In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None

<b>Targeted Inmate/Resident/Detainee Interviews</b>	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	10
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0

<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>

<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Based on information from staff and documentation reviewed in PAQ and onsite visit, no inmates were placed in special housing for risk of sexual victimization.</p>

<p><b>Specialized Staff, Volunteers, and Contractor Interviews</b></p>	
<p>Staff in some facilities may be responsible for more than one of the specialized staff duties. Therefore, more than one interview protocol may apply to an interview with a single staff member and that information would satisfy multiple specialized staff interview requirements.</p>

## SITE REVIEW AND DOCUMENTATION SAMPLING

### Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

<p><b>84. Did you have access to all areas of the facility?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
---	---

### Was the site review an active, inquiring process that included the following:

<p><b>85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
--	---

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
88. Informal conversations with staff during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).	All areas of the facility were accessible to the auditor.

**Documentation Sampling**

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?	<input checked="" type="radio"/> Yes <input type="radio"/> No
91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).	Twelve random inmate record files were selected for review. Also, twelve employee record files were randomly selected and reviewed.

**SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY**

**Sexual Abuse and Sexual Harassment Allegations and Investigations Overview**

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations

Staff-on-inmate sexual harassment	2	0	2	0
<b>Total</b>	3	0	3	0

## Sexual Abuse and Sexual Harassment Investigation Outcomes

### Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

This policy collectively outline the agency's approach to preventing, detecting, and responding to sexual abuse, sexual harassment, and sexual threats. Policies state sexual abuse and sexual harassment violate Department rules and threaten security and that all allegations of sexual abuse, sexual harassment, or retaliation for reporting such an incident of participating in an investigation will be thoroughly investigated. Policy states that perpetrators will be dealt with severely through discipline or prosecution to the fullest extent permitted by law. Policy provides definitions consistent with those found in Prison Rape Elimination Act of 2003, (PREA), 42 U.S.C. §15609. Under § 130.05 of New York State Penal Law, it is a crime for staff to engage in a sexual act with an inmate or parolee. He further manages this through regular and direct coordination with sixteen (16) Assistant Deputy Superintendent/ PREA Compliance Managers who are instrumental in PREA coordination and execution at the facility level. During his interview, Acting Commissioner Anthony J. Annucci articulated complete support of efforts by Associate Commissioner Effman, the Zero Tolerance mandate throughout the agency, and a continued commitment for agency compliance. Associate Commissioner Effman also communicated to the auditor his actual and implied authority and his ability to carry out duties without impediment and receiving support from the agency head.</p> <p data-bbox="240 1536 1485 1832">Erin O'Brien has been appointed, (effective April 7, 2022), to Assistant Deputy Superintendent PREA Compliance Manager at Five Points Correctional Facility from Supervising Offender Rehabilitation Coordinator at Elmira Correctional Facility. The Associate Commissioner/PREA Coordinator and the Director worked together (with others) to revise policies, practices and support the PREA ADS's and facilities by creating a mentor program meeting regularly with staff to work in a collaborative way to preventing, detecting and responding to issues and concerns from a diverse perspective. Sufficient time has been given for site assessments across the state and to participate in conferences to be armed with the knowledge and inner workings of the day to day functions to include the culture of each facility. In addition, DOCCS has supported the PREA</p>

ADS's to be trained in FETI, Advocacy Training, Staff Wellness Training, and other advanced trainings that help efforts to comply with standards from a "process" not an "event" perspective, giving them the tools to be victim centered and responsive to the unique concerns and needs of those that are incarcerated. The Department's zero-tolerance policies clearly outline the agencies expectations. The number of resignations and arrests each year shows how committed DOCCS management staff is about enforcing zero tolerance of sexual abuse and sexual harassment. The Department uses a Servant Leadership model in hiring/promoting PREA ADS's, looking for those that possess many leadership qualities to include getting others engaged in the process and take ownership in what and how they do things. Every change and every decision is said to be made from a collaborative approach at how it effects other areas/divisions in the facility. Zero-tolerance is easy to put in place when a team approach is used to stand up against misconduct. This team approach was noted by the auditor while touring the facility, speaking with staff and offenders. Staff quickly responded to the auditor's questions and comments in their work areas. Staff took pride in showing their work areas.

Based on auditor's analysis of related policy, review of executive memorandums, review of agency and facility organization charts, and formal staff interviews it is determined that Five Points Correctional Facility exceeds all elements required of this standard.

The Staffing memo, dated December 10, 2020, indicated a formal review of the established Five Points Correctional Facility Staffing Plan. The staffing plan for Five Points Correctional Facility is predicated on 938 inmates. The average daily number of inmates since the last PREA audit is 1561.</p> <p data-bbox="240 1895 1485 2119">The current plan calls for (519 security positions), 1 captain, 9 lieutenants, 19 sergeants, and 466 corrections officer posts located throughout the facility in the housing units, medical units, school area, academic area, mess hall/kitchen, yards and gymnasium, program and activities buildings, walkway, lawn and grounds, and outside perimeter. The six most common reasons for deviating from the staffing plan are emergency trips, post closures, staffing shortage, non-participation in services (rec), overtime management and consolidation services. After review of the documentation provided, the auditor confirmed that Post Closure Reports are completed when a post is closed, explaining the reason. The example of this document was provided to the auditor for March 10-March 23, 2022 demonstrating the process for having deviations documented.</p>

As indicated in the referenced memorandum, the review included generally accepted guidelines and practices:

- Any judicial finding of inadequacy (none)
- Any findings of inadequacy from federal investigative agencies (none).
- Findings of inadequacy from internal or external oversight bodies: (a) All allegations of sexual abuse at Five Points Correctional Facility, reported or suspected, are forwarded to the Office of Special Investigations (OSI) in accordance with the Facility Coordinated Response to Reports of Sexual Victimization. The OSI investigations are focused on findings related to potential criminal misconduct or administrative rule violations by incarcerated individuals or by staff. The investigations are documented in writing. (b) Each sexual abuse report, and other serious reports of related misconduct, results in a post-incident review that is submitted by the Incident Review Team to the Superintendent with a copy to the Associate Commissioner and PREA Coordinator for review. The review may or may not result in a recommendation for a change in staffing plans, or other related modifications pertaining to supervision or monitoring of a particular area.
- All components of the facility's physical plant (Including "blind spots" or areas where staff or incarcerated individuals may be isolated). a. The capacity of Five Points Correctional Facility is 1587 inmates. The average daily population is 1030 incarcerated individuals. Five Points Correctional Facility utilizes direct and indirect supervision. Security rounds are made in housing areas a minimum of hourly during which every incarcerated individual is physically viewed by staff. Incarcerated individuals are forbidden to create any obstruction, or otherwise inhibit any line of sight, except when changing in their cell, cube or room, or when using in cell toilet facilities. The Rounds Tracker system is also utilized in the special housing unit to enhance tracking of regular and unannounced rounds. The composition of the incarcerated individual population. a. **Conclusion**

It clarifies when the announcement is to be made (i.e. when gender supervision changes) and that it is to be logged in the housing unit logbook. Directive #2230 Guidelines for Assignment of Male and Female Correction Officers 2/21/2019 states that staff of the opposite gender shall verbally announce their arrival on a housing unit to avoid unnecessary invasion of privacy. It emphasizes the incarcerated individuals' privacy will be protected to the extent the Department is able to do so. It requires the use of and directions for the use of department-approved shower curtains. The Employees' Manual reinforces these two directives.</p> <p>Most incarcerated individual interviews and staff interviews confirmed that incarcerated individuals are able to shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing the breasts, buttocks, or genitalia, except in exigent circumstances or when such viewing is incidental to routine cell checks. Some incarcerated individuals expressed concern regarding a recent change to the glazing of the window into the showers. The auditor viewed all shower and toilet areas and found there was sufficient protection to provide privacy yet not impede the ability of security staff to maintain security in those areas. All of the incarcerated individual interviews confirm that opposite gender staff are announcing when entering the unit. All random staff interviews confirmed that this is occurring. During the tour, the auditor and escort team was announced prior to entering the unit; this did not appear to be odd based on the observations of the incarcerated individuals in the unit at the time.</p> <p>During the tour, the auditor observed the area where strip searches are conducted in Intake/Visiting Room. It provided appropriate privacy for the incarcerated individual during this process.</p> <p>HSPM 1.19 Health Appraisal 9/22/2020 supports that a facility shall not search or physically examine a transgender or intersex inmate for the sole purpose of determining the inmate's genital status. If the inmate's genital status is unknown, it may be determined during conversations with the inmate or by reviewing medical records. A medical practitioner may conduct a full physical examination of an inmate, including a transgender inmate, when relevant to the treatment of the patient. Such an exam is to be conducted in private and with the patient's consent. Findings are to be recorded in the Ambulatory Health Record.</p> <p>HSPM 1.37 Body Cavity Searches by DOCCS primary care providers (PCP) (i.e., physicians, nurse practitioners, physician assistants, dentists) may be authorized only by the Superintendent, Acting Superintendent or Facility Officer of the Day upon receiving approval from the Deputy Commissioner/Chief Medical Officer, or designee, when there is imminent danger to an incarcerated individual's health or facility safety. The body cavity search will only be considered for authorization if there is the ability to see inside the cavity. Rectal cavity searches will not be authorized. A correction officer the same sex as the incarcerated individual will be present during the exam. Documentation of the body cavity search is done in the incarcerated individual's Ambulatory Health Record Progress Note Form 3105. The PCP must document the authorization from the</p>

Deputy Commissioner/Chief Medical Officer, or designee, the length of time of the search, the individuals present during the search and the outcome of the search.

Staff is prohibited, and the facility always refrains from searching or physically examining transgender or intersex inmates for the sole purpose of determining the inmate's genital status. Should a determination be necessary it is obtained through communications with the inmate, a review of medical records, or as part of a broader medical examination conducted in private by a medical practitioner. The facility indicates no searches of this nature have occurred in the past 12 months.

One Hundred percent (100%) of all security staff receive training on conducting cross-gender pat down searches and searches of transgender and intersex inmates in a professional and respectful manner, consistent with security needs. Course is given at the Training Academy. Presently all security staff assigned to Five Points CF have taken this course. Therefore, no security staff would be listed on the Five Points KHRT report for the audit time frame as needing this training.

Employee Manual -11.12 Staff of the opposite gender shall verbally announce their arrival on a housing unit at a minimum upon each change of shift and when the gender supervision on a housing unit changes from exclusively same gender to mixed or cross gender supervision to avoid unnecessarily invading the privacy of incarcerated individuals of the opposite gender, unless emergency circumstances dictate otherwise. The announcement(s) by staff must be accomplished in a manner that is easily heard and/or understood by all incarcerated individuals on the unit. This announcement shall be recorded in the unit logbook.

**Conclusion**

Based on these documents and the law, as well as observations made during the tour, the auditor finds this standard does not apply to this facility and therefore is deemed to be compliant.

The auditor reviewed three (3) civilian hire packets, four (4) contractor hire packets, all randomly selected by auditor and Civil Service Canvas documents, related Agency policy and emails from EIU both clearing employees for hire and prohibiting employees for hire. Auditor reviewed Human Resources documentation for the 126 new applicants hired by the facility in the last 12 months. Documentation noted dates background conducted, fingerprinting captured, date of notification by EIU of clearance, and date of hire (or indication employee was not hired). Example of a notification by EIU of an employee's arrest was provided for Auditor's review to support the ongoing criminal history check for all employees.

### **Conclusion**

DOCCS Sexual Abuse Prevention & Education Office has a strong focus on Employee Training. The Director of PREA Compliance said, " It has been a critical mission of our unit to provide training that speaks to coworkers and supervisors of staff that engage in misconduct. Through an in-depth process, we conducted focus groups with incarcerated individuals who have been victimized and many other I/I's throughout the state both in prison and post release, we conducted focus groups of staff who have been affected by this behavior and many others to look at things from a bigger picture and to get feedback and input from those involved. We have even interviewed those who have been prosecuted for charges related to PREA.

This training has been successful at reaching employees who feel heard and a part of the process to try to change this and helping to identify the red flags and signs of a coworker or someone they are supervising to intervene earlier on and help them before it is too late. PREA ADS's have been trained in FETI, Forensic Experiential Trauma Interview (FETI). FETI presents a science and practice-based, trauma informed approach to interviews. The FETI methodology is informed by the latest research on the neurobiology of trauma and memory. In addition, the PREA ADS's and OSI are hands on with training individuals in the facilities. They provide direct training to medical and mental health staff on specialized training, security supervisors on coordinated response, guidance/counseling staff on risk screening and more as evidenced by the training forms (RTF's) and their knowledge through interviews."

After review and analysis of the documentation, interviews with staff, the auditor concludes that the standard is deemed compliant. The training curriculum supports that all ten topics required by the standard are thoughtfully and thoroughly addressed in the curriculum. The training provides information specific to working with male incarcerated individuals. Training occurs every two years with a refresher training annually. Documentation of training records for courses 35029 PREA and 17078 Refresher were provided to further support that the facility is compliant. It demonstrated that all staff have been trained. All staff interviews support that staff have received the training and staff were knowledgeable regarding the various aspects required by the standard.

DIR #4027A, Sexual Abuse Prevention & Intervention - Inmate on Inmate and DIR #4028A, Sexual Abuse Prevention and Intervention - Staff on Inmate/Staff on Parolee designates that all contractors and contract employees, volunteers, and interns shall receive orientation and periodic in-service training consistent with their level of inmate contact relating to the prevention, detection, and response to inmate on inmate sexual abuse and sexual harassment. DIR #4750, Volunteer Services Program, directs that during orientation, volunteers must be cautioned regarding the seriousness of personal/emotional involvement with inmates to include visiting, corresponding, and accepting phone calls and that volunteers are prohibited from having any sexual contact or engaging in any sexual conduct with an inmate. For purposes of applicability, Penal Law section 130.05 states an employee also includes any person, including a volunteer, providing direct services to inmates in a State correctional facility pursuant to a contractual arrangement or written agreement with the Agency, thereby inclusive of volunteers providing services to inmates. All volunteer applicants must read the most updated version of the Policy on the Prevention of Sexual Abuse of Inmates and acknowledge that they understand the Department's zero-tolerance policy regarding sexual abuse and sexual harassment and how to report such incidents. All volunteers are to be provided with training and DIR #4027A, Sexual Abuse Prevention and Intervention - Inmate on Inmate, and DIR #4028A, Sexual Abuse Prevention and Intervention - Staff on Inmate. All volunteer applicants must acknowledge receipt in writing that they will be held accountable for and act in accordance with the policy and the law. This job specific training is delivered by the volunteer's staff supervisor. Interviews with three (3) volunteers and review of their training records, indicate delivery, recording, and tracking of training has occurred.

DIR #4071A, Guidelines for Construction Projects, includes procedures for contractor training on PREA and directs each contract worker to be issued a copy of Form #4071A which is a seven page handout that includes a section covering: PREA Policy on Zero Tolerance, What is sexual abuse, What is sexual harassment, Duty to Report, Confidentiality, and Acknowledgement Statement with a place for signature of both the contractor and the New York State Department of Corrections and Community Supervision employee who reviewed the procedures with the contractor. DIR #4750 states it is a crime for any employee to engage in sexual conduct or sexual contact with an inmate and for purposes of Penal Law section 130.05, an employee also includes any person providing direct services to inmates in a State correctional facility pursuant to a contractual arrangement with the Department pursuant to a contractual agreement or, in the case of a volunteer, a written agreement with the Department. One sample of contract worker provided.

Per DIR #4760, Volunteer Services Program, directs the job-specific training for the volunteer to be given by the volunteer's Staff Supervisor. Form #4750D, Required Training for Various Categories of Volunteers. DIR #4071A, Guidelines for Construction Projects, directs the contractor training to be delivered by a New York State Department of Corrections and Community Supervision employee. Memo from Acting Commissioner Anthony J. Annucci regarding the Policy on the Prevention of Sexual Abuse and Sexual Harassment of Incarcerated Individuals and Parolees (Revised) September 4, 2018, pertains to All Employees, Contractors, Volunteers and Interns. This memorandum reinforces the zero-tolerance policy and provides an explanation of the terms sexual abuse and sexual harassment and the duty to report for all employees, contractors, volunteers and interns.

The Agency maintains documentation confirming that volunteers and contractors understand the training they have received as noted in the above two paragraphs. Auditor's review of training records for contract staff and volunteers found compliance with all provisions of this standard. Further interviews with contract and volunteer staff, as well as observations on the facility tour, provided verification that all were knowledgeable about the agency's zero tolerance policy and on their responsibilities with reporting and how to detect and respond to signs of sexual abuse. They also were able to explain how to maintain professional relationships with inmates.

**Conclusion**

A list of 139 authorized volunteers and contractors who have received required PREA training was provided to the auditor for review. After review of the related policies, observations during the tour, formal and informal interviews with contract employees and volunteers, and observation of the training records and training curriculum, this auditor finds Five Points Correctional Facility meets the requirements of this standard.

The document, PREA-Sexual Abuse Prevention Inmate Orientation Outline, was reviewed by auditor. This information is a general outline to give presenting staff members background information needed to conduct the Sexual Abuse Prevention Inmate Orientation. It is provided to assist with information necessary to answer questions that may be asked during the presentation. The outline includes for the presenter: 1) Introduction and history, explains the role and duties of PREA Coordinator, the role and duties of the Assistant Deputy Superintendent/PREA Compliance Manager, and explains multiple ways to make a report; 2) defines PREA; 3) defines the Agency’s zero tolerance policy; 4) explains the right of every inmate to be free from sexual abuse or sexual harassment and what that means; 5) explains the inmate behavior expectations and defines sexual abuse and sexual harassment; 6) explains what to do if abused; 7) explains how and to whom to report, including 3rd party and anonymous reports; 8) covers the consequences of a false report; 9) explains availability of Victim Services; 9) explains the difference between an authorized Pat Frisk and sexual abuse; 10) covers confidentiality; 12) explains the requirement of opposite gender staff to announce presence on housing unit and why it is done; 13) provides for a questions and answer period.</p> <p data-bbox="240 1637 1485 1895">During the orientation process and within the first week of arrival, inmates view the PREA video “Ending Sexual Abuse Behind the Walls: An Orientation” which is facilitated by staff. This video is available in English, Spanish, Mandarin Chinese, Haitian-Creole, Italian, Korean, Polish, and Russian, and close caption and is gender specific. This video covers the agency’s zero tolerance policy; prevention; self-protection; how to report sexual abuse suspicions, assaults, and harassment; and how to utilize the PREA hotline for emotional support. The video is impactful with actual inmates providing testimonies and input on how to stay safe in the correctional setting. Staff conducting the training expands on the previous information provided in the handbook and pamphlet using the PREA-Sexual Abuse Prevention Inmate Orientation Outline, as discussed in previous paragraph.</p> <p data-bbox="240 1928 1485 2152">In addition to addressing PREA during facility orientation for all inmates at Five Points, inmates who are assigned to Five Points as their first general confinement facility out of a reception center participate in Transitional Services Phase 1. The Phase 1 program is a comprehensive overview to assist inmates to transition into prison. It includes four modules: Making a Change; Pro-Social Development; Personal Development; and Prison Rape Elimination Act. Phase 1 is taught over one week and the PREA Module is delivered on the last day (approximately three (3) hours of instruction). The PREA Module is co-facilitated by Transitional Services staff and Inmate Program Associates (peer educators) who have been carefully selected and trained to deliver the curriculum. The PREA Module includes a guided discussion defining sexual abuse and</p>

sexual harassment; an additional viewing of the PREA video "Ending Sexual Abuse Behind the Walls: An Orientation" followed by a detailed guided discussion; overview of reporting mechanisms, barriers and responses; and avenues to obtain victim support. The training relies on a number of scenarios to engage the participants in discussion.

Auditor's review of twelve (12) selected inmate files from the interview list indicated each of them had received the initial comprehensive education at the appropriate facility within the designated time frame as evidenced by documentation in the inmate's file. PREA training delivered at Five Points Correctional Facility is documented through signatures of the inmates on the Report of Inmate PREA Training Participation Form 115.33.

DIR #4027A, Sexual Abuse Prevention & Intervention - Inmate on Inmate, ensures that inmates receive during orientation at their permanent facility after transfer, information which addresses sexual abuse and sexual harassment and the information is to be communicated orally and in writing, in a language clearly understood by the inmates. This information will address prevention, self-protection (situation avoidance), reporting sexual abuse and sexual harassment, and the availability of treatment and counseling.

All inmates transferred to Five Points Correctional Facility receive a PREA pamphlet in preferred language upon arrival, explaining the agency's and facility's zero-tolerance policy regarding sexual abuse and sexual harassment and explaining how to report incidents or suspicions of sexual abuse or sexual harassment. The PREA Pamphlet is offered during the interview with the Draft Sergeant who covers the Zero Tolerance policy verbally and tells the inmate how to make a report. This process was observed by auditor during the site visit and further validated through inmate interviews, and review of Draft Receipts for 3 randomly selected inmate records.

All incoming transfers also receive PREA orientation which includes viewing the PREA video "Ending Sexual Abuse Behind the Walls: An Orientation", facilitated by staff, and are educated on policies and procedures specific to Five Points Correctional Facility within 10 days. Five Points Correctional Facility PREA-Sexual Abuse Prevention A video checkout log is maintained to record the date and to whom the video was checked out and when returned. Inmate Orientation Outline provides detailed background information to staff presenting the Sexual Abuse Prevention Inmate Orientation to ensure comprehensive orientation for every newly received offender. This education is delivered in a classroom setting and is documented through signatures of the inmates on the Report of Inmate PREA Training Participation Form 115.33. Auditor's review of the documented training indicates the orientation takes place generally within five days, but at least within one week of arrival. New arrival processing and an orientation session was attended by the lead auditor. Inmate training records selected from the interview list and an additional selected inmate training records were reviewed indicating all have received orientation according to procedures stated above.

There were 1016 inmates admitted during past 12 months who were given this information at intake. There were 888 inmates admitted during the past 12 months (whose length of stay in the facility was for 30 days or more) who received comprehensive education on their rights to be free from both sexual abuse and sexual harassment and retaliation for reporting such incidents and on agency policies and procedures for responding to such incidents within 30 days of intake. Random inmates interviewed and during discussion on the facility tour all acknowledged they have received PREA information upon arrival at the facility and that it is reinforced and readily available through staff interaction and information posted in the housing areas. They were able to explain how to report an incident and were aware of the zero-tolerance policy. Auditors observed a variety of culturally diverse, informative PREA posters posted in English and Spanish throughout the facility. Some of these posters address the zero tolerance, other indicate how to access victim advocacy services and a third poster specifically for reporting includes: "Report Sexual Abuse" in large lettering with a paragraph about reporting on the left in English and the right in Spanish and "Report Sexual Abuse" translated in Mandarin Chinese, Haitian-Creole, Italian, Korean, Polish, and Russian across the bottom.

DIR #4027A, Sexual Abuse Prevention & Intervention - Inmate on Inmate, directs that the PREA information and education shall be communicated orally and in writing, in a language clearly understood by the inmates. This information addresses prevention, self-protection (situation avoidance), reporting sexual abuse, and sexual harassment, and the availability of treatment and counseling. Educational information is provided in formats accessible to all inmates. The brochures "The Prevention of Sexual Abuse in Prison - What Inmates Need to Know", "Help for Victims of Sexual Abuse in Prison-Victim Support", and handbooks are available in English, Spanish, Mandarin Chinese, Haitian-Creole, Italian, Korean, Polish, and Russian. Audio education is available to the visually impaired through CDs and cassette tapes. Facility staff, the Office of Cultural and Language Access Services staff interpreters, and a Language Line Service is available to the facility for interpretation services when needed.

In addition to providing the above discussed education, the agency ensures that key information is continuously and readily available or visible to inmates through posters, inmate handbooks, or other written formats as directed through DIR #4027A. Offenders are provided an Inmate Handbook containing PREA information and provided instructions on reporting methods, and what to do if an offender feels threats to his/her safety. Handbooks are available in English and Spanish. Zero-Tolerance Policy posters (English and Spanish) are placed throughout the living units, employee break rooms, offender and employee dining areas, law library, general library, offender housing areas, offender work and educational areas, and multi-purpose areas and visitation. Inmate Handbook in both English and Spanish is available in the Law Library. Auditor observed a

thorough display of posters and accessibility of the Inmate Handbook.

Inmates were well versed on the zero-tolerance policy and knew how to access help. Inmates were able to explain their right to be free from sexual abuse and sexual harassment, and their right to be free from retaliation for making a report. Inmates were aware they could make a report on behalf of another offender and were aware that a report could be made on their behalf by a 3rd party. Some inmates referenced being able to look in the handbook or get information from the posters displayed throughout the facility. All offenders said they would be able to talk directly to staff if they needed to tell someone. The inmates interviewed expressed feeling safe at Five Points Correctional and denied being aware of any sexual activity at the facility. More than half of the inmates interviewed said they knew about the outside advocacy services, but most said they really hadn't paid attention to it because they haven't had a need.

**Conclusion**

New York State Department of Corrections and Community Supervision provides a comprehensive inmate PREA education to the inmate population beginning at reception into the agency. The facility is only required by standards to provide education to new inmates related to facility specific information; however, Five Points Correctional Facility provides the same comprehensive education that is provided at reception facilities and in a variety of formats. Based on personal observations, facility tour, documentation review, training records review, review of handbook and pamphlets, inmate education curriculum review, inmate interviews, and interviews with Prison staff, Five Points Correctional Facility meets requirements of this standard.

This policy shall delineate facility-specific procedures to assess an incarcerated individual's risk.</p> <p>Each Facility PREA Risk Screening policy shall be derived from the approved Risk Screening FOM Template. appropriate parties to ensure proper care, housing, and other assignments for protection of the inmate and others. The Risk Screening Form includes the following language: Information contained on this form shall not be disclosed to anyone other than to the extent necessary to make security classification, housing/placement, programming, treatment, investigation, and other security and management decisions. Five Points Correctional Facility local operating procedure FOM #1.09, PREA Risk Screening directs the PREA risk screening interviews to be conducted in a private setting. Auditor observed inmates taken one at a time from the waiting area into a staging area containing a desk and two chairs for screening behind a closed door for confidentiality purposes. After the intake sergeant conducts the initial screening upon arrival, the form is then forwarded to the Supervising Offender Rehabilitation Coordinator who distributes the screening forms to the inmate's assigned counselor. Once completed, the Offender Rehabilitation Coordinator forwards the completed reassessment to the Assistant Deputy Superintendent/PREA Compliance Manager for the final risk assessment review with a copy to the Deputy Superintendent for Security/PREA Point Person and Watch Commander. The original risk screening form is retained in the inmate's file in locked cabinets within the Guidance Department where only authorized staff have access. Interviews with all concerned parties indicate the risk screening forms are kept in a locked file cabinet, in a locked office/room with the identified persons listed only having access.

### **Conclusion**

The number of inmates entering the facility (either through intake or transfer) within the past 12 months whose length of stay in the facility was for 72 hours or more and who were screened for risk of sexual victimization or risk of sexually abusing other inmates within 72 hours of their entry into the facility: (1007). The number of inmates entering the facility (either through intake or transfer) within the past 12 months whose length of stay in the facility was for 30 days or more and who were reassessed for their risk of sexual victimization or of being sexually abusive within 30 days after their arrival at the facility based upon any additional, relevant information received since intake: (888).

When touring the Draft area where new arrivals are screened, it was discovered that medical staff who performed medical screening was interviewing inmates in an open area in sight and ear shot of correctional staff conducting intake. This practice was not protecting sensitive information. I have been assured by Erin O'Brien, Assistant Deputy Superintendent, that the medical staff will be sharing the Sergeant's office in the intake area to ensure privacy. The facility is in the process of ordering half walls to separate the medical area from the rest of the open intake area. This concern has been resolved.

Auditor's analysis of PREA Risk Screening Forms, personal observations, review of inmate files, and interviews with Captain Marc McGrain, Sergeant Wentzel, Erin O'Brien, PREA Compliance Manager, and PREA Coordinator, Jason Effman and Aaron Crawford, conclude Five Points Correctional Facility meets all provisions of this standard.

The Assistant Deputy Superintendent PREA Compliance Manager shall make a final risk assessment determination ordinarily within 30 days of the incarcerated individual’s arrival at the facility. When the Assistant Deputy Superintendent PREA Compliance Manager is absent from the facility, the PREA Point Person shall act in their place with respect to implementation of PREA Risk Screening procedures. Incarcerated individuals shall not be disciplined for refusing to answer or for not disclosing complete information in response to questions asked pursuant to the PREA Risk Screening process.”</p> <p data-bbox="240 2085 1485 2141">Documentation supporting this process was provided to the auditor with the review of the randomly requested documentation. Based on interviews with the Associate Commissioner/PREA Coordinator and the Assistant Deputy Superintendent/PREA Compliance Manager at Five Points has the authority to recommend individualized determinations about ensuring the safety of all inmates. Inmates determined to be at high risk for victimization are interviewed followed by periodic spot checks by the Assistant Deputy Superintendent/PREA Compliance Manager and the inmate's own views of safety are given serious consideration. Bed and/or housing moves, adjustments to programming/work/education assignments may be recommended in order to ensure safety of the individual. Interviews with the Assistant Deputy Superintendent/PREA Compliance Manager, Deputy Superintendent for Security/PREA Point Person, and inmates determined to be at high risk confirmed this practice is well established.

The interview with Jason D. Effman, Associate Commissioner/ PREA Coordinator confirmed the following: "The New York State Department of Corrections and Community Supervision does not have any facilities, units or wings dedicated to lesbian, gay, bisexual, transgender or intersex incarcerated individuals. When a transgender or intersex incarcerated individual requests a facility assignment based upon their gender identity, an individualized assessment is conducted, and such placements are made when warranted.

### **Conclusion**

Review of the policy and other documentation which included an example of a risk assessment screen for a transgender incarcerated individual in addition to Form 115.42, comments noted in response to 115.41M and processes in place that communicate risk needs to staff support a finding of compliance. One completed risk assessment was reviewed during the pre-audit. Additional notifications to the program staff regarding incarcerated individuals requiring attention were also provided for the auditor to review the process. As stated, at this facility, all incarcerated individuals are reassessed quarterly, and asked questions again related to sexual abuse/sexual harassment safety. This was confirmed by staff interviews and incarcerated individual interviews. Documentation showing that a transgender incarcerated individual's own views are given serious consideration was provided to the auditor upon request. The (2) transgender/intersex incarcerated individuals confirmed they have no issues with showers and confirmed that their views on safety are given serious consideration. Additionally, the facility has an organization for gender non-conforming incarcerated individuals which helps identify and address any concerns that arise with this population. Based upon this analysis of written authority, completed documentation, interviews with, A/C Jason Effman, Erin O'Brien, ADS/PCM and Sgt. Wentzel and incarcerated individuals all provide sound evidence for the auditor to find the facility meets compliance with this standard.

The initial inmate or parolee report may be verbal or in writing. All inmate interviews with those targeted, those randomly selected and the informal conversations confirmed that inmates were fully aware of options to privately report any incident or concern regarding PREA. All inmates confirmed they were provided methods to report staff neglect or violation of responsibilities that may have contributed to sexual harassment or abuse. All inmates interviewed were fully aware of the hotline now available and the ability to privately report through that mechanism. Posters are provided throughout the facility in all areas where inmates may live, work, congregate and/or visit as verified during the auditor tours of the facility. Additionally, as part of orientation to Five Points Correctional Facility, each inmate is given and signs they have received the Pamphlet, "The Prevention of Sexual Abuse in Prison - What Inmates Need to Know". This provides the office and address for offenders to write to the New York State Commission of Correction. The New York State Commission of Correction (SCOC) agrees to receive all written inmate and resident reports containing sexual abuse and sexual harassment allegations and then immediately forward them to New York State Department of Corrections and Community Supervision officials. Staff training for PREA further emphasizes the requirement that staff must accept and forward any reports whether verbal, in writing, anonymous or third party of sexual abuse, sexual harassment or retaliation immediately to their supervisor who will then forward the information through the chain of command. In addition, the Employees' Manual notes the requirement of the duty to report sexual abuse and sexual harassment, retaliation that resulted from filing a PREA complaint as well as staff neglect that may have contributed to an incident of sexual abuse or sexual harassment. "This duty to report includes third party and anonymous reports." Staff interviews all supported that they would respond to any allegation, including anonymous, third party or including suspicion. All indicated this would be immediately reported to their supervisor and then to the Watch Commander. Staff confirmed that follow-up documentation would be done immediately.</p> <p>Albany Training Academy Lesson Plan, Sexual Abuse Prevention and Response - PREA - NYSDOCCS - August 2015 states the duty to report includes third-party and anonymous reports (e.g., family and friends, lawyers, other inmates/parolees/residents). The initial first responder steps are not taken when receiving a third-party report, i.e., staff should not seek out and ask the alleged victim for any information, escort him or her to medical, secure the crime scene, or</p>

discuss the preservation of physical evidence with either the alleged victim or aggressor. Third-party and anonymous reports must be reported to an immediate supervisor (or above, as previously stated) who will forward the information through the chain of command. The report will be documented and referred to the Office of Special Investigations for further direction or to initiate an investigation.

Staff may report sexual abuse or sexual harassment privately to the Office of Special Investigations by calling their number directly or sending an email directly to them. This is reinforced in the PREA training and on individually issued pocket size PREA Response cards for staff. All staff interviews supported that they are aware they have a private mechanism for reporting. Most commented that they could contact OSI directly, noting the number on the Response Card for this. Auditor confirmed with the PREA Point Person at Five Points that he is immediately notified of all allegations received through the grievance process and that process was verified in the onsite visit.

#### **Conclusion**

Auditor's review of the investigation files indicates reports are processed according to stated procedures in above narrative. Auditor was provided a memorandum from the Chairman of the New York State Commission of Correction delineating the agreement to receive inmate reports of sexual abuse or sexual harassment and immediately forward the same to the Office of Special Investigations. Policy review and interviews with PREA Point Person, Captain Marc McGrain, ADS/PCM Erin O'Brien, A/C Effman and Asst. Deputy Chief Investigator, Brian Austin, combined with auditor's observations during tour, interviews with inmates, interviews with staff, review of handbook and other available literature indicates Five Points Correctional Facility meets requirements of this standard.

115.52	<b>Exhaustion of administrative remedies</b>

	Auditor Discussion

The agency is exempt in accordance with DIR #4040 Inmate Grievance Program and #702.2(i) Correction Law, section 139.9, 9 NYCRR Part 7695. A grievance filed is deemed exhausted upon filing with regards to the Prison Litigation Reform Act. The agency policy, #4040, The Inmate Grievance Program states that the Inmate Grievance Program Supervisor shall refer any grievance of an emergency nature directly to the appropriate response level having authority to issue an immediate or expeditious and meaningful response. During the audit, the Inmate Grievance Program Supervisor was interviewed regarding the grievance process. If a sexual abuse or sexual harassment allegation is received through a grievance, it is removed from the grievance process and submitted to the PREA Point Person, Watch Commander or Superintendent to investigate as a PREA occurrence immediately. However, it was discovered that a correctional officer was routinely reviewing sexual abuse or sexual harassment allegations and submitting them to the Inmate Grievance Program Supervisor for processing. This practice violates confidentiality of the PREA reporting process. To correct this practice, The First Deputy Superintendent Titus, sent out a directive to the Inmate Grievance Program Supervisor and the Watch Commanders to cease using correctional officers to handle inmate PREA complaints received in the Grievance Office. This violation has now been eliminated. There are no grievance codes for sexual abuse or harassment. During this audit period, no allegations were tracked through the grievance procedure.

Five Points Correctional Facility meets this standard by non-applicability with all elements.

A memo from Jason D. Effman, Associate Commissioner indicates the following: A PREA Statewide Rape Crisis Hotline went into effect January 8, 2019. Starting January 8, 2019, calls placed on the 777 hotline will route to Crisis Services, Inc., in Buffalo. Crisis Services' Hotline Counselors will provide crisis counseling services and, as requested, a referral to a Rape Crisis Program for follow-up services. As requested by the caller, they will also make referrals or reports to DOCCS via OSI, the facility Assistant Deputy Superintendent PREA Compliance Manager, the designated facility PREA Point Person, or me.

In an immediate emergency (e.g., a report of a sexual assault that occurred within the prior 120 hours, suicidal ideation, or imminent threat to harm staff or another person), Crisis Services supervisors will immediately notify the facility Watch Commander by telephone with a follow-up e-mail to the ADS PREA Compliance Manager, PREA Point Person, OSI and myself. This expansion to a statewide hotline was made possible through cooperation with the State Office of Victim Services (OVS) and State Office for the Prevention of Domestic Violence (OPDV). Funding is through Federal VOCA funds that have been designated for this purpose by OVS and transferred to OPDV. OPDV has amended their existing contract for the NYS Domestic and Sexual Violence Hotline to add the parallel hotline specifically to provide services to incarcerated individuals under PREA. Ongoing emotional support and victim advocacy services will continue to be provided via legal calls and, in some locations, via legal visits. Services will primarily be provided through our network of community-based rape crisis programs (“PREA Centers”).

These programs are: Crisis Services, Inc., Crime Victims Treatment Center (CVTC), RESTORE Sexual Assault Services, Safe Harbors of the Finger Lakes, Sexual Assault & Crime Victims Assistance Program at Samaritan Hospital, and Victims Assistance Services WestCOP, Inc. Again, OVS has increased the VOCA Grants to these programs to pay for services under PREA.

DIR #4421 defines Privileged Correspondence as correspondence addressed by an inmate to any of the following persons or entities at their official business address, or, except as noted in Section II-B below, received from such persons or entities: Rape Crisis Program: Any local, State, or National organization authorized to provide rape crisis services, victim advocacy services, and emotional support services, including but not limited to, organizations approved to provide such services in New York State by the Department of Health pursuant to Public Health Law §206(15).

New York State Department of Corrections and Community Supervision Help for Victims of Sexual Abuse in Prison poster posted at all telephones throughout Five Points Correctional Facility in English and Spanish reads as follows: DOCCS PREA

program provides a Rape Crisis Hotline and enhanced victim services to incarcerated victims of sexual abuse. You can contact the statewide hotline for rape crisis counseling and for referral to a partner program for victim advocacy and emotional support services by dialing 777 from any inmate phone.

Posters announcing the service were visible throughout the facility. On the poster, it indicates that the calls are confidential and are not monitored by the facility but that they are recorded in the event of misuse. It also provides the agency's address should an incarcerated individual wish to correspond instead of talk on the phone. It further educates the incarcerated individual population that the counselors are only allowed to report information back to the Department with the permission of the incarcerated individual. PREA brochures, "Help for Victims of Sexual Victimization in Prison" are widely available to incarcerated individuals.

In addition this pamphlet provides victim support information on how to report abuse, and outlining the PREA Statewide Rape Crisis Hotline, and it provides contact information regarding the community-based Rape Crisis Program (RCP) for rape crisis counseling victim advocacy and emotional support services (Crisis Services, Inc., Crime Victims Treatment Center, Family Services Center for Victim Safety & Support, RESTORE Sexual Assault Services, Safe Harbors of the Finger Lakes, Sexual Assault Resource Center of Planned Parenthood of Greater NY, St. Peter's Crime

Victim Services at Samaritan Hospital, Victim Advocacy Services of Planned Parenthood of Greater NY, Victims Assistance Center of Jefferson County, Victims Assistance Services of WestCOP, and Vera House, Inc. It too reinforces those calls are confidential, will not be monitored but are recorded. It further informs the incarcerated individuals that they do not have to have 777 on their approved telephone list. Telephone numbers to a specific Rape Crisis Program can be added at any time to their approved telephone list. The facility provided examples of ongoing counseling via telephone for numerous incarcerated individuals during the audit period.

The following policy directives support this process: Directive #4423 5/21/2015, Inmate Telephone Calls, an inmate may add an attorney, or Department of Health approved Rape Crisis Program to their telephone list. Directive #4404 Inmate Legal Visits 9/18/2019, there is an area designated for confidential visits and as stated, Directive #4421, Privileged Correspondence 06/02/2016, Rape Crisis Programs- inmates can send and receive privileged correspondence.

DIR #4404, Inmate Legal Visits, provides guidance on visits between an inmate and a representative, including an employee or registered volunteer, or a rape crisis program and directs the Superintendent shall designate an area for these visits. Area designated should ensure the confidentiality of all communications during the visit.

New York State Department of Corrections and Community Supervision is the beneficiary of an agreement with New York State Coalition Against Sexual Assault through the NYS Office of Victim Services with the overarching goal to address the needs of sexual assault victims who are incarcerated in New York State prisons county jails and other facilities.

New York State Department of Corrections and Community Supervision is a recipient of benefits of the MOA between NYS Office of Victim Services and NYS Office for the Prevention of Domestic Violence (OPDV) for the OPDV PREA Hotline Expansion Project Dated October 1, 2018 and terminating September 30, 2020. This MOA includes the provision to provide services for incarcerated individuals according to the Prison Rape Elimination Act (PREA) as administered by the New York State Department of Corrections and Community Supervision and NYS Office of Victim Services (OVS). This includes administration of the Hotline for calls received through the 777 speed-dial number, with operation hours between the hours of 8:00 AM and 11:00 PM. Calls will be responded to and/or referred per New York State Department of Corrections and Community Supervision and OVS protocols. A report of total number of PREA calls and additional information is provided to OVS quarterly, by the 15th of the month. Hotline staff will attend PREA related trainings as prescribed by New York State Department of Corrections and Community Supervision and OVS and report date of training, name of training, trainer's name/affiliation, topic.

New York State Department of Corrections and Community Supervision is a recipient of benefits of the contract between NYSCASA and Sexual Assault and Crime Victims Assistance Program at Samaritan Hospital. Contract is dated April 1, 2021 – September 30, 2022. This contract provides inmate victims of sexual abuse with rape crisis counseling, advocacy, and emotional support services; follow-up with inmates who made direct contact seeking rape crisis services via telephone or mail, or as requested by New York State Department of Corrections and Community Supervision; maintain active confidential communication with New York State Department of Corrections and Community Supervision staff in order to facilitate treatment for inmate victims' rights to confidentiality; complete; and participate in training provided by NYSCASA.

Auditor reviewed copies of all contracts mentioned above to ensure services are available for emotional and mental professional assistance at any time through contact with the facility health services; emotional support can also be accessed through the Chaplain, their case manager, or the Offender Rehabilitation Coordinator. Offenders are notified of these services in the offender training and at orientation; it is provided in the offender brochures and in the offender handbook.

## **Conclusion**

Five Points Correctional Facility provides an unrestricted, unmonitored, easily accessible hotline for all I/I's to use while

phones are available to receive crisis services above and beyond the Rape Crisis Centers that provide short or long term victim centered trauma services. FPCF work closely with the providers for both the centers and the hotline to respond promptly to any issues or concerns whether it relates to mental health, new reports or assistance in resolving other issues. The hotline and PREA centers providers work closely and train with NYSDOCCS PREA ADS's, OSI and SAPEO staff to establish a close working relationship to address the unique needs of the incarcerated individuals. Information on how to access these services are provided when the I/I first reports to any facility with a pamphlet and then again discussed at orientation, posters are strategically placed throughout the facility, information is available in the Library, Law Library, Transitional Services, Medical and through the assigned ORC's. PREA staff regularly update the literature to provide the population with any changes that occur in a timely manner. PREA staff also have regular meetings with both groups to identify any issues within the process as a whole or individual facilities, creating a multidisciplinary approach at combating sexual victimization within the Department's facilities.

Based on policy review, interviews with inmates, interviews with Associate Commissioner/PREA Coordinator, Jason Effman, PREA Facility Point Person, Captain Marc McGrain and Assistant Deputy Superintendent/PREA Compliance Manager, Erin O'Brien; review of correspondence between Five Points Correctional Facility and community rape crisis centers, and hotline call tracking reports provided, Five Points Correctional Facility exceeds the requirements of this standard.

DIR #4027A, Sexual Abuse Prevention & Intervention - Inmate on Inmate and DIR #4028A, Sexual Abuse Prevention & Intervention - Staff on Inmate/Staff on Parolee collectively establish a mandatory and immediate reporting requirement for all staff. Immediate notification shall be made to the Office of Special Investigations. New York State Department of Corrections and Community Supervision Employees' Manual, Rule 2.20 reinforces the Agency directives #4027A and #4028A to include the duty to report third part and anonymous reports. Any knowledge, suspicion, or information regarding an incident of sexual abuse or sexual harassment that occurred in a facility or any staff neglect or violation of responsibility that may have contributed to an incident of sexual abuse or sexual harassment, and retaliation against inmates or staff who report an incident of sexual abuse or sexual harassment must be reported immediately (or as soon as possible after verbal notification, and no later than end of shift) and according to agency policy. Sexual Abuse Response and Containment Checklist is used to ensure all elements of the Agency reporting and staff and agency response to a report are addressed.

In accordance with DIR #4027A, Sexual Abuse Prevention & Intervention - Inmate on Inmate and DIR #4028A, Sexual Abuse Prevention & Intervention - Staff on Inmate/Staff on Parolee, reports of sexual abuse and sexual harassment are confidential and information is only to be shared with essential employees involved in the reporting, investigation, discipline and treatment process, or as otherwise required by law. Coordinated Response Plan to an incident of Sexual Abuse further reinforces the mandate of handling information associated with allegations of sexual abuse as confidential. Random staff interviews indicated common knowledge of this employee standards of conduct expectation.

Memorandum of Understanding between The New York State Office of Mental Health and New York State Department of Corrections and Community Supervision, dated 09/14/16 acknowledges that medical and mental health practitioners shall be required to report sexual abuse pursuant to paragraph 115.61(a) and to inform inmates of the practitioner's duty to report, and the limitations of confidentiality at the initiation of services. The auditor found no evidence to dispute this statement during the audit process.</p> <p>Directive #4750, Volunteer Services Program, updated 7/21/2020, requires that volunteers be notified of DOCCS zero tolerance policy and that they can be criminally liable for their behavior under the definition sexual conduct with an incarcerated individual. It states, DOCCS has a zero-tolerance policy for sexual abuse. It is a crime for any employee to engage in sexual conduct or sexual contact with an inmate. For purposes of Penal Law §130.05, an employee also includes any person providing direct services to inmates in a State Correctional Facility pursuant to a contractual arrangement with the Department or, in the case of a volunteer, a written agreement with the Department. Additionally, it stipulates the following: During volunteer orientation, volunteers must be informed that a formal suspension/dismissal procedure exists and what constitutes grounds for suspension and/or dismissal. Grounds for suspension/dismissal of volunteers are usually based on a violation of the Standard of Conduct for Volunteers.</p> <p>Standards of Conduct for Volunteers Within The New York State Department of Corrections and Community Supervision Relationship with Inmates states, “sexual abuse and sexual harassment violate Department rules and threaten security. All allegations of sexual abuse, sexual harassment, or retaliation for reporting such an incident or participating in an investigation will be thoroughly investigated. It is a crime for a volunteer or intern who provides direct services to inmates in a State Correctional Facility to engage in a sexual act with an inmate or parolee assigned to that facility, even if the inmate or parolee ‘willingly’ participates in the act. Furthermore, any perpetrator of a sexual abuse or sexual harassment incident will be dealt with severely through discipline or prosecution to the fullest extent permitted by law and will be reported to any relevant licensing bodies.”</p> <p>Examples of volunteers were provided with the pre-audit documentation demonstrating compliance. In addition, the auditor randomly reviewed four volunteer folders and observed the signed acknowledgement. This acknowledgement is re-issued when the volunteer received refresher orientation.</p> <p><b>Conclusion</b></p> <p>The interview with the Superintendent confirmed that she is able and willing to temporarily suspend volunteers and contractual staff from entering the facility if there is a suspicion of misbehavior. See comments to 115.32. Additionally, she confirmed that she has the authority to terminate the agreement and, if the incident appeared criminal, it would be referred for prosecution. After analysis of this documentation, policy, and interview, the auditor finds the standard to be compliance.</p>

Hearing Officer Reference Book, Hearing Officer Guidance Standards for Inmate Behavior for incidents occurring on or after 4/1/2017, is utilized to guide the Hearing Officer on the imposition of appropriate discipline for misbehavior and emphasizes the importance of fairness and consistency in disciplinary dispositions imposed. Agency philosophy on inmate discipline includes that when imposed properly, disciplinary sanctions keep staff and inmates safe, correctional facilities secure and may assist in the Departmental mission by returning inmates to the community less likely to engage in negative behaviors. Disciplinary charge 101.10 covers sex acts or attempts at sex acts perpetrated by an inmate toward another inmate.</p> <p>Hearing Officer Reference Book sets forth in attached Appendix B, aggravating and mitigating factors that should be considered in reaching a just and fair disposition. The absence or presence of these factors should be viewed within the context of the totality of the evidence presented when the Hearing Officer is considering sanctions. A substantial list of factors to consider are delineated in the Reference Book to ensure a fair sanction. A table grid with recommended graduated sanctions is utilized by the Hearing Officer after review of the entire situation and circumstances of the case and consideration of mitigating factors of the inmate, such as past behavior. This table includes a checklist for Tier III Disciplinary Sanctions, labeled Appendix C. These guidelines clearly support fair and objective considerations in all disciplinary cases. In the past 12 months, the number of administrative findings of inmate on inmate sexual abuse that occurred at the facility is zero and the number of criminal findings is zero.</p> <p>Hearing Officer Reference Book addresses that a review of mentally ill inmates should be considered before imposing confinement sanctions that includes the following: referral to programming or counseling, non-confinement sanction would be most likely to correct negative behavior, if non-confinement sanctions have been tried in the past, and any other special consideration.</p> <p>New York State Department of Corrections and Community Supervision operates one of the largest counseling and treatment programs for sex offenders in the nation. Sex Offender and Treatment Program (SOCTP) Guidelines, dated April 2018 provides guidance for administration of this program. The SOCTP is offered at maximum and medium security correctional facilities in the state prison system and provides comprehensive sex offender treatment for convicted sex offenders, inmates convicted of sexually motivated offenses, and inmates whose histories (including behavior while incarcerated), indicate that they are likely to benefit from sex offender counseling and treatment.</p> <p>The main goal of the SOCTP is to reduce the likelihood of reoffending by assisting participants to control their chain of behaviors that lead to sexual offending. This is accomplished by helping participants advance through the following program stages through education, counseling, and treatment. Participants in the SOCTP should be able to demonstrate to SOCTP staff that they have progressed through these stages and met their treatment plan goals. Based on the Department's zero tolerance policy for inmate on inmate sexual abuse as outlined in DIR #4027A and in accordance with the Prison Rape Elimination Act (PREA), inmates who are found guilty of a Tier disposition per the Standard of Inmate Behavior for a sex offense, threats to commit a sex offense, penal law offense of a sexual nature, or attempt thereof while incarcerated will be referred to Office of Guidance and Counseling SOCTP staff per criteria #6 and may be required to participate in the SOCTP. If the inmate has an established sex offender counseling need that pre-dates the inmate-on-inmate sexual abuse, a non-sex offender referral will not be necessary.</p> <p>DIR #4028A, directs any incident of sexual assault on staff by an inmate or parolee will be immediately reported to the Office of Special Investigations and handled in accordance with established Department policy for investigation and criminal prosecution of inmates. This directive will be enforced only if it is determined the staff member did not consent to the contact.</p> <p>DIR #4027A, Sexual Abuse Prevention &amp; Intervention - Inmate on Inmate, and Inmate Rule 101.10 Standards of Inmate Behavior, prohibits inmates from engaging in or soliciting others to engage in sexual acts. No victim of inmate-on-inmate sexual abuse shall be subject to discipline for engaging in sexual acts as a result of threats, intimidation or other coercive</p>

actions. Other sexual contact and conduct of a sexual nature are also prohibited by rules found in Rule Series 101. Inmate on inmate sexual abuse is when one or more inmates engage in sexual conduct, including sexual contact, with another inmate against his or her will or by use of threats, intimidation, or other coercive actions. Inmate on inmate sexual abuse is a form of Prison Rape under the Prison Rape Elimination Act of 2003, (PREA), 42 U.S.C. § 15609.

**Conclusion**

Five Points Correctional Facility had no administrative findings of inmate-on-inmate sexual abuse that occurred in the past 12 months. Based on policy review and interviews with Disciplinary Hearing Staff, Superintendent, and PREA Point Person, Five Points Correctional Facility meets requirements of this standard.

This screening will include an inquiry into the inmate's current and past health, mental health, and PREA history and immediate referral of any inmate to a health provider if indicated. In accordance with the National Prison Rape Elimination Act (PREA) Standards, 28 C.F.R. § 115.81, any information related to sexual victimization or abusiveness that occurred in an institutional setting shall be strictly limited to medical and mental health practitioners and other staff, as necessary, to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments, or as otherwise required by Federal, State, or local law. Medical and mental health practitioners shall obtain informed consent (HIPAA release) from inmates before reporting information about prior sexual victimization that did not occur in an institutional setting, unless the inmate is under the age of 18. It is completed by health care staff upon arrival. It affords a place to obtain consent for those who report abuse that occurred outside the prison to obtain consent. It is specified that it is for inmates over the age of eighteen. It provides a referral for mental health and notification to the Watch Commander if the information triggers a concern, demonstrating that the information is only provided to staff to inform treatment plans and security and management decisions, including housing, bed, work, education, and program assignments.</p> <p>Auditor reviewed forms which verified all follow-up meetings with medical or mental health were within 14 days of the intake screening. Procedure is well implemented. The 3278TR form provided in the folders was completed; one inmate refused to speak and answer the PREA questions about being sexually abused or victimized while incarcerated.</p> <p>The PAQ notes the 100% of incarcerated individuals who disclosed prior victimization during screening were offered a follow-up meeting with medical or mental health, and 100% of incarcerated individuals who have previously perpetrated sexual abuse during the screening were offered a follow-up meeting with a mental health practitioner. The auditor finds this credible based on the process for intake.</p> <p><b>Conclusion</b></p> <p>Review of the randomly reviewed risk assessments supported that the procedure as established by this Agency is being followed. Policy, written authority, interviews with mental health staff and intake staff in addition to evidence of compliance provided with the preaudit documentation supports a finding of compliance with this standard.</p>
