#### IV. IDENTIFICATION & REFERRAL

- A. Classification Screening: As part of the initial screening during classification, the Offender Rehabilitation Coordinator (ORC) will review the records of all incoming incarcerated individuals for possible CMC designation, looking for specific indicators as set forth in Section III using the available materials, including the following:
1. The Pre-Sentence Report.
  2. The Division of Criminal Justice Services (DCJS) Summary Case (Criminal) History (RAP Sheet).
  3. Information submitted by law enforcement officers.
  4. Comments of the sentencing judge and prosecuting attorney, and their recommendations regarding parole.

5. Information appearing in news media corroborated by other sources.
  6. Substantiated disclosures of reliable informants.
  7. Reports of undercover agents.
  8. Admissions or confessions of the incarcerated individual.
- B. Referral: The Classification Analyst or ORC shall submit [Form #149](#), "CMC Case – Transfer Request Summary," specifying incarcerated individuals who meet any of the criteria for CMC designation, as soon as practicable (not to exceed one week), along with the following documentation for each incarcerated individual so identified:
1. One copy of the Pre-Sentence Report.
  2. DCJS Summary Case (Criminal) History (RAP Sheet).
  3. Court commitments.
  4. Initial Security Classification Guideline.
  5. Any other relevant material or reports.
- C. Referral Schedule: Insofar as it is practicable, the following schedule will be adhered to when processing referrals from reception centers:

- Day 6: Referral received by the Deputy Commissioner for Correctional Facilities for review.
- Day 10: Referral received back at the Office of Classification and Movement for the issuance of a transfer order.

The processing of CMC referrals from the extended classification units at the reception centers will be similar to the above with the exception that where the Office of Health Services or the Office of Mental Health Services needs to review the case, the information exchange will be coordinated by the Office of Classification and Movement.

- D. Post-Classification Referral: When it is determined that an incarcerated individual, who has completed the classification process (i.e., an incarcerated individual in general confinement or transit unit status), meets the criteria for designation as a CMC, the assigned Supervising Offender Rehabilitation Coordinator (SORC) or ORC is responsible for preparing and submitting [Form #149](#) as set forth in subsections IV-B and C.

Copies of [Form #149](#) should not be maintained in the incarcerated individual's record folder at the institution until Special Operations' determination of CMC classification (acceptance or rejection) is received. Pending receipt of Special Operations' determination, copies of [Form #149](#) are to be secured to the outside of the record folder. When Special Operations' response is received, it shall be filed in the incarcerated individual's record and Guidance folders.

- E. Any Department of Corrections and Community Supervision (DOCCS) employee who has reason to believe that an incarcerated individual meets the criteria for designation as a CMC, as set forth in Section III, shall advise the appropriate Classification Analyst, ORC, or their supervisor of the basis for this conclusion as soon as practicable. Central Office employees may make referrals directly to Special Operations. Documentation not previously reviewed, new evidence received or located, or deterioration of behavior will be factors considered in addition to the criteria set forth in Section III of this directive.

### A. Special Operations

1. Reviews referrals, and if the review indicates that the incarcerated individual falls within the criteria set forth in subsection V-A-2, Special Operations shall complete [Form #1172](#), "Central Monitoring Case Designation." The ORC will meet with the incarcerated individual, informing them of the designation and the reason(s) for the designation (in advising of the reason[s], however, care should be taken so as to not jeopardize either the security of the institution or the safety of the incarcerated individuals). This form, upon completion, shall be distributed as follows:

  - b. Office of Special Investigations (OSI).
  - c. Central files.
  - d. The facility's Deputy Superintendent for Programs (DSP).
  - e. The facility's Deputy Superintendent for Security (DSS).
  - f. Guidance.
  - g. Incarcerated individual.
2. Reviews referrals and any other available collateral evidence to determine whether the incarcerated individual requires special protection while in custody or requires close supervision because of the nature of their offense, their institutional record, their criminal history, or because of the community status of the incarcerated individual or their victim, or whether the incarcerated individual's offense or prior offenses involved a high degree of sophistication or planning, or were part of a large-scale criminal conspiracy or a continuing criminal enterprise.
3. If the review does not indicate that the incarcerated individual falls within the criteria set forth in subsection V-A-2, the record is so marked and filed with Special Operations and the determination is communicated back to the referring facility by forwarding a copy of the annotated [Form #149](#). Upon receipt of the annotated [Form #149](#), the facility's Inmate Records Coordinator (IRC) and Guidance and Counseling Unit shall note in the incarcerated individual's files to reflect the consideration and the rejection.

  - a. The incarcerated individual may submit written information, in lieu of or in addition to that transcribed by the facility staff member, to OSI for review.

1. Upon receipt of the written material specified in subsection VI-A-1 and 2, OSI will review the information and arrive at a decision as to the designation of the incarcerated individual within a reasonable time.
2. If a review of all available and relevant data, including material and objections submitted by the incarcerated individual, indicates that the CMC designation is not appropriate under the criteria of this directive, the CMC designation shall be removed.   - b. OSI

- F. Special Operations: Upon receipt of the decision from the DOCCS Office of Counsel, Special Operations shall maintain the records accordingly as outlined in subsection VI-B-3 and 4, except for the written notification to the incarcerated individual, which would duplicate notification already sent by the DOCCS Office of Counsel (see subsections VI-D-3 and 4).

**X. EARNED ELIGIBILITY/MERIT TIME EVALUATIONS:** CMC designation in and of itself does not disqualify an incarcerated individual from the issuance of their Earned Eligibility/Merit Time Certificate, but when such an incarcerated individual's earned eligibility or Merit Time evaluation is received in Central Office, the reviewer shall forward the incarcerated individual's name and DIN to Special Operations for relevant comments. After comments on the case are received by the Earned Eligibility Unit, the case shall be presented to the Deputy Commissioner for Programs, for the Earned Eligibility/Merit Time determination.
