SUMMARY OF AUDIT FINDINGS

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:

a. Identify the community-based organization(s) or victim advocates with whom you communicated:	The facility would utilize Crisis Services to provide these services. A qualified victim advocate will accompany and support the victim through the forensic medical examination process and investigatory interviews and provide emotional support, crisis intervention, information, and referrals if needed. I contacted Crisis Services and verified they provide the services, they further informed me that due to confidentiality, if these services were provided, they would not provide me that information.

Targeted Inmate/Resident/Detainee Interviews

58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:

3

As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".

60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:

SITE REVIEW AND DOCUMENTATION SAMPLING

Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: As you are conducting the site review, you must document your tests of critical functions, important information gathered through observations, and any issues identified with facility practices. The information you collect through the site review is a crucial part of the evidence you will analyze as part of your compliance determinations and will be needed to complete your audit report, including the Post-Audit Reporting Information.

84. Did you have access to all areas of the facility?

- Yes
 No

Was the site review an active, inquiring process that included the following:

85. Observations of all facility practices in accordance with the site review component of the audit instrument (e.g., signage, supervision practices, cross-gender viewing and searches)?

- Yes
 No

86. Tests of all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., risk screening process, access to outside emotional support services, interpretation services)?

- Yes
 No

87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?

- Yes
 No

88. Informal conversations with staff during the site review (encouraged, not required)?

- Yes
 No

89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).

No text provided.

Documentation Sampling

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?

- Yes
 No

91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).

All documents reviewed at source and selected by auditor.

SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY

Sexual Abuse and Sexual Harassment Allegations and Investigations Overview

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0
Total	0	0	0	0

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

Sexual Abuse and Sexual Harassment Investigation Outcomes

Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted

This policy is the Peaceprints of WNY PREA Policy and Procedures. This policy has been in effect since the implementation of PREA in the agency. The policy addresses all aspects of the Prison Rape Elimination Act Standards for Community Confinement. The policy further defines all prohibited acts, the definitions listed in the glossary of terms are consistent with the definitions in the PREA Standards.</p> <p>Subsection (b) The agency has designated a PREA Coordinator. During the interview, he related that he has sufficient time and authority to develop, implement, and oversee agency efforts to comply with the PREA standards. I found the Agency PREA Coordinator to be well versed in the PREA Standards and their daily application in the agency. The position of PREA Coordinator reports directly to the Director of Residential Programs. During the interviews at the facility, I confirmed that the PREA Coordinator is always available to answer questions and provide guidance on PREA related issues.</p>

The policy directs the facility to develop, document, and make its best efforts to comply on a regular basis with the staffing plan. The policy provides for adequate levels of staffing, and where applicable, video monitoring, to protect residents from sexual abuse. In calculating adequate staffing levels and determining the need for video monitoring the agency takes into consideration the following:</p> <ol style="list-style-type: none"> 1) the physical size and layout of the facility; 2) number and type of offenders assigned to the facility; 3) video monitoring to protect offenders against sexual abuse; 4) the prevalence of substantiated and unsubstantiated incidents of sexual abuse; and 5) any other factors. <p>The auditor reviewed the staffing plan and policy and confirmed that these factors are taken into consideration during the development of the staffing plan. This was further confirmed during interviews.</p> <p>Subsection (b) The staffing plan has not been deviated from during the auditing period. The Director confirmed he would document any deviations to the staffing plan.</p> <p>Subsection (c) An annual review of the staffing patterns at the facility and update the staffing plan if needed. The Staffing Plan was reviewed on March 1, 2022. This policy indicates that on an annual basis, the facility is assessing, determining, and documenting whether adjustments are needed to staffing plans, monitoring technologies, and other available resources. I further confirmed the assessment during the interviews with staff. I confirmed with the PREA Coordinator that staffing at the facility is also addressed in the contract with the New York Department of Corrections and Community Supervision.</p>

I confirmed through interviews if the genital status is unknown, it would be determined during conversations with the resident, by reviewing medical records, or, if necessary, by learning the information through a broader medical examination conducted in private by a medical practitioner. It should be noted that all residents are coming into the facility from another correctional setting through the New York State Corrections and Community Supervision. The staff confirmed they normally receive notice of the resident's arrival date, and all pertinent information pertaining to the resident. The genital status would be known prior to the resident's arrival. All interviewed staff confirmed they are not allowed to search or physically examine any resident to determine genital status. A search of this nature has not taken place at the facility.</p> <p data-bbox="242 1662 1465 1722">Subsection (f): The facility does not conduct any searches of the resident's person. The Director indicated that he evaluates the ability of the facility to accommodate disabled residents according to services available, and the ability of the resident to access all areas of the facility. During staff interviews, I confirmed that they would read the material to residents if needed, and utilize the services provided by the agency to ensure the resident understands the PREA information and reporting avenues.</p> <p>Subsection (b): Policy outlines the steps the agency takes to ensure meaningful access to all aspects of the agencies efforts to prevent, detect, and respond to sexual abuse and sexual harassment to individuals who are limited English proficient. This includes written materials and interpretation services either through an outside contractor or approved staff. The facility provided copies of the Spanish PREA notices; these were also viewed at the facility during the facility tour. The interviewed residents confirmed that the notices had been posted in both English and Spanish since their arrival at the facility.</p> <p>The facility would either utilize a staff member who is fluent in the resident's native language or access language service if needed.</p> <p>Subsection (c) Policy prohibits the use of residents to interpret, read, or provide other types of assistance except in limited circumstances where an extended delay in obtaining an effective interpreter would compromise the inmate's safety, the performance of the first responder duties or the investigation of the resident's allegations. All staff interviewed stated they would not allow a resident to interpret for another resident in reporting sexual abuse or sexual harassment, and they felt that they could not control the information once another resident knew about alleged sexual abuse or sexual harassment. They indicated they would utilize the translation services outlined in the policy or contact the PREA Coordinator for further guidance. During the interviews they stated that they would see the resident either upon arrival or the next morning if they come in after they are gone. The normal process is to bring the resident to their office and conduct the screening with them in private. A second assessment is conducted between 20 and 30 days. The second assessment is also conducted in person.</p> <p>Subsection (g) The staff stated that a resident would be reassessed when warranted due to a referral, request, incident of sexual abuse, or receipt of additional information that bears on the resident's risk of sexual victimization or abusiveness. They further confirmed that they had not assessed a resident under any of these conditions in the past 12 months.</p> <p>Subsection (h) The policy prohibits disciplining any resident for refusing to answer, or for not disclosing complete information in response to questions asked during the screening. The Director confirmed they had not disciplined anyone for not answering the questions on the screenings.</p> <p>Subsection (i) The agency has implemented controls on the completed Prison Rape Elimination Act Risk Screening Form- Male Facility. The Prison Rape Elimination Act Risk Screening Form- Male Facility is stored in a secure office. I confirmed with the staff at the facility that general staff do not have access to the information.</p> <p>During the resident interviews I confirmed they were screened during the intake process, and within 30 days of being at the facility.</p> <p>I reviewed the completed screenings for all of the residents. All files reviewed indicated that the residents had been screened within 72 hrs., and a second screening was completed within 30 days.</p> <p>During the staff I confirmed that they meet everyone almost daily. During these meetings they conduct a status check on the resident which includes any issues and overall safety. This practice far exceeds the requirements of the standard.</p>

During the interviews with the staff, they stated that these decisions are made on an individualized basis. They could assign the residents to rooms that are closer to the staff to ensure the resident is monitored closely.</p> <p>Subsections (c)(d)(e)(f) The policy states that the agency considers on a case-by-case basis whether a placement would ensure the health and safety of all impacted residents and whether the placement or accommodation could potentially present management or security problems when assigning a transgender or intersex resident to a facility that is consistent with the residents gender identity and in making other privacy, housing, and programming assignments.</p> <p>During interviews I confirmed the procedures outlined above. As per policy, the agency does not place transgender or intersex residents in dedicated facilities, units, or wings solely based on such identification or status, unless such a placement is in connection with a consent decree, legal settlement, or legal judgment for the purposes of protecting such residents.</p> <p>During the PREA Coordinator interview, I confirmed the agency is not under any legal action or consent decrees. I confirmed that the facility can safely house transgender residents.</p>
