Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The PREA audit of the Mid-State Correctional Facility was conducted on February 27 – March 1, 2019 by Ms. Theresa Grenier (lead) and Ms. V. Wolfe Mahfood (member). Approximately three weeks prior to the audit, the auditor received the Pre-Audit Questionnaire and additional documents. A thorough review of the report and the documentation provided was conducted. Notes were recorded as they related to corresponding standards. The documents and questionnaire were well organized and highlighted. A request was sent to the New York State Department of Corrections and Community Supervision (NYS DOCCS) PREA Coordinator and facility compliance manager for additional information and copies of documentation that should be prepared and available upon auditor's arrival at facility. The lead auditor requested inmate and staff rosters to be provided the night before the audit. The facility provided a roster of all inmates housed at the institution; lists of inmates for specific categories to be interviewed; and a list of all staff to be interviewed (random and specific category) the morning prior to the audit beginning that afternoon.

Prior to the audit, the lead auditor contacted Just Detention International (JDI) about any information previously submitted by inmates at the Mid-State Correctional Facility; researched the Mid-State Correctional Facility on the internet; and reviewed the NYS DOCCS website prior to the audit. The website is easy to navigate and provides both PREA policy regarding the agency's zero tolerance policy, investigations, and information on reporting options for staff, inmates and third parties. The website also contains a brief history of PREA as well as the pamphlet distributed to all inmates, and the educational video shown to inmates during orientation at each facility. It also has several links to include: PREA Standards; the PREA Resource Center; National Institute of Corrections; Office of Justice Programs; Just Detention International; and The Moss Group, Inc.

The auditors were at the facility from 12:30 pm – 7:00 pm on day one; 8:00 am – 8 pm on day two; and 7:30 am – 12:00pm on day three. Following the entrance meeting with staff, the auditors conducted a site review of a portion of the facility. The tour was completed on February 28, 2019. Following the partial site review on day one, the auditor began the formal interviews. Review of investigations was completed on Wednesday morning prior to the beginning of the site visit.

During the site review random informal interviews were conducted with staff and inmates which were not counted toward formal interview requirements. Adequate PREA posters and announcement of the PREA audit in both English and Spanish were placed throughout the facility and posted on bulletin boards in housing units. Area logs were reviewed at various posts to observe that rounds are being conducted and documented. The audit team visited all areas of the facility during the audit. Observations were made of security staff presence, line-of-sight, physical plant condition and barriers, general sanitation, inmate movement procedures and general institution operations. Additionally, the auditors tested the inmate phone system for emotional support services.

The auditors conducted 40 staff interviews (13 random, 25 specialized, and 2 contractors). Additionally, the DOCCS PREA Coordinator; Agency head, investigators, SAFE/SANE staff from the outside hospital, and Contract Specialist were interviewed by this auditor. Staff interviews were based on the requirements from the auditor handbook. Staff were selected for interviews based on the lists of employees provided on-site. Security line and supervisory staff were selected from all shifts. Interview rooms were provided to ensure privacy and confidentiality. Staff interviewed were well versed in their responsibilities in reporting sexual abuse, sexual harassment, and staff negligence; first responder duties; proper procedures for conducting a pat search of a transgender inmate and evidence preservation.

The number of interviews required for inmates was calculated based on the auditor handbook formulas. The auditors used inmate rosters provided by the facility the morning of the audit. Specialized interview inmates were selected first, and then random inmates from each housing unit were then selected based on race and arrival date in order to ensure all races and inmates from various time periods were selected. Each housing unit had at least one inmate interviewed. A total of 41 inmates were formally interviewed: 21 random interviews and 20 specialized interviews: LGB (4); TI (6), inmates who disclosed sexual victimization during screening (3); who reported sexual abuse while confined (4), physically disabled (1), and limited English proficient (2). The staff stated there were no inmates with a cognitive disability confined at the facility. All known transgender inmates assigned to the facility were interviewed. Staff were organized and kept the inmates moving without them being held for long periods of time waiting to be interviewed.

Inmates were respectful. There was one (1) refusal. The majority of the inmates interviewed acknowledged receiving PREA training and written materials (posters, pamphlets, and inmate's handbooks) in a language they understand outlining the agencies zero tolerance policies towards sexual abuse; knew the reporting procedures; and reported staff of the opposite gender announced when entering a housing area. All inmates stated female staff do not see them naked. Thirty-six of the 41 inmates interviewed knew how to report sexual abuse or sexual harassment. The LGBTI inmates overall were positive about the facility and how they were treated. The PREA Compliance Manager assisted during the interview process of transgender inmates providing information relevant to procedures regarding their privacy and clothing options. The auditors found the inmates aware and knowledgeable of PREA.

The Mid-State Correctional Facility has a unique inmate organization called the LGBT Alliance. The group at its core is a support group for the LGBT inmate community although any inmate may join. The group has elected members who form the Executive Committee charged with the responsibility of guiding the organization's membership in a positive manner. The LGBT Alliance has a standard Constitution and By-Laws which is approved by the facility administration. There is a staff member who organizes meetings and is present during all meetings and functions. The PREA Compliance Manager routinely attends.

Auditors reviewed the PREA Allegation Spreadsheet from 2018 and 2017. In 2018 there were 26 PREA cases. Of the 26 cases: nine (9) staff-on-inmate sexual abuse were unsubstantiated; one (1) staff-on-inmate sexual abuse was unfounded; one (1) staff on inmate sexual harassment was unsubstantiated; one (1) staff on inmate sexual harassment was unfounded; four (4) inmate-on-inmate sexual abuse were unsubstantiated; seven (7) inmate-on-inmate sexual abuse were unfounded; and three (3) cases were still under investigation. In 2017 there were 12 PREA cases. Of the 12: three (3) staff-on-inmate sexual abuse were unsubstantiated; five (5) inmate-on-inmate sexual abuse were unsubstantiated;

three (3) inmate-on-inmate sexual abuse were unfounded and one (1) case was still under investigation.

When the on-site audit was completed, the auditor conducted an exit meeting at 11:50 a.m. on March 1, 2019. While the auditor could not give the institution a final finding, the auditor did provide a preliminary status of her findings. The auditor thanked the Mid-State Correctional Facility staff for their hard work and commitment to the Prison Rape Elimination Act.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

Mid-State Correctional Facility is located in Marcy, NY, and near the City of Utica. It is approximately 50 miles from Syracuse and approximately 100 miles from Albany. The facility was established in 1983 as a part of the NY State Department of Corrections and Community Supervision for male inmates 18 years of age or older. The facility houses minimum, medium, and maximum custody inmates. The Office of Mental Health provides Level 1 mental health services at Mid-State.

The facility is situated on 1050 acres in the Central New York area between the NYS Thruway and Erie Canal and Marcy Correctional Facility to the South across Old River Road. Many of the buildings were originally owned by the Office of Mental Health which built on the property in 1918. The New York Psychiatric Center and new Central Pharmacy is adjacent to the facility. The interiors of the older historic buildings have been renovated and many are used for inmate housing and offices.

There are 77 buildings on the property including 31 dormitories housing up to 60 inmates each with many of the dorms providing specialized programs; such as, Alcohol Substance Abuse Treatment, Veterans Residential Treatment, Sex Offender Treatment, and Honor Units.

The Special Housing Unit contains 32 disciplinary cells on the first floor and Long-Term Protective Custody Inmates are housed in 32 cells on the second floor. There is space for recreation and programming for the PC inmates on the third floor. Additionally, Building 125 contains 25 SHU (double-cells) and a 75-bed (single cell) Step-down to General Population Program (SDP) unit.

Mid-State is the transportation center for their regional hub. Up to 150 inmates per day, four days a week, arrive and depart to other correctional facilities in the state.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DOCCS has written policies mandating zero tolerance towards all forms of sexual abuse and sexual harassment that outlines the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The main PREA policies are Directive #4027A, Sexual Abuse Prevention & Intervention – Inmate-on-Inmate and Directive #4028A, Sexual Abuse Prevention & Intervention – Staff-on-Inmate/Staff-on-Parolee. Other agency policies supplement these main PREA policies.

Mid-State Correctional Facility FOM 9.14 is the facility supplement to implement PREA. Immediate reporting of any above known behavior or action is required by all written related directives reviewed by auditor. The facility Coordinated Response Plan to an Incident of Inmate Sexual Abuse outlines the

steps for facility staff to respond to allegations. These policies collectively establish the agency's zero-tolerance approach to preventing, detecting, and responding to sexual abuse and sexual harassment.

Associate Commissioner (AC) Jason Effman is the DOCCS agency-wide PREA Coordinator. He is very knowledgeable of PREA standards and is an active participant in working groups developed by the PREA Resource Center. AC Effman has the authority to develop, implement, and oversee PREA compliance. He oversees 68 total facilities (54 Corrections Facilities; and fourteen (14) Community Based Residential Programs for PREA purposes. He is very active in coordinating PREA, sending updates to facilities. He conducts weekly teleconferences to keep PREA Compliance Managers up to date on any changes and best practices. He is consistently looking for ways to improve DOCCS PREA program. The DOCCS organization chart demonstrates AC Effman is in a position of authority. Fifteen ADS PREA Compliance Managers report directly to AC Effman with two positions currently waiting to be filled. He also has direct contact with the PREA Point Person at each facility.

Ms. Michele DeBraccio is the ADS PREA Compliance Manager for four facilities including Mid-State Correctional Facility. She reports directly to the DOCCS PREA Coordinator. She was very knowledgeable of PREA standards and was actively involved in PREA activities. During the audit she actively assisted inmates with questions or concerns with their specific needs. It was apparent the inmates knew her and her duties and were able to communicate with her openly. She claimed to have enough time to perform her PREA duties. She visits each of the four facilities every week and attends the executive staff meetings. The facility also has a PREA Point Person.

Captain Karl Adamik is the PREA Point Person assigned to the facility. His duties include: alerting the Deputy Superintendent for Security and the facility's designated ADS PREA Compliance Manager of any concerns with respect to Policy and PREA Standard compliance; assisting in the development or revision of any PREA-related Facility Operations Manual (FOM) or other facility-specific procedures required to meet the PREA Standards or Department sexual abuse/sexual harassment prevention policies; assisting with the review of PREA Risk Screening Forms (115.41 M); assisting with retaliation monitoring for inmates and staff in accordance with Agency Protection Against Retaliation procedures; forwarding any questions, requests for assistance with access to community-based rape crisis services or other requests seeking an accommodation based on the Department's Sexual Abuse Prevention policies or the PREA Standards to the ADS PREA Compliance Manager; ensuring that all complaints of sexual abuse or sexual harassment are responded to in accordance with Department Directives as well as in accordance with the facility PREA Coordinated Response Plan; and serving as a member of the sexual abuse incident review team.

The interviews of the PREA Coordinator, Superintendent, and PREA Compliance Manager demonstrated PREA is part of the DOCCS and facility fabric; as leaders they were very knowledgeable of and believed in PREA; and they set the tone for the facility.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Documentation and interviews with PREA Coordinator and Superintendent confirmed an annual staffing review is completed. PREA data is sent to the facility to assist in the completion of the review. The facility completes a portion of the review then it is sent to the Deputy Commissioner for Correctional Facilities, Director of Security Staffing and the PREA Coordinator. The review uses the criteria found in standard 115.13 (a) to include generally accepted correctional practices; any judicial findings of inadequacy; any findings of inadequacy from Federal investigative agencies; any findings of inadequacy from internal or external oversight bodies; all components of the institution's physical plant (including "blind-spots" or areas where staff or inmates may be isolated); composition of the inmate population; number and placement of supervisory staff; institution programs occurring on a particular shift; any applicable State or local laws, regulations, or standards; prevalence of substantiated and unsubstantiated incidents of sexual abuse; and other relevant factors to develop and review the staffing plan. Staffing adjustment can be made at any time deemed necessary. Additionally, every two years a Security Chart/Staffing Review is conducted at each facility by the Central Office. The in-depth review considers use of overtime, staff utilization, post closures, additional services usage, preplanning practice leave policies and schedules, local agreements, supervisor charts and post descriptions. Any findings from the review require a plan of action for correction.

By policy the facility documents all deviations to the plan and it is recorded electronically. After review of the Pre-audit questionnaire and interview of the Superintendent there were no deviations from the plan. The facility uses overtime to fill all its unfilled positions in the plan.

Unannounced rounds are conducted by Sergeants and Lieutenants. Interviews and review of log books validated that the rounds are conducted on all shifts. Interviews with staff reflect the nature of the rounds includes security checks of the housing units to ensure the safety and security of both inmates and staff.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Directive #4910, Control of & Search for Contraband states “A strip frisk of an inmate who has been diagnosed with Gender Dysphoria/GID shall be conducted by staff of the same gender as the gender classification of the facility. Staff shall apply procedures as appropriate based upon the anatomy of the inmate. The facility (administration/security) shall not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate’s genital status. If the inmate’s genital status is unknown, a medical provider may determine the inmate’s genital status during conversations with the inmate, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner.”

Mid-State Correctional Facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches, and staff is prohibited and does not search transgender or intersex inmates to determine inmates’ genital status. Mid-State Correctional Facility has not had any incident of cross-gender strip searches or visual body cavity searches during this review period.

Directive #4001, Facility Administrative Coverage & Supervisory Rounds, provides guidance for staff of the opposite gender to verbally announce their arrival on a housing unit to avoid unnecessarily invading the privacy of inmates of the opposite gender, unless emergency conditions dictate otherwise. An announcement is required when the gender supervision on a housing unit changes from exclusively same gender, to mixed- or cross-gender supervision. Observation during tour, interviews with inmates and staff, and review of log books clearly shows staff of the opposite gender announce their presence when entering a housing unit.

Standards 115.15 b and part of c does not apply as Mid-State Correctional Facility Policy is a male only facility.

Directive #4910, Control of & Search for Contraband was revised in May of 2014 to add procedures to the section on strip searches to address visual inspections of an inmate assigned to a male correctional facility who has been issued a permit to possess and wear a bra (such as an inmate diagnosed with Gender Dysphoria/GID or who has breast development). When a security supervisor authorizes such a visual inspection (for example, a body check) the inspection shall be performed outside the presence of other inmates. The inmate will not be required to remove the bra or undershorts/underwear, absent probable cause. A supervisor of the rank of Sergeant or above is present when the removal of the bra is required. Interviews and review of training records confirmed staff were trained in the proper search procedures.

Directive #4910, Control of & Search for Contraband, also provides for modified procedures when a male Correction Officer performs a pat frisk of an inmate assigned to a male correctional facility who has been issued a permit to possess and wear a bra (such as an inmate diagnosed with Gender Dysphoria/GID or who has breast development). The male officer must use the back and side of his hand when frisking the breast area of the inmate. The Directive also provides that all Officers shall conduct themselves professionally, alert to the perceived sensitive nature of the frisk.

Limited English inmates are afforded the opportunity to have the agency's PREA information brochure in a language they understand. DOCCS has translated various vital documents into the most common non-English primary languages, including "The Prevention of Sexual Abuse: What inmates Need to Know", and other educational materials based on the Prison Rape Elimination Act. Currently the brochure is available in Spanish, Haitian-Creole, Russian, Polish, Italian, Chinese and Korean. Auditor Overall Compliance Determination

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor’s analysis and reasoning, and the auditor’s conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Initial Employee Training includes a three-hour class on Sexual Abuse Prevention and Response. This course discusses NYS law and PREA Standards. Emphasizes that inmates are unable to consent to engage in sexual activity with staff. Addresses the issue of inappropriate behavior between staff and Inmates. Annually each employee watches the Maintaining Professional Boundaries Video. Additionally, every two years all employees complete the “Sexual Abuse Prevention and Response Refresher” training.

The PREA training curriculum was reviewed and verified that the training provided to employees is very comprehensive. Review of the lesson plan and slides demonstrated the training covered: zero-tolerance Policy for sexual abuse and sexual harassment; how to fulfill their responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures; inmates' right to be free from sexual abuse and sexual harassment; the right of inmates and employees to be free from retaliation for reporting sexual abuse and sexual harassment; the dynamics of sexual abuse and sexual harassment in confinement; the common reactions of sexual abuse and sexual harassment victims; how to detect and respond to signs of threatened and actual sexual abuse; how to avoid inappropriate relationships with inmates; how to communicate effectively and professionally with inmates, including lesbian, gay, bisexual, transgender, intersex, or gender nonconforming inmates; and how to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities. Employees sign an acknowledgement form that they have received and understood the PREA training they received during pre-service and in-service training. Staff interviewed were well versed in the DOCCS zero tolerance policy; their responsibilities in reporting sexual abuse, sexual harassment, and staff negligence; first responder duties; and evidence preservation.

Documentation received prior to the audit indicated the staff sign that they understood the training they received. The auditor requested randomly selected staff training records, the ones received were electronic training records showing 11 out of 11 employees received PREA training. Based on knowledge of staff, document review, interviews, and incident files it is evident staff have received meaningful training and understand their responsibilities and put the procedures into practice.

Directive #4027A, Sexual Abuse Prevention & Intervention – Inmate-on-Inmate and Directive #4028A, Sexual Abuse Prevention & Intervention – Staff-on-Inmate, requires all contractors and contract employees, volunteers, and interns receive orientation and periodic in-service training consistent with their level of inmate contact relating to the prevention, detection, and response to inmate-on-inmate sexual abuse and sexual harassment.

In accordance with Directive #4750, volunteers are trained on the zero-tolerance policy. All applicants must acknowledge that they understand the zero-tolerance policy regarding sexual abuse and sexual harassment and how to report such incidents. Job-specific training for the volunteer activity will be given by the volunteer’s Staff Supervisor and may or may not include a tour of the facility grounds.

Directive #4071, Guidelines for Construction Projects, states each contract worker will be issued a copy of Form #4071A, “Guidelines for Construction Projects.” These guidelines and this directive are explained to each contract worker for the contracting company by a DOCCS employee. All contractors will acknowledge receipt of this directive and the information in Form #4071A by signature. The guidelines include the DOCCS zero tolerance policy, definitions of sexual abuse; duty to report; and confidentiality.

Upon the inmate's arrival at the facility, each inmate is provided a brochure in a language they understand explaining the agency's policy on "The Prevention of Sexual Abuse in Prison, What Inmates Need to Know". The brochure is available in eight languages. If an inmate arrives whose language is different than the brochures available, the agency will make every effort to translate the information into a language the inmate understands. The brochure is comprehensive includes: how to reduce your risk of sexual abuse; definitions; what to do if you are abused; how to report; confidentiality; and the address of the outside reporting agency. Each inmate signs that they have received the information.

Typically, within 14 days the inmates attend orientation and are provided classroom training on PREA and watch a video with tracks and captioning in English, Spanish, Mandarin Chinese, Haitian Creole, Italian, Korean, Polish, and Russian.

The Prevention of Sexual Abuse in Prison: What Inmates Need to Know brochure, in both English and Spanish, is made continuously and readily available to inmates through the law library, general library, medical/dental waiting areas, guidance/religious services waiting areas, transitional services, and any other areas routinely accessible to inmates within the correctional facility.

The auditor reviewed ten (10) inmate records who were interviewed: all had documentation demonstrating they received the required PREA information upon arrival; and received the PREA education within 30 days. During inmate interviews, 30 of 41 inmates said they received the PREA information and PREA Education three (3) could not remember and eight (8) said they did not receive the information. Intake staff interviewed described how they document providing inmates PREA information. Inmates interviewed were also able to articulate the zero-tolerance policy; their right to be free from sexual abuse and sexual harassment; and their right to be free from retaliation for making a report.

Zero-Tolerance Policy posters and PREA posters (English and Spanish) are placed throughout facility in locations accessible and visible to inmates, staff, and the public.

Investigators in the Office of Special investigations receive the basic PREA class given to all DOCCS employees. For specialized training, DOCCS puts all new members of the Office of Special Investigations through an internal training program. Upon completion of the training program, new Sex Crimes Division investigators take an in-house PREA Specialized Training for Investigators course. This training program includes techniques for interviewing sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral. DOCCS OSI SCD also utilizes the "National Institute of Corrections course for Specialized Training for Investigators" and investigators participate in interview training through a local law enforcement agency. In November 2016, "Investigating Physical and Sexual Abuse in Institutional Settings" was presented in a three-day classroom setting and fourteen of the current SCD investigators participated in that program.

After an investigator gains experience, they will participate in the NIC Advanced Investigations on-line training, certification training from the National Association of Inspectors General, and other relevant trainings as identified by the agency. In addition, DOCCS Office of Special Investigations has certified evidence collectors strategically located in their offices throughout the state. In the Utica area, there is one Sex Crimes Division Investigator who is a certified "Police Crime Scene and Evidence Specialist," as well as a second certified evidence collector with the Criminal Intelligence Division who is also available to assist in processing a sex offense crime scene.

The auditor reviewed the specialized training for investigators, and it covered all requirements of the standard to include: techniques for interviewing sexual abuse victims; proper use of Miranda and Garrity warnings; sexual abuse evidence collection in confinement settings; and the criteria and evidence required to substantiate a case for administrative action or prosecution referral.

The auditor reviewed sign-in sheets which documented both annual PREA training and PREA investigator training. The OSI maintains documentation that the investigators have received both the general and investigative PREA training. The lesson plans, slides and sign in sheets were reviewed and interview of the investigators demonstrated knowledge of conducting a sexual abuse investigation in a confinement setting.

DOCCS ensures that all full and part-time medical and mental health care practitioners who work regularly in its facilities have received appropriate PREA training. Memorandum of Understanding between New York State Office of Mental Health and DOCCS provides for a standardized orientation to all new OMH employees working in correctional facilities. All full and part time OMH employees working in any DOCCS facility must participate in training provided by DOCCS. Additionally, all full and part time mental health care practitioners participate in specialized training designed by DOCCS. The training is given to the new employees by their supervisor during the first three days at their work location. The training required for medical and mental health practitioners to include how to detect and assess signs of sexual abuse and harassment, how to preserve physical evidence, how to respond effectively and professionally to victims of sexual abuse and sexual harassment and how to report allegations of sexual abuse and harassment.

Prior to the audit, documents were reviewed showing staff had completed the specialized training for medical and mental health practitioners. The auditor requested randomly selected medical and mental staff training records. The facility provided electronic training records for three staff members documenting Sexual Abuse Training and PREA training for Medical and Mental Health Providers demonstrating they understood the training they received. Interviews of medical and mental health staff demonstrated they understood: how to detect and assess signs of sexual abuse and sexual harassment; how to preserve physical evidence of sexual abuse; how to respond effectively and professionally to victims of sexual abuse and sexual harassment; and how and to whom to report allegations or suspicions of sexual abuse and sexual harassment. Each staff member interviewed described their role through each step of the process following an allegation of sexual abuse through follow-up services. Medical staff does not conduct forensic medical examinations;

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

All inmates transferred into Mid-State Correctional Facility are screened by a Sergeant or above, ordinarily within 24-hours of arrival at the facility, and reassessed by an assigned Offender Rehabilitation Coordinator (ORC) ordinarily within 14-days of arrival at the facility. The Assistant Deputy Superintendent PREA Compliance Manager makes a final risk assessment determination ordinarily within 30 days of the inmate's arrival at the facility; and reassesses inmate's risk level again when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate's risk of sexual victimization or abusiveness.

DOCCS uses an objective screening tool to identify inmates at high risk to be sexually abused and to identify inmates who are at high risk to be sexually abusive. The screen includes the following criteria to assess offenders for risk of sexual victimization: (1) Whether the offender has a mental, physical, or developmental disability; (2) The age of the offender; (3) The physical build of the offender; (4) Has the inmate been incarcerated (prison/jail) for less than 2 years (all incarceration combined)? (5) Whether the offender's criminal history is exclusively nonviolent; (6) Whether the offender has prior convictions for sex offenses against an adult or child; (7) Whether the offender is or is perceived to be gay, lesbian, bisexual, transgender, intersex, or gender nonconforming; (8) Whether the offender has previously experienced sexual victimization; (9) The offender's own perception of vulnerability; and (10) Whether the offender is detained solely for civil immigration purposes. For risk of sexual abusiveness, the initial screening considers: if the inmate has been convicted of a crime related to sexual abuse of another inmate, detainee, or resident, including the current offense; whether the inmates has a known history of committing institutional sexual abuse; whether the inmate has been convicted of a violent offense including the current offense; and whether the inmate has a known history of committing institutional

violence. During the initial screening, if the Sergeant perceives that the inmate is gender nonconforming or appears to be victim prone, or if the Sergeant perceives that the inmate displays tendencies of acting out with sexually aggressive behavior, the Sergeant shall document his or her observations under “additional comments, observations, or concerns” on the screening form.

The auditor randomly selected 36 inmates and reviewed their screens during the report writing period. Of the 36 initial screening forms reviewed: 36 were screened within 24 hours of arrival. Of the 36 follow-on screenings: 36 were screened within 36 days all screens were done in accordance with timeline requirements and had documentation demonstrating the inmate was referred to mental health based on the response that they had previously been sexually victimized or sexually abused someone. An inmate’s risk level is also reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the inmate’s risk of sexual victimization or abusiveness. The auditor reviewed ## reassessment screens. During inmate interviews, 16 of 18 inmates who were asked and arrived within the last 12 months remembered receiving the initial PREA screen; 7 of 15 remembered the follow-on PREA screen.

The auditor had four staff who conduct the screens perform the screen of the auditor to demonstrate the process of filling out the screening form. The process was done very professionally and demonstrated their knowledge of the process and importance of the screen. Some information is provided through asking the inmate questions, others through review of inmate records. Policy states that inmates will not be disciplined for refusing to answer or for not disclosing complete information in response to, questions asked pursuant to paragraphs (d)(1), (d) (7), (d) (8), or(d) (9) of the standard. Staff who perform screenings were retrained in April 2019 to reiterate the requirement to make their own assessment of whether the inmate is gender non-conforming. Inmates are not disciplined for refusing to answer questions during the risk screening interview.

The Mid-State Correctional Facility implements appropriate controls on the dissemination within the facility of responses to questions asked pursuant to this standard in order to ensure that sensitive information is not exploited to the offender’s detriment by staff or other offenders. Only the Facility Executive Team and Guidance Staff with a business necessity to review the completed forms have access to the completed forms.

When an inmate is determined to be at high risk for sexual victimization or high risk to be sexually abusive, a “Report of PREA Risk Screening Information” is completed by the PREA Compliance Manager who notifies the Program Committee Chairperson. The form does not reveal the score from the screening tool, only if the inmates is high risk. The Program Committee uses this information as necessary in furtherance of the goal to keep separate those inmates at high risk of being sexually victimized from those at high risk of being sexually abusive.

Directive #4401, Guidance & Counseling Services, outlines the process for transgender/intersex Inmates to request consideration of placement in a facility for male or female inmates by advising their ORC of their desire for such placement and providing any information that will assist the Department in assessing the request. Form 115.41GI, Gender Identity Interview, is designed to help correctly classify inmates who identify themselves as transgender or gender non-conforming during PREA Risk Screening, or who have been diagnosed with Gender Dysphoria or with an Intersex medical condition.

The request is evaluated by a multi-disciplinary Central Office Transgender/Intersex Inmate Placement Review Committee who consider the inmates' own views with respect to safety, the inmate's gender identity, the inmate's security level, criminal and disciplinary history, current gender expression, medical and mental health information, vulnerability to sexual victimization, and likelihood of perpetrating abuse. The Central Office committee may also consider factors including but not limited to the composition of an individual facility's inmate population, staffing pattern, and physical layout. Housing assignment by gender identity will be made when appropriate.

Through a review of screening forms, housing and program decisions, inmate and staff interviews, it was determined Mid-State Correctional Facility uses the screening information to determine housing, bed, work, education, and program assignment with the goal of keeping inmates at high risk of being sexually victimized separate from those at high risk of being sexually abusive. The decisions are made on a case-by-case basis using information from the screen, assigned PREA classification, and good correctional judgment.

During the audit, the auditors interviewed five transgender inmates and one intersex inmate. Four out of four that were asked stated they felt safe in the facility. None of the LGBTI inmates stated they were housed in a dedicated housing unit. Review of housing unit assignments of all LGBTI inmates documented they are not placed in a designated housing unit. Based on interviews with ORCs, Mid-State Correctional Facility reassesses transgender inmates quarterly.

There is a Memorandum of agreement between the New York State Office of Victim Services (OVS) and the New York State Office for the Prevention of Domestic Violence (OPDV) for the OPDV Prison Rape Elimination Act Hotline Expansion Project to provide emotional support services for victims of sexual abuse to all correctional facilities in New York. The organization serving Mid-State Correctional Facility is Sexual Assault & Crime Victims Assistance Program at Samaritan Hospital. Any inmate can add a telephone number for a Rape Crisis Program to his or her telephone list at any time. Calls to rape crisis programs are treated as confidential to the extent possible, however, such calls placed on the inmate telephone system are recorded. As of April 2018, facility staff do not have the ability to randomly monitor calls to 777 or any of the designated "PREA Centers." Only Central Office investigators have access and they are not allowed to listen without authorization from the PREA Center manager or the inmate. Visits from an employee or registered volunteer of a rape crisis program are considered a legal visit and is confidential. Inmates may write to these organizations confidentially also. The letters are considered privileged correspondence.

In January 2019, the previous hotline was replaced with a statewide system. The inmates can call 777 and the call will be routed to Crisis Services, Inc., in Buffalo. The number does not have to be on the approved telephone list. Crisis Services' Hotline Counselors provide crisis counseling services and, as requested, a referral to a Rape Crisis Program for follow-up services. As requested by the caller, they will also make referrals or reports to DOCCS via OSI, the facility Assistant Deputy Superintendent PREA Compliance Manager, the designated facility PREA Point Person, or the PREA Coordinator. In an immediate emergency (e.g., a report of a sexual assault that occurred within the prior 120 hours, suicidal ideation, or imminent threat to harm staff or another person), Crisis Services supervisors will immediately notify the facility Watch Commander by telephone with a follow-up e-mail to the ADS PREA Compliance Manager, PREA Point Person, OSI and PREA Coordinator. By policy phones are only usable between 8:00a and 11:00p. Operators can provide services in English or Spanish, and have the ability to obtain interpretation services in real time to communicate with callers in other languages.

Although the Sexual Assault & Crime Victims Assistance Program at Samaritan Hospital no longer answers hotline calls from Mid-State Correctional Facility, they are the designated "PREA Center." Thus, inmates may write or call them directly for services, or when an inmate uses the 777 hotline and accepts a referral for ongoing emotional support or advocacy services, Crisis Services, Inc. completes a referral to Sexual Assault & Crime Victims Assistance Program who will then schedule a legal call or legal visit to follow-up with the caller.

The DOCCS website provides information for the general public to report sexual abuse and sexual harassment on behalf of an inmate. Reporting options include contacting the facility Superintendent or, if after hours, the Watch Commander. They may also report a sexual abuse incident involving an inmate, a parolee or another offender by writing to the Department’s Office of Special Investigations or by e-mail to OSIComplaint@doocs.ny.gov, calling, or submitting an online complaint. Interviews with inmates demonstrated they knew how third-party reporting could be accomplished.

Interviews confirmed the staff are well versed in the steps to take in the event of a report of sexual abuse to include separating the alleged victim and abuser; how to preserve the crime scene; and what actions inmates should not take in order not to destroy physical evidence. The Sexual Abuse Prevention and Response training curriculum covers the first responder duties.

Staff has also been issued a card with first responder information.

In accordance with Directive #4028A, "Sexual Abuse Prevention & Intervention – Staff-on-Inmate/Staff-on-Parolee," and Directive #4028B, "Sexual Abuse Reporting & Investigation – Staff-on-Inmate/Staff-on-Parolee," investigations of allegations of staff-on-inmate/staff-on-parolee sexual abuse are the responsibility of the Department's Office of Special Investigations (OSI). In accordance with Directive #2110, Employee Discipline-Suspension from Duty During the Continuation of Disciplinary Proceedings, when the OSI receives a report of staff sexual misconduct, they evaluate the facts and circumstances of the report together with any other available information and consult with the appropriate Bureau of Labor Relations representative regarding appropriate action, including temporary reassignment to a different post, placing the staff on paid administrative leave, or suspending the employee (unpaid) based on the facts, circumstances and evidence assessed early on and as the case develops.

There are six union agreements. All agreements include specific language related to the suspension or temporary reassignment of an employee when a determination is made that there is probable cause that such employee's continued presence on the job represents a potential danger to persons or property or would severely interfere with operations. Four of the agreements have been updated since the implementation of the PREA standards, they are: Administrative Service Unit; Institutional Services Unit; Operational Services Unit; and the Professional, Scientific and Technical Services Unit. Policy Memorandum, Agency Protection Against Retaliation, March 30, 2018 (Revised)

It is the policy of the Department to protect all inmates, parolees and staff, who report sexual abuse or sexual harassment or cooperate with sexual abuse or sexual harassment investigations, from retaliation by other inmates or staff. Each facility employs multiple protection measures, such as housing changes or transfers for inmate victims or abusers, removal of alleged staff or inmate abusers from contact with victims, and emotional support services for inmates or staff who fear retaliation for reporting sexual abuse or sexual harassment or for cooperating with investigations.

For at least 90 days following a report of sexual abuse or sexual harassment, the facility monitors the conduct and treatment of: 1) an inmate, including an incarcerated parolee, who reported an incident of sexual abuse or sexual harassment; 2) an inmate, including an incarcerated parolee, who was reported to have suffered sexual abuse or sexual harassment; and 3) an employee who reported an incident of sexual abuse or sexual harassment of an inmate. If any other individual who cooperates with an investigation expresses a fear of retaliation, the facility and agency take appropriate measures to protect that individual against retaliation as well. Such monitoring seeks to identify changes that may suggest possible retaliation by inmates or staff.

Items the facility monitors include any inmate disciplinary reports, housing or program changes, or any negative performance reviews or reassignments of staff. In the case of inmates, such monitoring shall also include periodic in-person status checks approximately every 30 days. In-person status checks are also encouraged for any staff who reported an incident of sexual abuse or sexual harassment.

The facility's Assistant Deputy Superintendent (ADS)/PREA Compliance Manager coordinates monitoring to prevent retaliation. The Designated PREA Point Person assists and serves as the backup for monitoring to prevent retaliation. This includes, but not be limited to, seeing monitored inmates and staff on rounds and making note of any complaints of retaliatory conduct.

The Office of Special Investigations, Sex Crimes Division is notified promptly of any complaint or evidence of retaliation. The complaint or evidence is reviewed by OSI for investigation or for further direction. Upon consultation with OSI, the facility acts promptly to remedy any such retaliation. Monitoring to prevent retaliation continues for an additional period of 90 days if the previous period of monitoring indicates a continuing need. The obligation to monitor the conduct and treatment of any inmate who reported an incident of sexual abuse or sexual harassment, or who was reported to have suffered sexual abuse or sexual harassment, terminates if the agency determines that the allegation is unfounded.

There is a detailed Retaliation Monitoring form for each person being monitored, as well as an overview monitoring log form that is used to monitor inmates from retaliation. Interviews of the Superintendent, and PREA Compliance Manager demonstrated monitoring of inmates was being conducted.

At Mid-State Correctional Facility there were no staff requiring monitoring during the previous 12 months.

Standard 115.67c For at least 90 days following a report of sexual abuse, the agency shall monitor the conduct and treatment of inmates or staff who reported the sexual abuse and of inmates who were reported to have suffered sexual abuse to see if there are changes that may suggest possible retaliation by inmates or staff, and shall act promptly to remedy any such retaliation. Items the agency should monitor include any inmate disciplinary reports, housing, or program changes, or negative performance reviews or reassignments of staff. The agency shall continue such monitoring beyond 90 days if the initial monitoring indicates a continuing need.

Finding: Based on the spreadsheet provided along with the monitoring form on a sample of inmates, 10 of 33 was not conducted for at least 90 days (does not include those unfounded or transferred). Documentation was not physically signed nor electronically signed to capture the date monitoring was completed.

CAP. Update policy to reinforce requirement to monitor inmates for at least 90 days except in instances where the agency determines that a report of sexual abuse is unfounded; Require the

monitors to sign the form either through electronic digital signature or other verifiable means. Provide all monitoring forms of inmates who made allegation in February 2019 and March 2019 at the end of June 2019.

The PREA Coordinator updated the policy and form used for monitoring on April 18, 2019. The policy adopted on April 18, 2019 now requires monitoring for a minimum of four months. The updated policy also implemented an updated electronic form to capture an electronic digital signature and requires maintaining a final signed copy of the form. Fourteen examples of the form were provided. All were appropriately completed. Mid-State Correctional Facility was found to be compliant with the standard on July 10, 2019.

Standard 115.68: Post-allegation protective custody

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Directive #4948, Protective Custody Status, states an inmate who is appropriate for Involuntary Protective Custody solely because he or she is at high risk for sexual victimization as determined by an assessment conducted pursuant to Directive #4027A, "Sexual Abuse Prevention & Intervention – Inmate-on-Inmate," and Title 28 C.F.R. §115.41 of the National PREA Standards, or following a report that the inmate was the victim of sexual abuse, may be placed in Involuntary Protective Custody on such basis only after an assessment of all available alternatives has been made, and a determination has been made that there is no available alternative means of separation from likely abusers. If a facility cannot conduct such an assessment immediately, the facility may hold the inmate in Involuntary

Protective Custody for less than 24 hours while completing the assessment using Form #2168A, "Sexual Victimization – Involuntary Protective Custody Recommendation."

The NY DOCCS considers all available alternatives to involuntary protective custody, including at a minimum: retaining in current housing unit; placement in cell/cube near officer's station; placement in facility infirmary/hospital area; transfer inmate/victim to another unit; transfer inmate/aggressor to another unit; placement of inmate/aggressor in Special Housing Unit; admission of inmate/victim to outside hospital; admission of inmate/aggressor to outside hospital; or placement of victim or aggressor in Specialized Unit to satisfy treatment needs – Specialized Unit Placement

If an Involuntary Protective Custody assignment is the basis for the facility's concern for the inmate's safety; and whether a determination was made that there is no available alternative means of separation from likely abusers, including documentation of what alternatives were considered and assessed to be unavailable. This information is recorded on Form #2168A, "Sexual Victimization Involuntary Protective Custody Recommendation." Placement in Involuntary Protective Custody pending a hearing may only be authorized by the Watch Commander or above.

By policy an inmate placed in Involuntary Protective Custody on this basis shall have a hearing conducted within 14 days to determine the need for Protective Custody admission. Inmates placed in Protective Custody on this basis have access to programs, privileges, education, and work opportunities to the extent possible. Any restriction is documented. The assignment to Involuntary Protective Custody on this basis is only until an alternative means of separation from likely abusers can be arranged. Such assignment shall not ordinarily exceed a period of 30 days.

There was no instance of using segregation housing to protect inmates who had alleged to have been sexually abused in the last 12 months.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Per Directive #0700, Office of Special Investigations (OSI), the Sex Crimes Division (SCD) of OSI conducts investigations involving sexual misconduct between inmates or parolees and Departmental staff, as well as inmate-on-inmate sexual abuse, and assists outside law enforcement in the development of cases for criminal prosecution.

Auditors reviewed the PREA Allegation Spreadsheet from 2018 and 2017. In 2018 there were 26 PREA cases. Of the 26 cases: nine (9) staff-on-inmate sexual abuse were unsubstantiated; one (1) staff-on-inmate sexual abuse was unfounded; one (1) staff on inmate sexual harassment was unsubstantiated;

one (1) staff on inmate sexual harassment was unfounded; four (4) inmate-on-inmate sexual abuse were unsubstantiated; seven (7) inmate-on-inmate sexual abuse were unfounded; and three (3) cases were still under investigation. In 2017 there were 12 PREA cases. Of the 12: three (3) staff-on-inmate sexual abuse were unsubstantiated; five (5) inmate-on-inmate sexual abuse were unsubstantiated; three (3) inmate-on-inmate sexual abuse were unfounded and one (1) case was still under investigation.

OSI investigates all PREA cases and reviews facility investigations that do not rise to the level of PREA including inmate claims of inappropriate pat/frisk searches. If upon initial interview with inmate, if the allegation does not meet the definition of sexual abuse, it is not considered a PREA case.

Based on review of investigation tracking logs, and investigative training records; sexual abuse allegations are investigated by investigators who have received special training in sexual abuse investigations.

The investigators stated that they collect the appropriate direct and circumstantial evidence, reviews available video evidence, interviews the reported victim, suspected perpetrators, and potential witnesses. They also review prior complaints and reports of sexual abuse involving the reported victim and suspected perpetrator. All investigations are documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings. The Investigator also stated that the credibility of the victim, suspect, or witness are always assessed on an individual basis. Information regarding staff action or inaction that may have contributed to the alleged abuse is included in the investigative report. Polygraphs are not used in PREA investigations. The auditor reviewed 6 investigation reports and found them to include a description of the incident, the evidence collected, and summaries of interviews.

Investigations are not ended because the victim or the abuser is no longer under the custody of the agency. This would also be the case if the alleged abuser was a staff member who resigned from the agency; the investigation would continue until its conclusion.

A review of Directive #4027B, Sexual Abuse Reporting & Investigation – Inmate-on-Inmate and Directive #4028B, Sexual Abuse Reporting & Investigation – Staff-on-Inmate/Staff-on-Parolee, indicates physical (paper) case records of the Office of Special Investigations will be retained by that office for a minimum of seven years. The electronic case file, including copies of the investigative report and other critical documents, is permanently retained.

- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. Inmates are subject to disciplinary sanctions following an administrative finding that the inmate engaged in inmate-on-inmate sexual abuse or following a criminal finding of guilt for inmate-on-inmate sexual abuse; sanctions are commensurate with the nature and circumstances of the abuse committed, the inmate's disciplinary history, and the sanctions imposed for comparable offenses by other inmates with similar histories; and considers whether an inmate's mental disabilities or mental illness contributed to his or her behavior.

Disciplinary Hearing officers consider: aggravating and mitigating circumstances; age of inmate; inmate's medical condition; Inmate's intellectual capacity; past disciplinary history and record of adjustment; and seriousness of the misconduct. DOCCS prohibits all sexual activity between inmates and disciplines inmates for such activity.

There were no inmate on inmate substantiated cases of sexual abuse or sexual harassment in 2017 or 2018.

conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Directive #4301, Mental Health Satellite Services and Commitments to CNYPC, state regular mental health referrals are addressed within a timeframe that is consistent with the nature of the referral and within 14 days in accordance with CNYPC Corrections Based Operations (CBO) Policy #1.3. The screening form allows immediate or regular referral by the screener. This allows immediate contact with mental health services if needed. Interviews with the staff who conduct the screenings confirmed their knowledges of the referral options.

Facility Operations Manual 9-04 requires all new inmates receive a PREA Risk Screening upon arrival. If the screening identifies someone as having experienced prior sexual victimization or previously perpetrated sexual abuse, whether in a prison/jail setting or in the community, they will be offered a medical (for an incident of victimization during preceding six months) and mental health follow-up meeting within 14 days. During the audit, through the review of additional PREA screens and medical and mental health records, it was determined inmates who reported prior sexual victimization or previously perpetrated sexual abuse were offered consults with medical and mental health practitioners within 14 days of the screen. Interviews of medical and mental health staff and inmates confirmed inmates were offered referrals. Interviews of medical and mental health staff confirmed any information related to sexual victimization or abusiveness that occurred in the institution is strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments. Auditor Overall Compliance Determination

- Does Not Meet Standard** (*Requires Corrective Action*)

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

Per Memorandum dated May 9, 2014, sexual abuse incident reviews are required following the completion of the investigation by the Office of Special Investigations, Sex Crimes Division. A form PREA Standard 115.86/286 Sexual Abuse Incident Review Checklist has been designed to capture the review and any recommendations of the review team.

The PREA Standards require the review team to include upper-level facility management officials, with input from line supervisors, investigators, and medical or mental health practitioners. The chair of the review team will be the Assistant Deputy Superintendent PREA Compliance Manager (ADS/PREA) and be responsible for coordinating the review and completing the review form. A Captain, typically the PREA Point Person, will be the security representative on the review team. A third member of the multi-disciplinary review team is designated by the Superintendent for each review. A review must be conducted within 30 days of the conclusion of the investigation, unless the allegation is determined to be unfounded. The review addresses whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or gang affiliation; or was motivated or otherwise caused by other group dynamics at the institution; whether physical barriers in the area may enable abuse; the adequacy of staffing levels in that area during different shifts; and whether monitoring technology should be deployed or augmented to supplement supervision by staff. The auditor reviewed 21 incident reviews forms that were randomly chosen from within the last 24 months. Four (4) of 21 reviews occurred within 30 days of the conclusion of the investigation;

Interview with the PREA Compliance Manager indicated reviews are completed on all substantiated and unsubstantiated allegations of sexual abuse, including OSI investigations of sexual harassment.

The auditor did identify several incident reviews that were not completed within the 30 days following the conclusion of the investigation. The Standard, 115.86 (b), does recognize that delays will occur on occasion as reviews "shall ordinarily occur within 30 days of the conclusion of the investigation." Upon raising this to the PREA Coordinator, AC Effman acknowledged that the agency's process is

cumbersome and indicated that he has applied to the NYS Lean Project Charter to improve policy and practice around sexual abuse incident reviews. The auditor appreciates that this process has the PREA Coordinator's attention so that future reviews will more often be completed within the 30-day timeframe. The Lean process is lengthy, but is the long-term plan for the Agency.

NYS DOCCS Office of Program Planning Research and Evaluation Policy for PREA Data Collection, Review, Retention and Publication Manual outlines basic procedures for data collection of sexual abuse data. Data collected includes all information necessary to answer all questions from the most recent version of the Survey of Sexual Victimization (SSV) conducted by the Bureau of Justice Statistics. The data for 2017 was submitted to the Bureau of Justice Statistics January 15, 2019, prior to the deadline for submission.

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

DOCCS began conducting PREA Audits in Audit Year 3 of Cycle 1. Since that time, PREA Audits have been completed at all DOCCS Correctional Facilities on a schedule to ensure that at least one-third of each facility type operated by the Agency was and is scheduled to be audited during each audit year.

DOCCS posts all audit reports on the DOCCS website in accordance with PREA Standard 115.403 subsection (f) which may be reviewed at:

http://www.doccs.ny.gov/PREA/PREA_Final_Audit_Reports.html

NYS Correction Law section 121 provides that the private ownership or operation of a facility for housing state or local inmates or the private ownership or operation of a facility for the incarceration of other state's inmates is prohibited. Thus, no private prisons are operated on behalf of the Agency. DOCCS has entered into agreements with private organizations for 14 Community Based Residential Programs (CBRP) to provide up to 4 months of housing and treatment for selected Parolees. These contracts were effective starting May 1, 2017 (7 programs), October 1, 2017 (6 programs) and July 23, 2018 (1 program). Audits are scheduled at 2 per year per contract starting approximately one year after the start of the contract (i.e., two by May 2018, two by October 2018, etc.), thus ensuring that one-third of each facility type operated by a private organization on behalf of the agency will be audited during each forthcoming audit year.

DOCCS posts CBRP audit reports at:

http://www.doccs.ny.gov/PREA/PREA_Final_Audit_Reports.html#0

The auditors were provided full access to observe all areas of the facility and access to any staff member or inmate as requested. A private setting was provided for interviews and the facility was very accommodating with escorting inmates to and from the interview area in an organized and appropriate manner. Facility staff members were pleasant and forthcoming with information during formal and informal interviews and made themselves available timely. Audit notifications posted throughout the facility provided opportunity for inmates to send confidential letters to the auditor prior to the audit, although none were received. All documents and access to documents requested by auditor was made readily available for review.

Standard 115.403: Audit contents and findings

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.403 (f)

- The agency has published on its agency website, if it has one, or has otherwise made publicly available, all Final Audit Reports within 90 days of issuance by auditor. The review period is for prior audits completed during the past three years PRECEDING THIS AGENCY AUDIT. In the case of single facility agencies, the auditor shall ensure that the facility's last audit report was published. The pendency of any agency appeal pursuant to 28 C.F.R. § 115.405 does not excuse noncompliance with this provision. (N/A if there have been no Final Audit Reports issued in the past three years, or in the case of single facility agencies that there has never been a Final Audit Report issued.) Yes No NA

Instructions for Overall Compliance Determination Narrative

The narrative below must include a comprehensive discussion of all the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet the standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.
