- I. POLICY:** It is the policy of the Department of Corrections and Community Supervision (DOCCS) that no employee or employee guest will consume DOCCS food except as provided for in this directive.

State purchased food is not intended to be used to provide working meals, coffee, and snacks for meetings, etc., between employees and guests, or for office social functions. Such expenses are appropriately covered by the employees or guests participating in such meetings and functions. In situations where it is a major benefit to the Department and to the State of New York to provide food to employees or guests, a waiver may be requested as provided in Section III below.

Funding provided for food in the Support Services Program at the Food Production Center and at the facility level is to be utilized only to provide food to incarcerated individuals in accordance with menus authorized by the Division of Nutritional Services. The cost of food purchased for any other approved use must be charged to other operating funds (i.e., Facility Direction, Miscellaneous Supplies).

Where facilities have an ongoing history of providing incentive meals to incarcerated individuals or incarcerated individual units for such programs as unit cleanliness, the program may be continued. However, the meals are to be prepared using food items regularly available from the statewide menu and they are to be approved by the Director of Nutritional Services. Costs are not to exceed normal and routine meal costs as determined by the Director of Nutritional Services.
