| <p>Number of buildings:</p> <p>Auditors should count all buildings that are part of the facility, whether residents are formally allowed to enter them or not. In situations where temporary structures have been erected (e.g., tents) the auditor should use their discretion to determine whether to include the structure in the overall count of buildings. As a general rule, if a temporary structure is regularly or routinely used to hold or house residents, or if the temporary structure is used to house or support operational functions for more than a short period of time (e.g., an emergency situation), it should be included in the overall count of buildings.</p> | 2 |
| <p>Number of resident housing units:</p> <p>Enter 0 if the facility does not have discrete housing units. DOJ PREA Working Group FAQ on the definition of a housing unit: How is a "housing unit" defined for the purposes of the PREA Standards? The question has been raised in particular as it relates to facilities that have adjacent or interconnected units. The most common concept of a housing unit is architectural. The generally agreed-upon definition is a space that is enclosed by physical barriers accessed through one or more doors of various types, including commercial-grade swing doors, steel sliding doors, interlocking sally port doors, etc. In addition to the primary entrance and exit, additional doors are often included to meet life safety codes. The unit contains sleeping space, sanitary facilities (including toilets, lavatories, and showers), and a dayroom or leisure space in differing configurations. Many facilities are designed with modules or pods clustered around a control room. This multiple-pod design provides the facility with certain staff efficiencies and economies of scale. At the same time, the design affords the flexibility to separately house residents of differing security levels, or who are grouped by some other operational or service scheme. Generally, the control room is enclosed by security glass, and in some cases, this allows residents to see into neighboring pods. However, observation from one unit to another is usually limited by angled site lines. In some cases, the facility has prevented this entirely by installing one-way glass. Both the architectural design and functional use of these multiple pods indicate that they are managed as distinct housing units.</p> | 0 |

Audit Findings

Audit Narrative (including Audit Methodology)

Pre-Onsite Audit Phase

Audit Planning and Logistics:

I had the opportunity to discuss the audit process and expectations of both parties with Executive Director Michael Wing. We coordinated the dates for the onsite audit at the facility. During these conversations we outlined an overall audit schedule and she notified the facility of the estimated time of arrival onsite.

Posting Notice of the Audit:

I forwarded the audit posting to the Executive Director on September 15, 2020. The posting included the dates of the audit, purpose of the audit, my contact information and a statement regarding the confidentiality of any communication received. The postings were placed throughout the facility, including all housing units, visiting areas, recreational areas and all common areas. I verified the placement of the audit notices through time stamped photographs and during the facility tour, and inmate and staff interviews. I did not receive any letters from inmates at the facility.

Review of Agency and Facility Policies, Procedures and Supporting Documentation:

I received the agency policies and documentation prior to the onsite audit. These were received on a flash drive. The Policies, Procedures, and Documents reviewed during this phase of the audit are listed under Onsite Audit, with all documentation reviewed during the course of the audit.

Outreach to Community Advocacy Organizations:

I contacted Crisis Services of Buffalo, NY and Erie County. I confirmed that they would provide victim advocacy for the facility, and that they would respond to any local hospital where a sexual assault examination would be occurring. She also related that she knew of no issues at the facility.

Agency level interviews:

Agency level interviews were conducted during the onsite audit. These included Assistant Reentry Managers from the New York State Department of Corrections and Community Supervision (DOCCS).

Onsite Audit Phase

Site Review:

The audit was conducted during the Covid 19 Pandemic. The Agency, Facility and Auditor took all necessary precautions, these precautions included universal masking for all staff, residents and visitors. During the facility tour social distancing was practiced. The staff and resident interviews were conducted with the participants seated at minimum of 6 feet apart, and both wearing masks.

At 8:00 a.m. on October 27, 2020 I met with Executive Director Michael Wing, PREA Coordinator Charise Cobbs, and DOCCS Assistant Reentry Managers Natalia Lopuchowycz and Brianna D'Angelo. We discussed the onsite portion of the audit, including facility tour, resident and staff interview location, and document review. During the tour I had the opportunity to view all areas of the facility. I interacted with both staff and residents, as well as observed the interaction between the staff and residents. I was able to verify the location of cameras throughout the facility, as well as the camera monitor locations. While in the housing areas I observed the related PREA information, and audit postings. These postings were further observed in common areas throughout the facility.

The resident interviews began immediately following the facility tour. The interviews were conducted in a office, which provided privacy for the interviews. The residents were randomly selected from residents currently housed in the facility. During this process I interviewed inmates in the following categories:

| Interview Type | Number |
|---|-------------------------|
| Random Resident Interviews | 7 |
| Youthful Residents | Facility does not house |
| Residents with a Physical Disability | 0 |
| Residents who are Blind, Deaf, or Hard of Hearing | 0 |
| Residents who are Limited English Proficient | 0 |
| Residents with a Cognitive Disability | 3 |
| Residents who Identify as Lesbian, Gay or Bisexual | 0 |
| Residents who identify as Transgender or Intersex | 0 |
| Residents who Reported Sexual Abuse | 0 |
| Residents who Reported Sexual Victimization During Risk Screening | 0 |
| Total Resident Interviews | 10 |

During the interview process several targeted categories of residents were not being housed at the facility.

I conducted the interviews with all residents in the same manner, a preamble to the interview was relayed to the resident explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No residents refused to speak with me. All residents were asked questions related to the Random Resident Interviews, and if they were in a targeted category, I asked those additional questions. During the interviews I utilized a copy of the initial PREA information received to visually stimulate the inmate's recollection of their initial intake process.

Upon completion of the resident interviews the staff interviews were conducted in the same office, these interviews were all conducted in private. These interviews were conducted on October 27th and October 28th 2020. Interviews were conducted on all shifts. During the process I interviewed staff in the following categories:

| Interview Type | Number |
|--|----------|
| Random Staff Interviews | 3 |
| Intake Staff/Staff who Perform Screening | 1 |
| Medical and Mental Health Staff | 0 |
| Administrative Staff | 1 |
| Volunteers and Contractors | 0 |
| Investigative Staff | 0 |
| Staff on the Sexual Abuse Incident Review Team | 1 |
| First Responders | 0 |
| PREA Coordinator and Designated to Monitor for Retaliation | 1 |
| Executive Director | 1 |
| Total Staff Interviews | 8 |

I conducted the interviews with all staff in the same manner, a preamble to the interview was relayed to the staff member explaining the purpose of the interview, and how they were selected and explaining to them that they did not have to speak with me if they choose not to. No staff refused to speak with me. All interviewed staff was asked questions related to the Random Staff Interviews, and if they were in a targeted category they were asked questions pertaining to that area.

The onsite documentation review was conducted during both days of the audit process. The onsite documentation was reviewed at the source, all files, and facility documents were retrieved by me.

The following is a list of documentation reviewed during the Pre-Audit, Onsite Audit and Post Audit Phases, with the applicable standard to each.

| Saving Grace Ministries, Inc. PREA Policy Manual | Standard 115.403: Audit contents and findings |

At the conclusion of the Onsite Audit an exit conference was held with the administration. At this time, I provided an overview of the audit findings during the onsite audit portion.

During the onsite audit I found that the facility has a staffing plan, but at times the facility is not staffed when the assigned staff member must leave to transport a resident somewhere or makes rounds of other houses that are operated by the Agency. The facility allows individuals who were residents at one time, but are no longer residing in the facility access to the facility. I found that these individuals would come into the facility to do laundry, get coffee etc. Both of these issues create an unsafe atmosphere.

The facility laundry room is located in the basement of the facility. The facility has put into place a procedure where this area is locked at all times and the residents must come to staff to have the area unlocked. The resident will put his laundry in and the area will be secured until the resident needs to go back down. This is not occurring, most of the staff leaves this area unlocked, and this is an unsafe practice.

Post Audit:

Upon completion of the Pre-Audit and Onsite Audit phases I conducted a systematic evidence review of all of the information obtained during the audit process. I utilized the Compliance Tool as a guide to ensure that all aspects of each standard were met. This assurance was made by a triangulation of the policies and documentation reviewed, my personal observations during the onsite audit, and through the information received during the interviews. After taking all of these factors into account I found that the facility has met all of the standards and are in compliance with the Prison Rape Elimination Act National Standards for Community Confinement.

Corrective Action Taken:

During the initial audit, the facility was not in compliance with standard § 115.213 Supervision and monitoring. During the initial onsite audit, I found that the facility had a staffing plan, but at times the facility is not staffed when the assigned staff member must leave to transport a resident somewhere or makes rounds of other houses that are operated by the Agency. The facility would allow individuals who were residents at one time but are no longer residing in the facility access to the facility. I found that these individuals would come into the facility to do laundry, get coffee etc. Both issues created an unsafe atmosphere.

The facility laundry room is in the basement of the facility. The facility had put into place a procedure where this area is always locked, and the residents must come to staff to have the area unlocked. The resident will put his laundry in, and the area will be secured until the resident needs to go back down. This is not occurring, most of the staff leaves this area unlocked, and this is an unsafe practice.

During the corrective action period the facility has corrected the staffing issue where the staff would leave. The staff at the facility are always present. This was confirmed through interviews with the facility staff, and resident. The residents who have left are no longer allowed in the facility, the staff are now doing laundry for both the prior residents and present residents. The laundry room is off limits to residents, they now give their laundry to the overnight staff member who does the laundry and returns it to the resident.

This corrective action has brought the facility into compliance with the standard.

Facility Characteristics

Grace House is located at 1932 Bailey Avenue Buffalo, NY 14211. The facility is located in a residential area with two properties operated by Saving Grace Ministries on either side.

The mission of Saving Grace Ministries, Inc. is to provide a smooth transition to community life for men and women recently released from a correctional facility by providing a highly-structured program based on Christian principles. Since its founding in 1999, SGM has sought to reach the lost, to serve those who no one else will serve, and to impact Western New York by providing a tangible alternative to the cycle of release and re-incarceration too common in today's justice system.

Saving Grace Ministries, Inc. is a Buffalo-based 501(c)(3) nonprofit dedicated to serving men and women under supervision by the NYS Department of Corrections and Community Supervision (formerly NYS Parole). Over the past ten years, SGM has developed relationships with partner organizations in Rochester New York, as well as Tampa, Florida, each of which operates a partner "Grace House" program in their respective cities.

SGM was founded on the premise that faith-based organizations are able to accomplish goals that many times government cannot. Through strategic partnerships, linkage agreements with area providers, and the support of the community of faith, SGM has reached thousands of men and women returning to Erie County since opening the first "Grace House" program facility in 2001

The facility houses resident for the New York State Corrections and Community Supervision, and the Department of Social Services. All of the residents are supervised through the New York State Corrections and Community Supervision.

The facility is a three-story residential structure. Access to the facility is controlled by a locked door, anyone entering either needs to know the cypher lock code, or have someone grant them access. Anyone visitor entering the facility must report to the on-duty staff member, and sign in.

The first floor of the facility contains the kitchen, dining area, living room area, conference room, a storage room, three bathrooms, and an office. A multi occupancy resident room is also located on this floor. The doors to the storage room and bathrooms are always secured and a key is required for access.

The resident rooms are located in two separate areas on the second floor. The two areas are accessed by separate staircases. All of the resident rooms are multi occupancy and have closeable doors. Each housing area has their own bathroom, one is single occupancy this has a shower curtain for privacy while showering. This bathroom has an operational door for privacy while performing bodily functions. The second bathroom is multi occupancy with curtains on the showers and stall doors for the toilets, these provide privacy while showering and performing bodily functions. Staff frequently moves throughout the facility.

The facility has eight cameras that provide views of interior and exterior areas of the facility. The camera monitor is located in the caretaker's office. I reviewed the camera views and found that they cover only general areas.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

Saving Grace Ministries, Inc. PREA Policy dictates the agency's mandated zero tolerance toward all forms of sexual abuse and sexual harassment and outlines the agency's approach to preventing, detecting, and responding to such conduct. This policy furthermore defines all sexual abuse and sexual harassment.

I reviewed the policy in its entirety, as well as questioned staff members on its content and applicable sections to their specific duties within the facility. The staff understood the policy and its practical application to the daily operation of the facility.

The agency has designated an agency PREA Coordinator. During the interview she related that she has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the

PREA standards. I found the Agency PREA Coordinator to be well versed in the PREA Standards, and their daily application in the facility.

Prior to the onsite audit all documentation was reviewed, during the onsite portion I observed the policies in daily practice, and this was further confirmed during my interviews with both staff and residents.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.212 (a)

- If this agency is public and it contracts for the confinement of its residents with private agencies or other entities including other government agencies, has the agency included the entity's obligation to comply with the PREA standards in any new contract or contract renewal signed on or after August 20, 2012? (N/A if the agency does not contract with private agencies or other entities for the confinement of residents.) Yes No NA

115.212 (b)

- Does any new contract or contract renewal signed on or after August 20, 2012 provide for agency contract monitoring to ensure that the contractor is complying with the PREA standards? (N/A if the agency does not contract with private agencies or other entities for the confinement of residents.) Yes No NA

115.212 (c)

- If the agency has entered into a contract with an entity that fails to comply with the PREA standards, did the agency do so only in emergency circumstances after making all reasonable attempts to find a PREA compliant private agency or other entity to confine residents? (N/A if the agency has not entered into a contract with an entity that fails to comply with the PREA standards.) Yes No NA
- In such a case, does the agency document its unsuccessful attempts to find an entity in compliance with the standards? (N/A if the agency has not entered into a contract with an entity that fails to comply with the PREA standards.) Yes No NA

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)

EVIDENCE OF COMPLIANCE:

The agency does not contract for housing of residents. The facility contracts with the New York State Corrections and Community Supervision to house residents.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has developed a facility staffing plan that provides for adequate levels of staffing, and, where applicable, video monitoring, to protect inmates against sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring, facilities have taken into consideration all areas enumerated under this standard. Compliance was determined by reviewing the aforementioned policies. I further questioned staff on the policies and the ability to fully staff the facility at all times. I was informed that the facility will fill posts with overtime if needed to be at full compliment.

The staffing plan was completed and reviewed by the Executive Director on September 29, 2020. This was confirmed through interviews and viewing the staffing plan.

The staffing plan has not been deviated since the implementation of the corrective action plan.

The administration meets on a regular basis to review incidents that have occurred at the facility, as well as discussing normal facility operation. During these meetings, they discuss any adjustments that may need to be made to the staffing plan, deployment of video monitoring and other technologies, and any resources available. This was confirmed during the staff interviews.

After a careful review of all documentation, and the information received during both the agency level and the facility level interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Standard 115.215: Limits to cross-gender viewing and searches

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.215 (a)

- Does the facility always refrain from conducting any cross-gender strip or cross-gender visual body cavity searches, except in exigent circumstances or by medical practitioners?
 Yes No

115.215 (b)

115.215 (c)

- Does the facility document all cross-gender strip searches and cross-gender visual body cavity searches? Yes No
- Does the facility document all cross-gender pat-down searches of female residents? (N/A if the facility does not have female residents). Yes No NA

115.215 (d)

Yes No

115.215 (e)

- Does the facility always refrain from searching or physically examining transgender or intersex residents for the sole purpose of determining the resident's genital status? Yes No
- If a resident's genital status is unknown, does the facility determine genital status during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner? - Does the facility/agency train security staff in how to conduct searches of transgender and intersex residents in a professional and respectful manner, and in the least intrusive manner possible, consistent with security needs? Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The facility does not conduct cross-gender strip searches or cross-gender visual body cavity searches unless in exigent circumstances or when performed by a medical practitioner. I confirmed this procedure during staff and resident interviews, as well as review of policy. I also confirmed that the facility has not conducted a search under these circumstances.

The facility is an all-male facility and does not house any females.

The above policies outline procedures and practices that enable residents to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine housing unit checks. The policies further dictate that staff of the opposite gender announces their presence when entering a resident housing unit.

Each housing area has their own bathroom, one is single occupancy this has a shower curtain for privacy while showering. This bathroom has an operational door for privacy while performing bodily

functions. The second bathroom is multi occupancy with curtains on the showers and stall doors for the toilets, these provide privacy while showering and performing bodily functions.

The facility does not search or physically examine a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, it is determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning that information as part of a broader medical examination conducted in private by a medical practitioner. I further confirmed the practices during the staff, and medical interviews. When a transgender or intersex resident is placed at this facility, they would have been identified as such by the facility they were being transferred from.

The facility does not conduct any pat down searches or strip searches of residents.

After a careful review of all documentation, and the information received during interviews, I found that the agency and facility are substantially compliant with the requirements of this standard, and all provisions.

Yes No

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has taken appropriate steps to ensure that residents with disabilities (including, for example, residents who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. These steps include, when necessary to ensure effective communication with residents who are deaf or hard of hearing, providing access to interpreters who can interpret effectively, accurately, and impartially, both receptively and expressively, using any necessary specialized vocabulary. In addition, the agency ensures that written materials are provided in formats or through methods that ensure effective communication with residents with disabilities, including residents who have intellectual disabilities, limited reading skills, or who are blind or have low vision. The facility outlines the response to residents in these categories in the above policy.

The agency has taken steps to ensure meaningful access to all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment to residents who are limited English proficient.

The agency does not rely on resident interpreters, resident readers, or other types of resident assistants. The investigations at the facility would be conducted by the Office of Special Investigations Department of Corrections and Community Supervision, New York State Police, and the Buffalo Police Department. The New York State Department of Corrections and Community Supervision have policies in place that prohibit use of resident interpreters.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency has policies and procedures in place that identify anyone who had been convicted of sexual abuse in a confinement setting, engaged in or attempted to engage in sexual activity in the community or has been civilly or administratively adjudicated for the same. The agency has developed an application process that specifically asks the applicant about these activities, and all provisions enumerated in this standard. During the interviews with staff I verified that the application is being utilized, I further verified the utilization by reviewing personnel files, I found that the questions were asked and answered in all of the reviewed files. During the staff interviews I verified they were asked these questions.

The agency does not have a promotion system that would require asking these questions again.

The agency has also implemented a background investigation process for all new employees, contractors and volunteers. The background investigations are being conducted as per policy. During the review of personnel files I ensured that the background checks were being completed. Part of the background investigation is a Criminal History Check through the National Crime Information Center (NCIC). The agency has not reached the 5 year mark to complete a second Criminal History Check.

It was confirmed with staff that all staff are cleared through DOCCS, if any issues arise they would immediately revoke the staff member's security clearance.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)

EVIDENCE OF COMPLIANCE:

The agency has not made any substantial expansion to this facility, but during the interviews I confirmed that if any expansion or acquisition of facilities takes place, the overall security and safety is taken into consideration, including the sexual safety of the residents.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE

The agency is not responsible for the administrative and criminal investigations of sexual abuse and sexual harassment incidents. These investigations are initially responded to at the facility level, the facility would immediately notify the Office of Special Investigations New York State Department of Corrections and Community Supervision and Crisis Services of Buffalo, NY and Erie County the local Sexual Assault Center.

The investigation would be conducted by the investigators in the Office of Special Investigations New York State Department of Corrections and Community Supervision, the New York State Police, or the Buffalo Police Department. These investigators are sworn law enforcement officers and are highly trained in evidence collection and identification.

The New York State Department of Health Sexual Assault Forensic Examiner Program designates the hospitals available to conduct the examinations. During interviews I confirmed that an approved hospital would be utilized, and that Crisis Services of Buffalo, NY and Erie County would assist in identifying the hospital, and provide victim advocacy.

The aforementioned victim advocates are available to the victim during the forensic medical examination process and investigatory interviews and they provide emotional support, crisis intervention, information, and referrals. Although these services have not been utilized at this facility, I verified their availability through interviews and review of the Crisis Services of Buffalo, NY and Erie County website.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

EVIDENCE OF COMPLIANCE:

During the intake process residents receive information explaining the agency's zero tolerance policy regarding sexual abuse and sexual harassment and how to report incidents or suspicions of sexual abuse or sexual harassment. This was confirmed during the resident and staff interviews; this information is located in the New York State Department of Corrections and Community Supervision pamphlet on The Prevention of Sexual Abuse. I further confirmed this by reviewing resident files and ensuring that the Zero Tolerance Acknowledgment Forms were in the files and signed by the residents.

The residents receive an in-depth orientation at which time the facility provided training on the Prison Rape Elimination Act. The training is provided by a staff member who verbally reviews the materials with the residents and answers any questions the residents may have. The staff further ensures any resident who is identified as disabled or limited English speaking understands the material. This was confirmed during the staff interviews and the resident interviews. This orientation takes place within seven days of arriving at the facility.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

All residents are assessed during the intake process, which is completed upon arrival at the facility. This screening is conducted utilizing the Prison Rape Elimination Act Risk Screening Form- Male Facility. These instruments identify all areas of victimization enumerated in this standard. This was verified through interviews with staff and residents, as well as review of the completed instruments. The screening is being conducted by a specific trained staff. I verified through staff interviews that if a resident is transferred to another facility they would receive a screening again.

The initial screening for risk of being sexually abusive considers any known prior acts of sexual abuse, prior convictions for violent offenses, and history of prior institutional violence or sexual abuse. This was confirmed during review of the screening tool and interviews with both staff and residents.

The facility is reassessing all residents within 30 days of arrival, this reassessment is being conducted by the PREA Coordinator, and they are taking into considerations all information available to them at the time of reassessment. This was confirmed by reviewing the reassessment documentation and staff interviews.

The facility would reassess a resident's risk level when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that may change the resident's risk of sexual victimization or abusiveness. This was confirmed during the staff interviews.

Residents are informed during the screening process that they will not be disciplined for refusing to answer, or for not disclosing complete information. This was confirmed during review of the screening tools, and during the staff and resident interviews.

The agency implements control on the dissemination of screening information at the facility level. The information from the screening tools is not available to general staff, they stored by the PREA Coordinator.

After a careful review of all documentation, and the information received during interviews, I found that the agency substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The agency utilizes the information from the screening and reassessment to inform housing, bed, work, education, and program assignments with the goal of keeping separate those residents at high risk of being sexually victimized from those at high risk of being sexually abusive. This was confirmed during review of the policy and I confirmed these procedures during staff and resident interviews.

The agency makes all of these determinations on an individualized basis, this ensures the safety of each resident. This was confirmed during policy review, and staff and resident interviews.

I confirmed during policy review and interviews that when deciding whether to assign a transgender or intersex resident to a facility for male or female residents, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the resident's health and safety, and whether the placement would present management or security problems. I also confirmed that the residents own views would be taken into consideration during these decisions. Through policy and interviews I confirmed that the transgender residents would be given the opportunity to shower separately from other residents.

I confirmed during interviews that placement and programming assignments for each transgender or intersex resident would be reassessed at least twice each year. This is also addressed in policy.

The agency does not place lesbian, gay, bisexual, transgender, or intersex residents in dedicated facilities, units, or wings solely on the basis of such identification or status. This was confirmed during staff and resident interviews.

After a careful review of all documentation, and the information received during interviews, I found that the agency is substantially compliant with the requirements of this standard, and all provisions.

Auditor Overall Compliance Determination

- Exceeds Standard** (*Substantially exceeds requirement of standards*)
- Meets Standard** (*Substantial compliance; complies in all material ways with the standard for the relevant review period*)
- Does Not Meet Standard** (*Requires Corrective Action*)

EVIDENCE OF COMPLIANCE:

The facility provides the residents the information on reporting in the New York State Corrections and Community Supervision pamphlet on The Prevention of Sexual Abuse. They also have the information posted throughout the facility. The instructions for the usage of these reporting avenues is extremely comprehensive and the step by step usage of the reporting avenues is provided in all written materials both posted and given to the residents. During the interviews with both staff and residents I confirmed that they were aware of the reporting avenues, and that they can remain anonymous.

The facility provides the information for the 24 hour Domestic & Sexual Violence hotline.

The New York State Corrections and Community Supervision website further instructs third parties on how to report. This was confirmed by viewing the agencies website.

The staff interviews related that they understood the agency policy that states that staff shall accept reports made verbally, in writing, anonymously, and from third parties and shall promptly document any verbal reports.

The agency provides in policy a method for staff to privately report sexual abuse and sexual harassment of residents. The staff can report directly to the Office of Special Investigations New York State Department of Corrections and Community Supervision

I found during the resident interviews that the residents who were interviewed felt that if something was happening they would feel comfortable telling a staff member at the facility. This confidence in utilizing this reporting avenue shows the overall culture at the facility. Although this statement may not be true for all residents, the agency has provided so many different reporting avenues that a resident should feel comfortable with one of them.

After a careful review of all documentation, and the information received during interviews, I found that the agency substantially compliant with the requirements of this standard, and all provisions.
