintendent for Administrative Services of the receiving facility. This should be completed during the same week of the transfer.
2. Receiving Facility
    - a. Any articles found to be missing or altered will be replaced by the receiving facility to ensure that the inmate has a complete standard issue.
    - b. The receiving facility will then initiate regular disciplinary proceedings or attempt to secure voluntary restitution, based on the report of the transferring facility.

## VIII. RESTITUTION

- A. Every attempt should be made to obtain restitution from inmates for all items altered, lost, or purposely damaged. If the inmate responsible for the loss, damage, or alteration refuses to make voluntary restitution, a misbehavior report should be issued.
- B. State Shop and Draft Processing personnel bear the primary responsibility for confronting inmates who have lost or possess damaged or altered clothing, and for initiating action to secure restitution.
  1. The staff person in charge of the area must explain to the inmate the circumstances surrounding the need for restitution. It will further be explained to the inmate that they cannot be compelled to sign a disbursement form for restitution.
  2. If, after explanation, the inmate agrees to make voluntary restitution for State issued items, they will fill out [Form #2706](#), "Disbursement or Refund Request," which will be reviewed and signed by the area supervisor before forwarding it to the Fiscal Office for processing.
  3. If the inmate indicates they do not feel they are responsible for the loss or damage to the property, a misbehavior report will be filed and the issue will be addressed through the disciplinary process in accordance with Directive #4932, "Chapter V, Standards Behavior & Allowances."

## IX. MARKING OF STATE ISSUE CLOTHING: The inmate's name and number shall be conspicuously placed on their clothing using a heat seal label. An inmate in possession of unlabeled State issue may be subject to a misbehavior report for alteration of State clothing or for possession of contraband.

- A. Location of Labels (Male Clothing)
  1. The coat, jacket, shirts, and sweatshirts shall have the label attached to the front of the left chest pocket area.

2. The green trousers shall have the label attached to the outside waistband.
  3. The white shirt shall have the label attached to the inside bottom.
  4. Socks, handkerchiefs, and underwear will not be marked.
  5. Culinary and medical issue items shall be labeled in the same manner as regular issue.
  6. Shoes and sneakers will be marked with indelible ink on the inside tongues.
- B. Location of Labels (Female Clothing)
1. Jumpers, coats, blouses, shirts, sweatshirts, pajamas, and bathrobes shall be labeled on the left breast pocket area.
  2. Slacks and skorts shall be labeled at the waistband.
  3. There shall be no marking of slippers, stockings, socks, or similar attire: bras, panties, or handkerchiefs.
  4. Shoes and sneakers will be marked with indelible ink on the inside.
- C. Release Clothing: Release clothing shall not be marked (Any State issue clothing provided to a released inmate shall have the visible laundry marks removed).
