NYS Department of Corrections and Community Supervision
RFI 2026-08 Community Based Residential Program (CBRP)

Addendum 1 - Questions and Answers

Question Number	RFI Section	Questions Received	DOCCS' Responses to Questions
1		**Length Of Stay** Is there a requirement of the governing regulations, funding requirements, and/or program design for the maximum 120 day stay for residents, or can it be increased to 180 days?	Program requirement is maximum 120-day as determined by DOCCS.
2		**ADA Or Housing Requirement Waivers** Are there possibilities for some programs to allow exceptions, alternative compliance plans, grandfathering provisions, variances, or reasonable transition periods depending on the applicable regulations and funding sources?	Workplan and contract requirements will outline all housing requirements in the RFA that must be adhered to.
3	Catchment Areas	**Schenectady Female Beds** We are unable to determine whether female beds in the Schenectady catchment area are being eliminated and replaced with male beds? Will you please clarify this for us?	Official catchment areas will be outlined in the RFA indicating needs of population served.
4		What is the anticipated contract value for this service?	DOCCS is issuing this RFI seeking information from vendors regarding potential contract value.
5		Is there a timeline in pursuing the project?	New contracts for round 1 will start 10/01/2027 and run for 5 years.

6		Is there a current vendor providing this service or is a new requirement? If there is a current vendor, could you please provide the current contract documents/information?	This is not a new service, currently there are active contracts in place for these services. Documents related to those contracts must be requested through the FOIL process which can be located at: https://doccs.ny.gov/freedom-information-law-foil
7		Does the requirement that three meals be "prepared and provided daily" allow residents to prepare their own breakfast and lunch onsite using groceries supplied by the program, while program staff prepare dinner each evening?	Program must provide three well-balanced nutritious meals. Residents are able to prepare their own meals with all food ingredients provided by the program.
8		For Question 5, is DOCCS seeking an annual operating estimate, a projected five-year estimate, or both?	Please refer to RFI Amendment 1
9		For an existing CBRP operating in an agency-owned facility, should Question 5 include only ongoing operating costs, or are there facility-related costs DOCCS would allow to be included as "development costs"?	All facilities must meet minimum required at time of site visit. DOCCS will not provide development costs.

All other terms and conditions remain the same.

Applicants should continue to monitor the New York State Contract Reporter for posted updates or information: http://www.nyscr.ny.gov
